Gentlemen:

This refers to the inspection conducted by Mr. James Kelly of this office during the period May 8-11, 1984, of activities authorized by NRC Construction Permit CPPR-103, for Waterford-3 Steam Electric Station, and to the discussion of our findings with Mr. Robert Lailheugue and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included security-related testing and maintenance, communications, contingency response, and emergency power supply. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material, with the exception of the report cover page which is an inspection summary, will not be placed in the Public Document Room.
