

UNITED STATES
NUCLEAR REGULATORY COMMISSION

ANNOUNCEMENT NO. 57

DATE: July 28, 1995

TO: ALL NRC EMPLOYEES

SUBJECT: NUREG-0325 - NRC ORGANIZATION CHARTS AND
FUNCTIONAL STATEMENTS

Attached is a copy of NUREG-0325, Revision 18, dated July 23, 1995, consisting of organization charts and functional statements for all NRC offices and regions and their components down through the branch level as of July 23, 1995. This replaces NUREG-0325 Revision 17 dated October 3, 1994. Employees needing extra copies may obtain them through the distribution contractor by telephoning (202) 512-2409.

A handwritten signature in black ink, appearing to read "P. E. Bird".

Paul E. Bird, Director
Office of Personnel

Attachment: As stated

AVAILABILITY NOTICE

Availability of Reference Materials Cited in NRC Publications

Most documents cited in NRC publications will be available from one of the following sources:

1. The NRC Public Document Room, 2120 L Street, NW., Lower Level, Washington, DC 20555-0001
2. The Superintendent of Documents, U.S. Government Printing Office, P. O. Box 37082, Washington, DC 20402-9328
3. The National Technical Information Service, Springfield, VA 22161-0002

Although the listing that follows represents the majority of documents cited in NRC publications, it is not intended to be exhaustive.

Referenced documents available for inspection and copying for a fee from the NRC Public Document Room include NRC correspondence and internal NRC memoranda; NRC bulletins, circulars, information notices, inspection and investigation notices; licensee event reports; vendor reports and correspondence; Commission papers; and applicant and licensee documents and correspondence.

The following documents in the NUREG series are available for purchase from the Government Printing Office: formal NRC staff and contractor reports, NRC-sponsored conference proceedings, international agreement reports, grantee reports, and NRC booklets and brochures. Also available are regulatory guides, NRC regulations in the *Code of Federal Regulations*, and *Nuclear Regulatory Commission Issuances*.

Documents available from the National Technical Information Service include NUREG-series reports and technical reports prepared by other Federal agencies and reports prepared by the Atomic Energy Commission, forerunner agency to the Nuclear Regulatory Commission.

Documents available from public and special technical libraries include all open literature items, such as books, journal articles, and transactions. *Federal Register* notices, Federal and State legislation, and congressional reports can usually be obtained from these libraries.

Documents such as theses, dissertations, foreign reports and translations, and non-NRC conference proceedings are available for purchase from the organization sponsoring the publication cited.

Single copies of NRC draft reports are available free, to the extent of supply, upon written request to the Office of Administration, Distribution and Mail Services Section, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001.

Copies of industry codes and standards used in a substantive manner in the NRC regulatory process are maintained at the NRC Library, Two White Flint North, 11545 Rockville Pike, Rockville, MD 20852-2738, for use by the public. Codes and standards are usually copyrighted and may be purchased from the originating organization or, if they are American National Standards, from the American National Standards Institute, 1430 Broadway, New York, NY 10018-3308.

