

BEFORE THE ATOMIC SAFETY AND LICENSING BOARD

In the Matter of)
PHILADELPHIA ELECTRIC COMPANY) Docket No. 50-352
(Limerick Generating Station,) 50-353
Units 1 and 2))
November 2, 1984

REQUEST OF LIMERICK ECOLOGY ACTION FOR ISSUANCE OF A SUBPOENA
TO OBTAIN THE TESTIMONY OF BARBARA GREASER, PRESIDENT OF THE
SOUDERTON AREA EDUCATION ASSOCIATION ON OFF-SITE EMERGENCY
PLANNING CONTENTIONS IN THE ABOVE ACPTIONED PROCEEDING

Pursuant to 10.CFR § 2.720, Limerick Ecology Action respectfully requests the Atomic Safety and Licensing Board to issue a subpoena to Barbara Greaser, President of the Souderton Area Education Association so that the attached letter may become her testimony in this proceeding on off-site emergency planning contentions. Ms. Greaser's address is:

Barbara Greaser
1660 Old Fourty Foot Road
Harleysville, Pa. 19438

(215-368-5209)

LEA requests that Ms. Greaser appear at the United States Customs Court House, Second and Chestnut Streets (Room 300) in Philadelphia on November 28th., at 9:00 a.m. and that she be on 24 hour standby phone alert standby every day thereafter until called to testify on behalf of Limerick Ecology Action on the subject of off-site emergency planning matters relating to the Souderton School District.

LEA attempted to obtain written testimony from Ms. Greaser on behalf of the Teachers Association on school related contentions in this proceeding. Her statement is attached, but she prefers to be subpoenaed to present this statement as testimony, if the Licensing Board grants LEA's request to issue the subpoena.

Therefore, LEA respectfully requests approval of a subpoena so that Ms. Greaser may appear as a witness on behalf of Limerick Ecology Action.

Respectfully submitted,

Phyllis Zitzer
Phyllis Zitzer, LEA President

STATEMENT OF BARBARA GREASER
President of the
Souderton Area Education Association

My name is Barbara Greaser. I am the current President of the Souderton Area Education Association. I live at 1660 Old Fourty Foot Road in Harleysville. I am a 14 year math and science teacher at the Indian Valley Junior High School. I represent the concerns of 2 of the school buildings in the Souderton School District.

One of these buildings, Salford Hills Elementary, is located within the 10 mile radius of the Limerick power plant, designated for evacuation in the event of a radiological emergency. The other, Indian Valley Junior High School is a host building. Faculty members at each of these schools have not been approached, questioned, surveyed, or trained about emergency response plans for Limerick. To my knowledge, the parents have not been surveyed either.

Souderton School District is working on the fourth draft of a proposed radiological emergency response plan and after presentation to the School Board, will be open to comments from parents, teachers, and the public.

It has been brought to my attention that this issue was discussed at a Salford Hills Elementary School building meeting. Some teachers question whether they are responsible for the safety and well-being of their own families, as opposed to the children at school in the event of an emergency at Limerick.

I am aware that our Superintendent, Dr. Price, is trying to develop a workable plan in coordination with area townships and county officials. However, at this time, there are still many unanswered questions.
