MEMORANDUM FOR: James Lieberman, Director

FROM: James G. Partlow
Associate Director for Projects
Office of Nuclear Reactor Regulation

SUBJECT: PROPOSED ORDER IMPOSING CIVIL PENALTY -
COOPER NUCLEAR STATION

The Division of Systems Safety and Analysis and the Division of Reactor Projects - III/IV/V have reviewed the proposed Order Imposing Civil Penalty regarding the Cooper Nuclear Station. We concur with the action proposed by the Region.

By memorandum dated March 15, 1993, NRR concluded that the associated violations were properly evaluated from an overall agency perspective and concurred with the proposed enforcement action. Based on our thorough review of the NRC Notice of Violation, dated March 30, 1993, and the licensee's Answer to a Notice of Violation, dated April 29, 1993, NRR believes that the proposed Order Imposing Civil Penalty is appropriate and supports it.