U.S. NUCLEAR REGULATORY COMMISSION

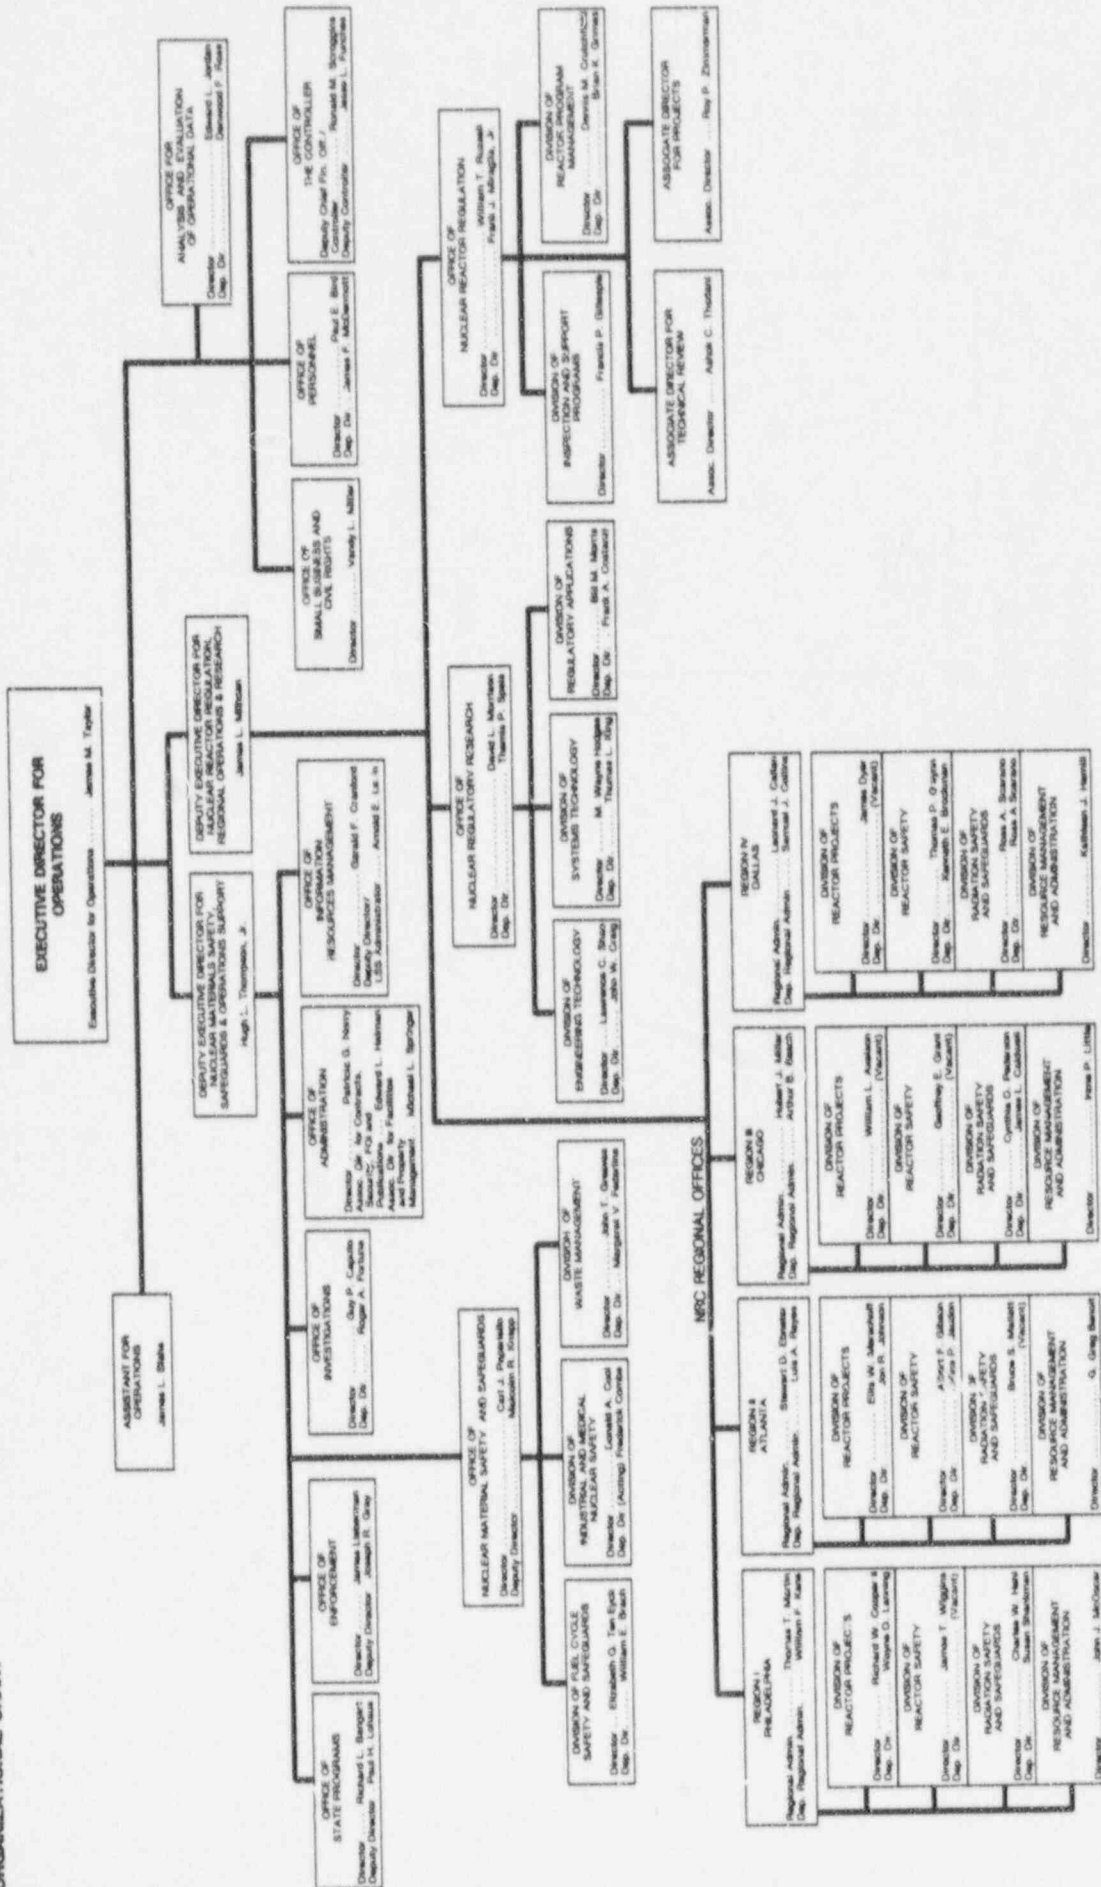

ORGANIZATIONAL CHART

THE COMMISSION

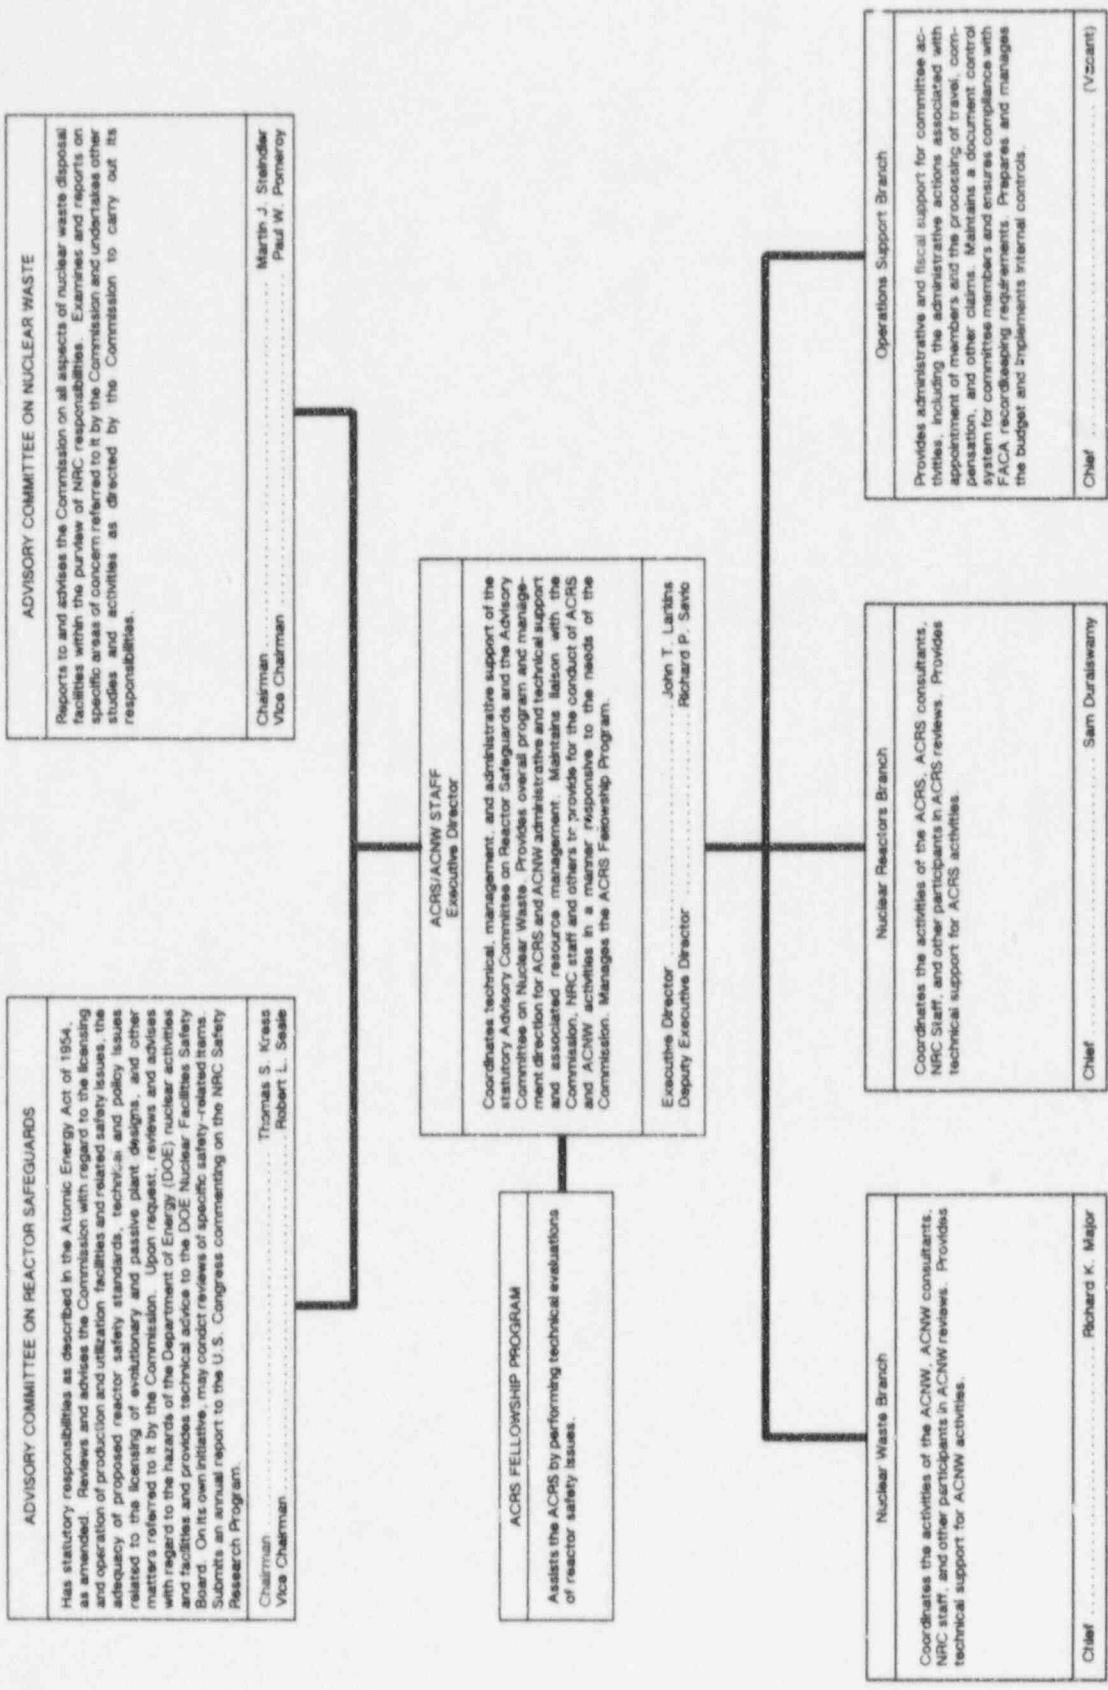

The Commission is responsible for licensing and regulating nuclear facilities and materials and for conducting research in support of the licensing and regulatory process, as mandated by the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and the Nuclear Nonproliferation Act of 1978; and in accordance with the National Environmental Policy Act of 1969, as amended, and other applicable statutes. These responsibilities include protecting public health and safety; protecting the environment; protecting and safeguarding materials and plants in the interest of national security; and assuring conformity with antitrust laws. Agency functions are performed through standards-setting and rulemaking; technical reviews and studies; conduct of public hearings; issuance of authorizations, permits, and licenses; inspection, investigation, and enforcement; evaluation of operating experience; and confirmatory research. The Commission is composed of five members, appointed by the President and confirmed by the Senate, one of whom is designated by the President as Chairman.

The Chairman is the principal executive officer of and the official spokesman for the NRC, as mandated by the Reorganization Plan No. 1 of 1980. As principal executive officer, the Chairman is responsible for conducting the administrative, organizational, long-range planning, budgetary, and certain personnel functions of the agency. He/she has ultimate authority for all NRC functions pertaining to an emergency involving an NRC license. His/her actions are governed by the general policies of the Commission.

- Shirley Ann Jackson Chairman
- Kenneth C. Rogers Commissioner
- (Vacant) Commissioner
- (Vacant) Commissioner
- (Vacant) Commissioner

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Has statutory responsibilities as described in the Atomic Energy Act of 1954, as amended. Reviews and advises the Commission with regard to the licensing and operation of production and utilization facilities and related safety issues, the adequacy of proposed reactor safety standards, technical and policy issues related to the licensing of evolutionary and passive plant designs and other matters referred to it by the Commission. Upon request, reviews and advises with regard to the hazards of the Department of Energy (DOE) nuclear activities and facilities and provides technical advice to the DOE Nuclear Facilities Safety Board. On its own initiative, may conduct reviews of specific safety-related items. Submits an annual report to the U.S. Congress commenting on the NRC Safety Research Program.

