

October 26, 1995

Mr. Robert W. Heidecker
Manager - Operator Training
Northeast Nuclear Energy Company
P. O. Box 128
Waterford, Connecticut 06385

Dear Mr. Heidecker:

On October 3, 1995, the NRC administered a generic fundamentals examination (GFE) section of the written operator licensing examination to employees of Millstone 2 and Millstone 3. Enclosed with this letter are copies of both forms of the examination, including answer keys, the grading results for your facilities, and copies of the individual answer sheets for each of your employees. One individual was administered the examination for Millstone 2 and one passed the examination. Two individuals were administered the examination for Millstone 3 and two passed the examination. Please forward the results to the individuals along with the copies of their answer sheets. A "P" in the column labeled RESULTS indicates a passing grade of 80 percent or better on the GFE. Those individuals having an "F" in the RESULTS column failed the examination.

If you have any questions on the material sent with this letter, please contact Mr. Ivan Kingsley at 203-442-4355, Ext. 451.

Sincerely,

Original signed by

Michael C. Modes, Acting Chief
Operator Licensing and
Human Performance
Division of Reactor Safety
