E. Z. McCabe, Chief
Emergency Preparedness Section
Facility Radiation Safety and Safeguards
Division of Reactor Safety and Safeguards
U.S. Nuclear Regulatory Commission, Region I
475 Allendale Road
King of Prussia, PA 19406

Dear Mr. McCabe:

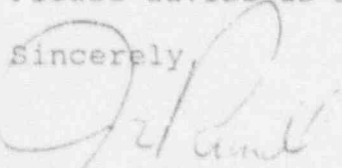

This is to advise you that the New York Power Authority intends to conduct its Full Participation Emergency Preparedness Exercise as defined in 10CFR50, Appendix E, at its Indian Point 3 Site on Wednesday, June 10, 1992.

FEMA, New York State and the four surrounding counties (Westchester, Orange, Rockland, and Putnam) have all agreed to this date. We have previously discussed this date with the NRC and now request formal concurrence from you.

In accordance with NRC Inspection Manual, Inspection Procedure 82302 (Review of Exercise Objectives and Scenarios for Power Reactors), the exercise objectives and scenario will be submitted to your office by March 11, 1992 and April 10, 1992, respectively.

Please advise us as to the acceptability of these dates.

Sincerely,

Joseph E. Russell
Resident Manager
