)
NEW YORK POWER AUTHORITY) Docket No. 50-333
)
James A. FitzPatrick Nuclear Power Plant)

APPLICATION FOR AMENDMENT TO
OPERATING LICENSE

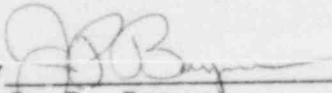

Pursuant to Section 50.90 of the regulations of the Nuclear Regulatory Commission (NRC), the New York Power Authority, as holder of Facility Operating License No. DPR-59, hereby applies for an Amendment to the Technical Specifications contained in Appendix A of this license.

This proposed change to the James A. FitzPatrick Operating License seeks to amend Section 3.6.I and 4.6.I (Shock Suppressors-Snubbers) on pages 145a to 145g, 156, 156a and 255, and deletes Table 3.6-1 of Appendix A. The changes proposed modify the surveillance requirements for snubbers. Table 3.6-1 is being deleted as per Generic Letter 84-13 (Reference 3).

These proposed changes supercede changes previously transmitted in the Authority's July 13, 1981 submittal to the NRC (Reference 1).

The proposed changes to the Technical Specifications are presented in Attachment I to this Application. The Safety Evaluation is included in Attachment II.