Chairman Thomas S. Kress
Vice Chairman Robert L. Sesie

ADVISORY COMMITTEE ON NUCLEAR WASTE

Reports to and advises the Commission on all aspects of nuclear waste disposal facilities within the purview of NRC responsibilities. Examines and reports on specific areas of concern referred to it by the Commission and undertakes other studies and activities as directed by the Commission to carry out its responsibilities.

Chairman Martin J. Steinhilber
Vice Chairman Paul W. Pomeroy

ACRS/ACNW STAFF
Executive Director

Coordinates technical, management, and administrative support of the statutory Advisory Committee on Reactor Safeguards and the Advisory Committee on Nuclear Waste. Provides overall program and management direction for ACRS and ACNW administrative and technical support and associated resource management. Maintains liaison with the Commission, NRC staff and others to provide for the conduct of ACRS and ACNW activities in a manner responsive to the needs of the Commission. Manages the ACRS Fellowship Program.

Executive Director John T. Lantini
Deputy Executive Director Richard P. Savo

ACRS FELLOWSHIP PROGRAM

Assists the ACRS by performing technical evaluations of reactor safety issues.

Nuclear Waste Branch

Coordinates the activities of the ACNW, ACNW consultants, NRC staff, and other participants in ACNW reviews. Provides technical support for ACNW activities.

Chief Richard K. Major

Nuclear Reactors Branch

Coordinates the activities of the ACRS, ACRS consultants, NRC staff, and other participants in ACRS reviews. Provides technical support for ACRS activities.

Chief Sam Duraiswamy

Operations Support Branch

Provides administrative and fiscal support for committee activities, including the administrative actions associated with appointment of members and the processing of travel, compensation, and other claims. Maintains a document control system for committee members and ensures compliance with FACA recordkeeping requirements. Prepares and manages the budget and implements internal controls.

Chief (Vizant)

U. S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

<p>ATOMIC SAFETY AND LICENSING BOARD PANEL</p>	<p>Conducts hearings for the Commission and performs such other regulatory functions as the Commission authorizes. The Chief Administrative Judge develops and applies procedures governing the activities of boards, administrative judges, and administrative law judges, and makes appropriate recommendations to the Commission concerning the rules governing the conduct of hearings.</p> <p>Chief Administrative Judge (Chairman) B. Paul Cottler, Jr. Deputy Chief Administrative Judge (Executive) James P. Gibson Deputy Chief Administrative Judge (Technical) Frederick J. Shon</p>
