RE: Limerick Nuclear Generating Station  
Docket Nos. 50-352, 50-353; Graterford  
Prisoners' Evacuation Plan

Dear Ms. Ferkin:

I am writing to you in order to reiterate my concerns regarding the evacuation plan for the inmates at the State Correctional Institute at Graterford, Pennsylvania. I have recently received notice of an opportunity for limited appearances and resumption of evidentiary hearings regarding the off-site contentions at the Limerick facility. I noted that Attachment No. 2 entitled "The Texts of Off-Site Emergency Contentions Admitted as of October 20, 1984," made no mention of the contention filed on behalf of the Graterford inmates. In a ruling before the Nuclear Regulatory Commission, I have been informed that I would have twenty (20) days from the date of receipt of the evacuation plan to submit my contentions on behalf of the inmates. To date, I have not received the plan despite reading numerous statements in the paper as to what the supposed plans involve.

My purpose in writing to you is to express my concern that the inmates do, in fact, have a voice in this proceeding. Could you please review your file and let me know when I might expect to receive some information with regard to this matter.

Sincerely,

Angus R. Love, Esquire
