SUBJECT: SOILS SHUTDOWN ACTIVITIES

Dear Mr. Mooney:

The NRC staff has reviewed your letter dated July 26, 1984, requesting the NRC to authorize completion of the soils shutdown activities.

The staff, based on this review, has concluded that the listed activities are necessary tasks to halt the remedial soils work in progress and leave the work in a safe layup condition. This letter, therefore, authorizes CPCo to proceed with the soils shutdown activities listed in the referenced letter.

Sincerely,

"Original signed by R. F. Warnick"