<p>THE PANEL</p>	<p>Conducts all licensing and other hearings as directed by the Commission primarily through individual Atomic Safety and Licensing Boards appointed by either the Commission or the Chief Administrative Judge. There is no fixed number of positions in the Panel. The Panel is comprised of: (1) administrative judges (full-time and part-time), who are lawyers, physicists, engineers, and environmental scientists; and (2) administrative law judges who hear antitrust, civil penalty, and other cases and serve as Atomic Safety and Licensing Board Chairpersons. One to three administrative judges serve as presiding officers alone or on boards for a broad range of proceedings.</p>
<p>CHIEF COUNSEL</p>	<p>Provides all legal and technical support to the Chief Administrative Judge, the administrative law judges, boards, and panel.</p> <p>Chief Counsel Lee S. Dewey</p>
<p>PROGRAM SUPPORT AND ANALYSIS STAFF</p>	<p>Provides planning, development, coordination, implementation, and analyses of policies and programs in support of the Panel including budget, personnel, labor relations, professional services, travel, space and facilities, equipment, contracts, information management including ADP equipment and development; adjudicatory files and services; library facilities, stenographic and clerical services including field hearing space; equipment management and coordination; meetings; employee training and development; FOIA; license fee data; security; and safety engineering.</p> <p>Provides support and services in information management which includes computerized adjudicatory files, license fee data, management information systems, and other management information applicable to Panel activities.</p> <p>Manages court reporting contract for all offices except the Commission's offices.</p> <p>Director Jack G. Whetstone</p>

OFFICE OF COMMISSION APPELLATE ADJUDICATION

Responsible for monitoring cases pending before presiding officers; providing the Commission with an analysis of any adjudicatory matter requiring a Commission decision (e.g., petitions for review of final licensing board decisions, certified questions, interlocutory referrals, stay requests); including available options; drafting any necessary decisions pursuant to the Commission's guidance after presentation of options; and consulting with the Office of the General Counsel in identifying options to be presented to the Commission and in drafting the final decision to be presented to the Commission.

