Mr. Thomas T. Martin  
Division of Engineering and Technical Programs  
U.S. Nuclear Regulatory Commission  
Region 1  
631 Park Avenue  
King of Prussia, PA 19406

Subject: June 2, 1984, Letter Requesting Further Information  
on Our Response to the Inspection Report for Inspection  
#50-244/84-02

Dear Mr. Martin:

Our response to Item A indicated that we would develop a new procedure to cover the overall use of air sampling devices at Ginna Station. We are currently in the process of developing this procedure and it will be completed prior to September 1, 1984.

Our response to Item B indicated that we would incorporate the vendor "process control" procedure into a PORC approved procedure. This item is now complete.

To Item D-1, we indicated we would clarify in procedure HP-4.3 who should sign as supervisor on a Special Work Permit. This item has also been completed.

Very truly yours,

Roger W. Kober
