Dear Mr. Watzl:

We have received the enclosed Federal Emergency Management Agency (FEMA) correspondence dated October 5, 1995 transmitting the FEMA evaluation report for the June 20, 1995 Emergency Preparedness Exercise at the Monticello Nuclear Power Station.

No deficiencies were identified during this exercise. However, four Areas Requiring Corrective Action (ARCAs) were identified during the exercise.

We fully recognize that any remaining corrective actions to be implemented may involve parties and political institutions which are not under your direct control. Nonetheless, we expect that assistance, if appropriate, will be extended.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed FEMA correspondence will be placed in the NRC Public Document Room.

Sincerely,

Original Signed by James E. Foster