Director (Acting) John F. Cordes, Jr.

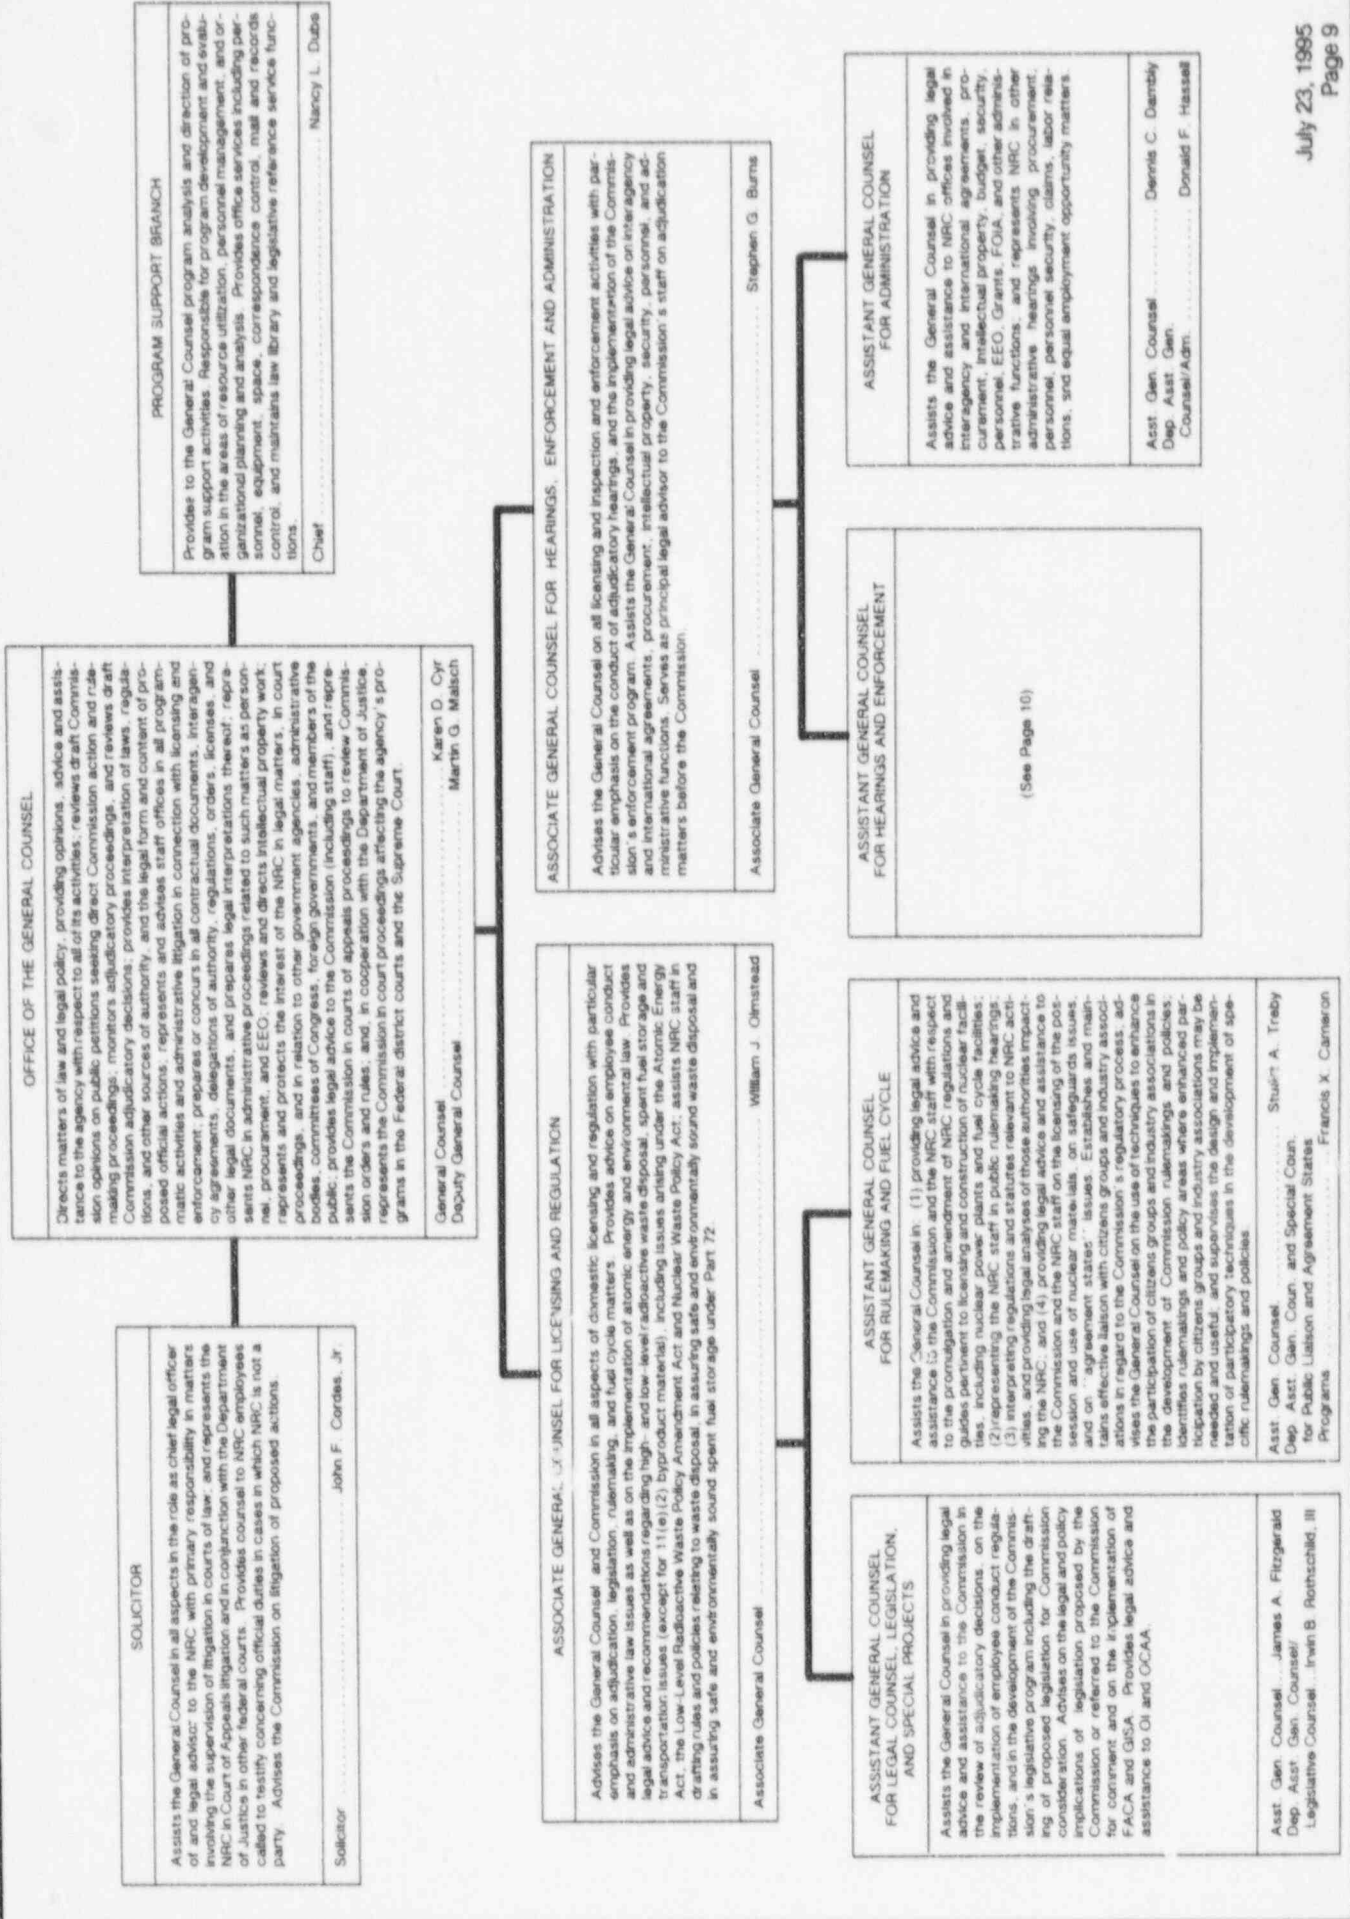

ORGANIZATIONAL CHART U.S. NUCLEAR REGULATORY COMMISSION

COMMISSION DECISION TRACKING SYSTEM PROJECT OFFICE
Develops and manages the electronic library of key policy documents of interest to the Commission.
Director Samuel J. Chitt

OFFICE OF CONGRESSIONAL AFFAIRS	
Provides advice and assistance to the Chairman, Commission, and NRC staff on all NRC relations with Congress and views of Congress toward NRC policies, plans, and activities; maintains liaison with Congressional committees and members of Congress on matters of interest to NRC; serves as primary contact point for all NRC communications with Congress, reviewing and concurring in all outgoing correspondence to members of Congress; coordinates NRC internal activities with Congress; plans and develops NRC's legislative program; and monitors legislative proposals, bills, and hearings.	
Director	Dennis K. Rathbun
Associate Director	Linda E. Portner

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

OFFICE OF THE GENERAL COUNSEL

ASSISTANT GENERAL COUNSEL FOR HEARINGS AND ENFORCEMENT

Assists the General Counsel in (1) representing the NRC in public hearings conducted in conjunction with the licensing of nuclear reactors/materials users and facilities, and assisting with the development of legal policy associated with such licensing, providing advice and consultation to the staff on health, safety, environmental and anti-trust matters arising from the licensing process, and (2) providing legal advice and assistance to the Commission, regional offices, and the Offices of Enforcement, Investigations, Nuclear Material Safety and Safeguards, and Nuclear Reactor Regulation on inspection and enforcement matters and advising and representing NRC offices in enforcement proceedings involving imposition of civil penalties, modifications, and suspension or revocation of licenses.

Assistant General Counsel Lawrence J. Chender

Materials, Antitrust and Special Proceedings Branch

Represents the NRC in public hearings conducted in conjunction with the licensing of nuclear reactors (including license renewal and decommissioning) and materials users and facilities (including export activities), as well as in enforcement proceedings. Assists in the development of legal policy associated with such licensing, and provides advice and counsel to the staff on health and safety, environmental and antitrust issues associated with the licensing process.

Provides legal analysis and counseling to NRC staff concerning complex technical and factual matters and application thereto of all substantive NRC regulations, orders, licenses and policies, as well as the Commission's procedural regulations in 10 CFR Part 2.

Dep. Asst. General Counsel Joseph Rutberg

Enforcement Branch

Provides legal advice and assistance to the Commission, regional offices, and the Offices of Enforcement, Investigations, Nuclear Material Safety and Safeguards, and Nuclear Reactor Regulation on inspection and enforcement matters, advises and assists in representing NRC offices in enforcement proceedings against licensees involving imposition of civil penalties and the modification, suspension, or revocation of licenses; and interacts with the Department of Justice on criminal actions associated with NRC enforcement actions.

Provides legal analysis and counseling to NRC staff concerning complex technical and factual matters and the application thereto of NRC regulations, orders, generic communications, licenses and policies, such as the Commission's Enforcement Policy set forth in 10 CFR Part 2, Appendix C, of the Commission's regulations. Coordinates legal services and activities for the NRC regional offices.

