Docket No. 50-341

The Detroit Edison Company ATTN: Wayne H. Jens Vice President Nuclear Operations 6400 North Dixie Highway Newport, MI 48166

Gentlemen:

This refers to the routine safety inspection conducted by P. M. Byron and M. E. Parker, of this office on April 1 through June 15, 1984, of activities at Enrico Fermi 2 Nuclear Power Station, Unit 2, authorized by NRC Construction Permit No. CPPR-87 and to the discussion of our findings with Mr. R. Lenart at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

No items of noncompliance with NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure(s) will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1). If we do not hear from you in this regard within the specified periods noted above, a copy of this letter and the enclosed inspection report will be placed in the Public Document Room.

The Detroit Edison Company