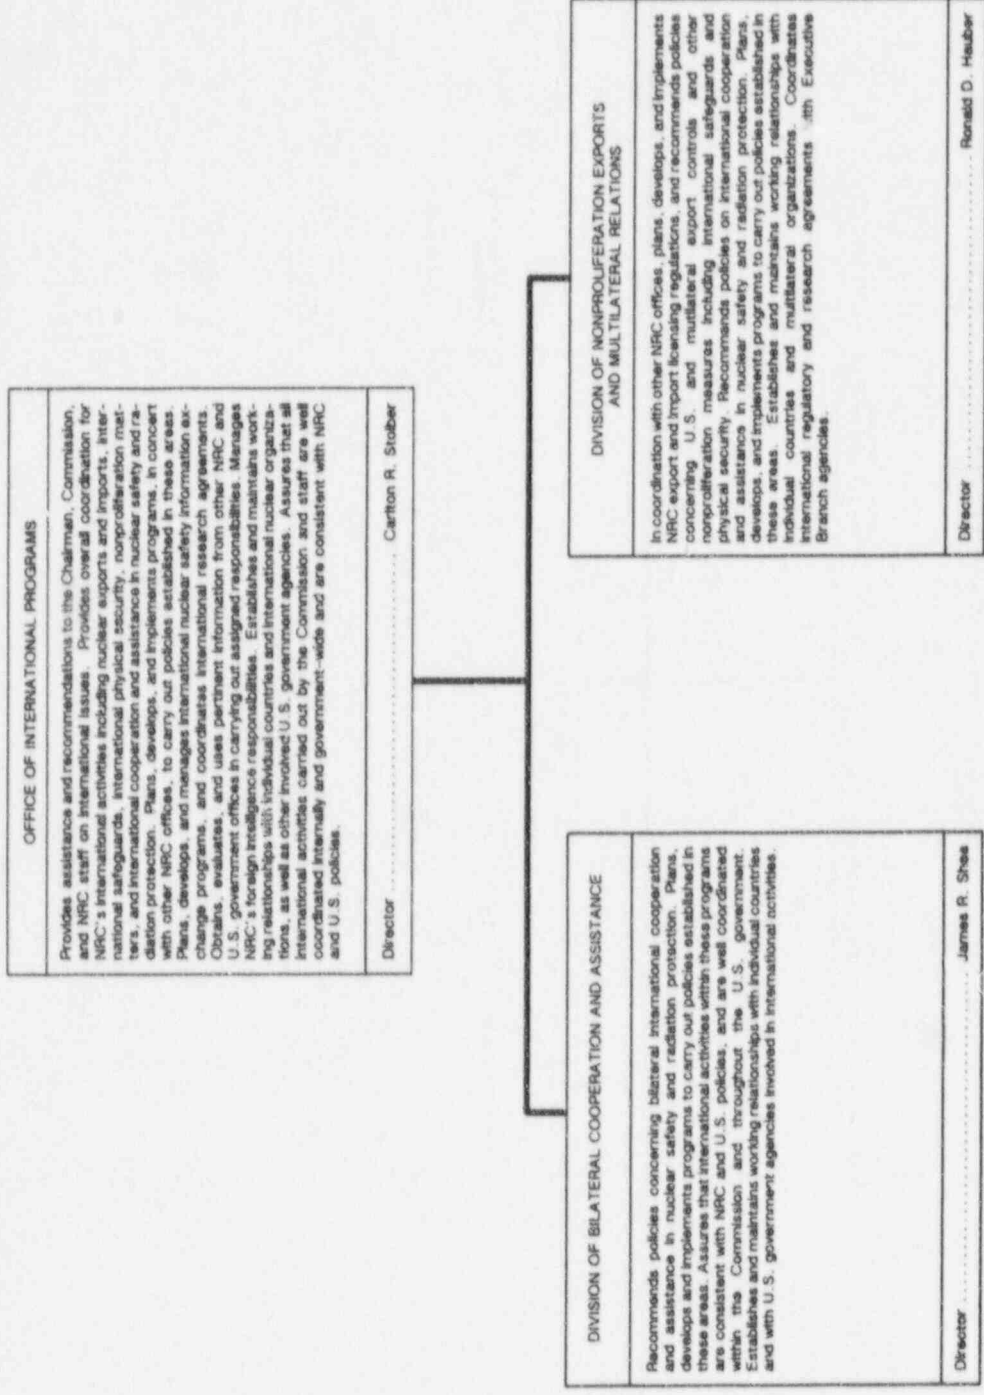

Dep. Asst. General Counsel Jack R. Goldberg

Advanced Reactor, License Renewal and Special Proceedings Branch

Represents the NRC in public hearings conducted in conjunction with the licensing of nuclear reactors (including advanced reactors, license renewal and decommissioning) and materials users and facilities (including export activities), as well as in enforcement proceedings. Assists in the development of legal policy associated with such licensing, and provides advice and counsel to the staff on health, safety, environmental and antitrust issues associated with the licensing process.

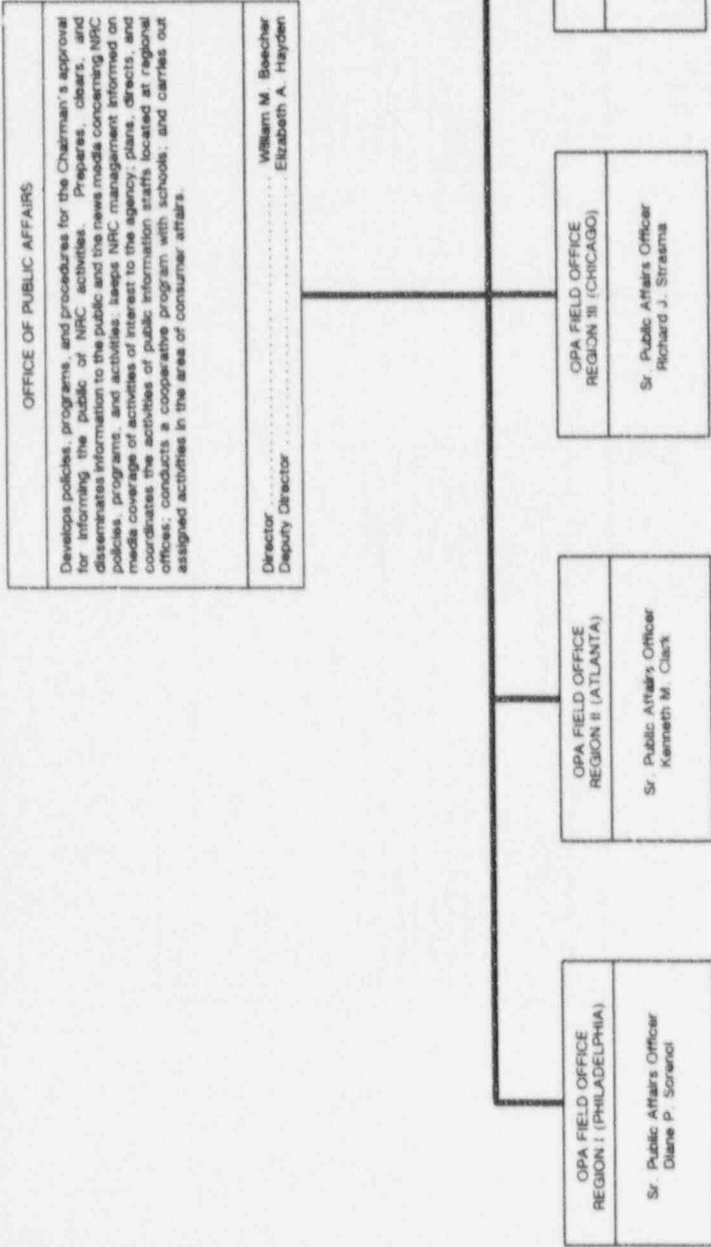

Provides legal analysis and counseling to NRC staff concerning complex technical and factual matters and application thereto of all substantive NRC regulations, orders, licenses and policies, as well as the Commission's procedural regulations in 10 CFR Part 2.

Dep. Asst. General Counsel Janice E. Moore

U.S. NUCLEAR REGULATORY COMMISSION

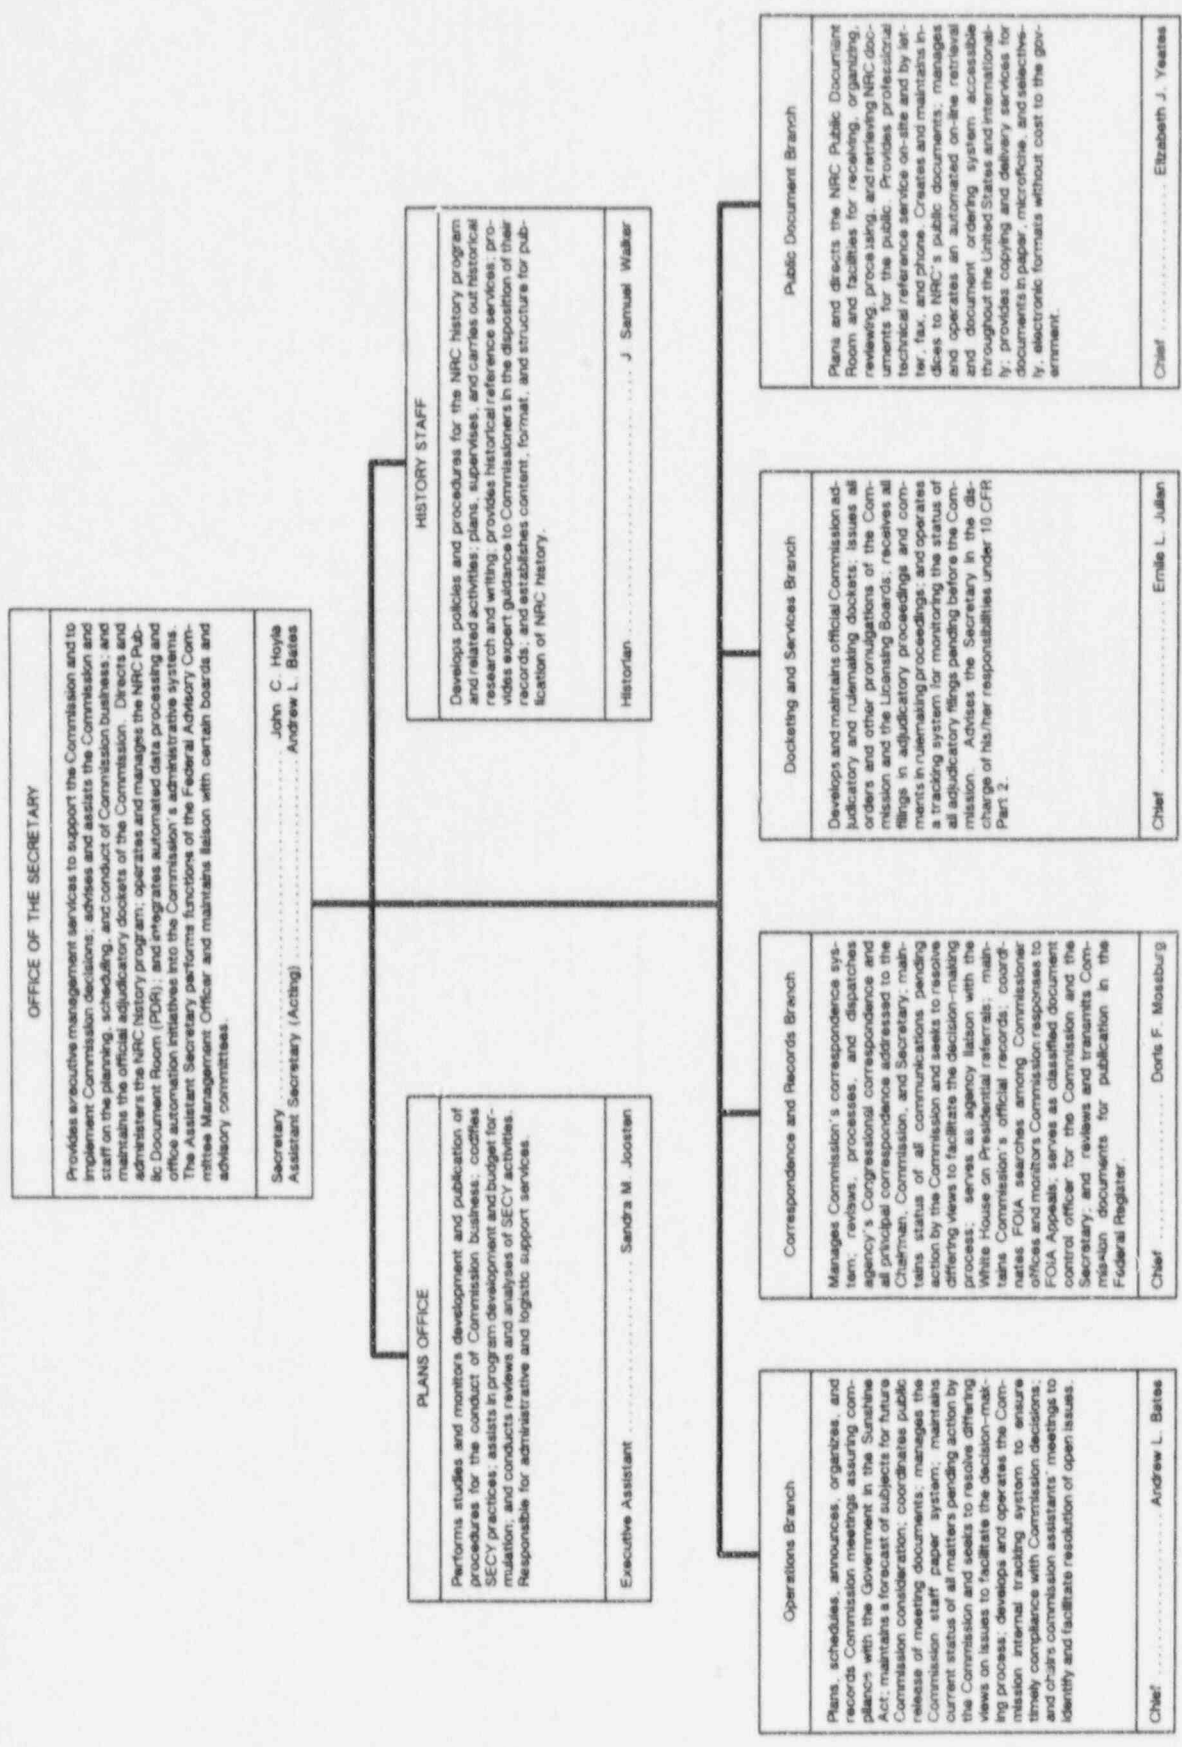

ORGANIZATIONAL CHART

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

OFFICE OF THE INSPECTOR GENERAL

Provides policy direction for and conducts, supervises, and coordinates audits and investigations relating to all NRC programs and operations; reviews existing and proposed legislation and regulations and makes recommendations concerning their impact on the economy and efficiency of NRC programs and operations and on the prevention and detection of fraud and abuse in such programs and operations; recommends policies for, and conducts, supervises, or coordinates other activities for the purpose of promoting economy and efficiency in the administration of, or preventing and detecting fraud and abuse in, NRC programs and operations; recommends policies for and conducts, supervises, or coordinates relationships between the NRC and federal, state and local agencies, and non-governmental entities relating to the promotion of economy and efficiency in the administration of, or prevention and detection of fraud and abuse in, NRC programs and operations or identification and prosecution of participants in fraud and abuse in, NRC programs and operations fully and currently informed concerning fraud and other serious problems, abuses and deficiencies relating to the administration of NRC programs and operations; recommends corrective actions and reports on the progress made in implementing corrective actions; complies with GAO standards for audits of federal establishments, organizations, programs, activities and functions; and expeditiously refers criminal matters to the Department of Justice.

Inspector General David C. Williams

COUNSEL TO THE INSPECTOR GENERAL

Provides authoritative legal advice, assistance, and support to the Inspector General and OIG staff in the areas that support audits, investigations, and other critical and complex OIG activities. Serves as the designated agency Special Counsel for all OIG matters, operating as the legal expert on all OIG matters within the agency. Serves as legal advisor and representative for personnel, procurement and other internal OIG matters. Performs comprehensive reviews and provides commentary on existing and proposed legislation and regulations for their impact on the economy and efficiency of the administration of NRC programs and operations.

Counsel Maryann L. Grodin

ASSISTANT INSPECTOR GENERAL FOR INVESTIGATIONS

Responsible for directing the performance of investigative activities relating to NRC programs and operations including the development of policies, standards, and procedures. Conducts and reports on investigations involving fraud, waste, and abuse to ascertain and verify the facts with regard to the integrity of NRC programs and operations; maintains liaison with law enforcement agencies and other investigative organizations in efforts known as Event Inquiries that involve the examination of events or a high level management decision not focusing specifically on individual misconduct.

Assistant Inspector General Leo J. Norton
Deputy Assistant Inspector General Robert A. Watkins

ASSISTANT INSPECTOR GENERAL FOR AUDITS

Responsible for directing the performance of auditing activities relating to NRC programs and operations. Prepares reports of audits setting forth findings and recommendations for corrective action, determines that reports have been reviewed and properly acted upon and are in accordance with the GAO standards for auditing, and follows up on audit recommendations and brings to the attention of proper officials any matters on which corrective action has not been taken. Performs assessment of the agency's implementation of audit report recommendations.

Assistant Inspector General Thomas J. Barchi
Senior Level Assistant for Policy, Planning and Reporting Robert W. Shideler

Resource Management and Operations Support Staff

Provides all administrative and operations support for Office of the Inspector General (OIG) programs. Administrative support includes budget, personnel, resource management, ADP, space, property, telecommunications, accounting, and security. Responsible for policy development on each of the above areas. Provides direct operations support to both the audit and investigative staff. Prepares the OIG semi-annual report. Serves as liaison on all President's Council on Integrity and Efficiency matters.

Director Deborah S. Huber

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

OFFICE OF THE EXECUTIVE DIRECTOR FOR OPERATIONS
The EDO is the chief operational, financial, and administrative officer of the Commission, and is authorized and directed to discharge such licensing, regulatory, financial, and administrative functions of the NRC and to take actions as are necessary for day-to-day operations of the agency. Supervises and coordinates policy development and operational activities of EDO staff and program offices. Implements Commission policy directives pertaining to these offices.
Executive Director for Operations James M. Taylor

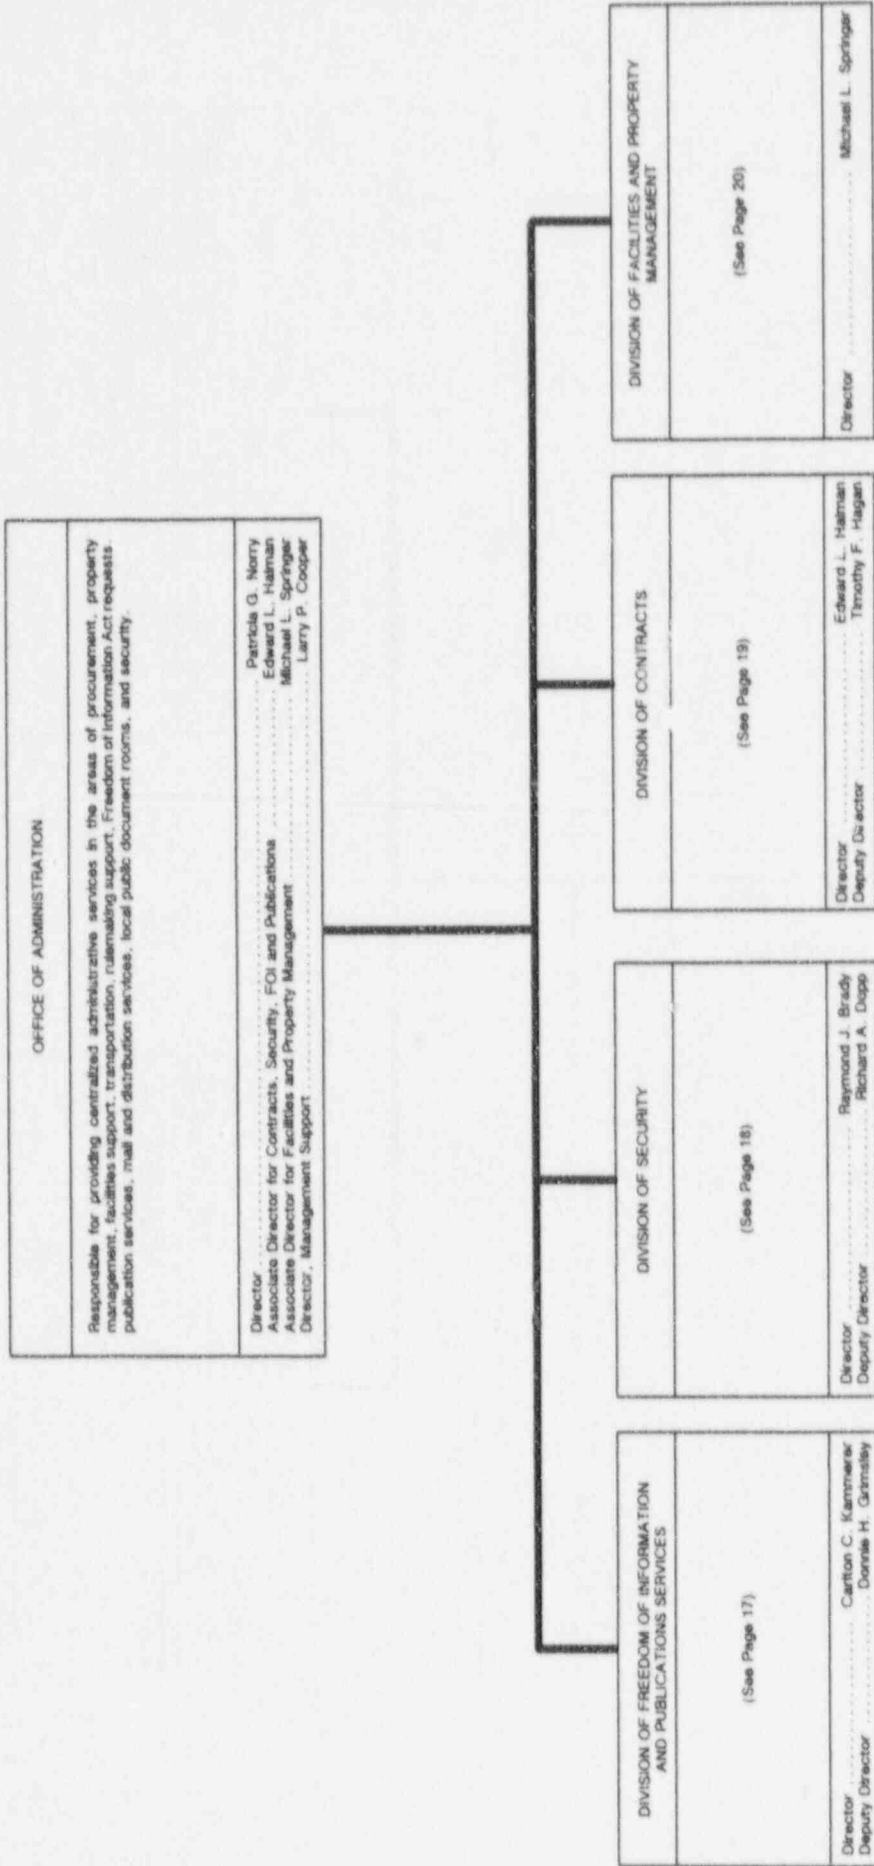

ASSISTANT FOR OPERATIONS
Assists the EDO and Deputy EDO's in the overall planning, management, control, and coordination of EDO staff and program office assignments. Acts as the Office of the EDO focal point for scheduling Commission meetings and other interactions with Commission offices and staff.
Assistant for Operations James L. Slaha

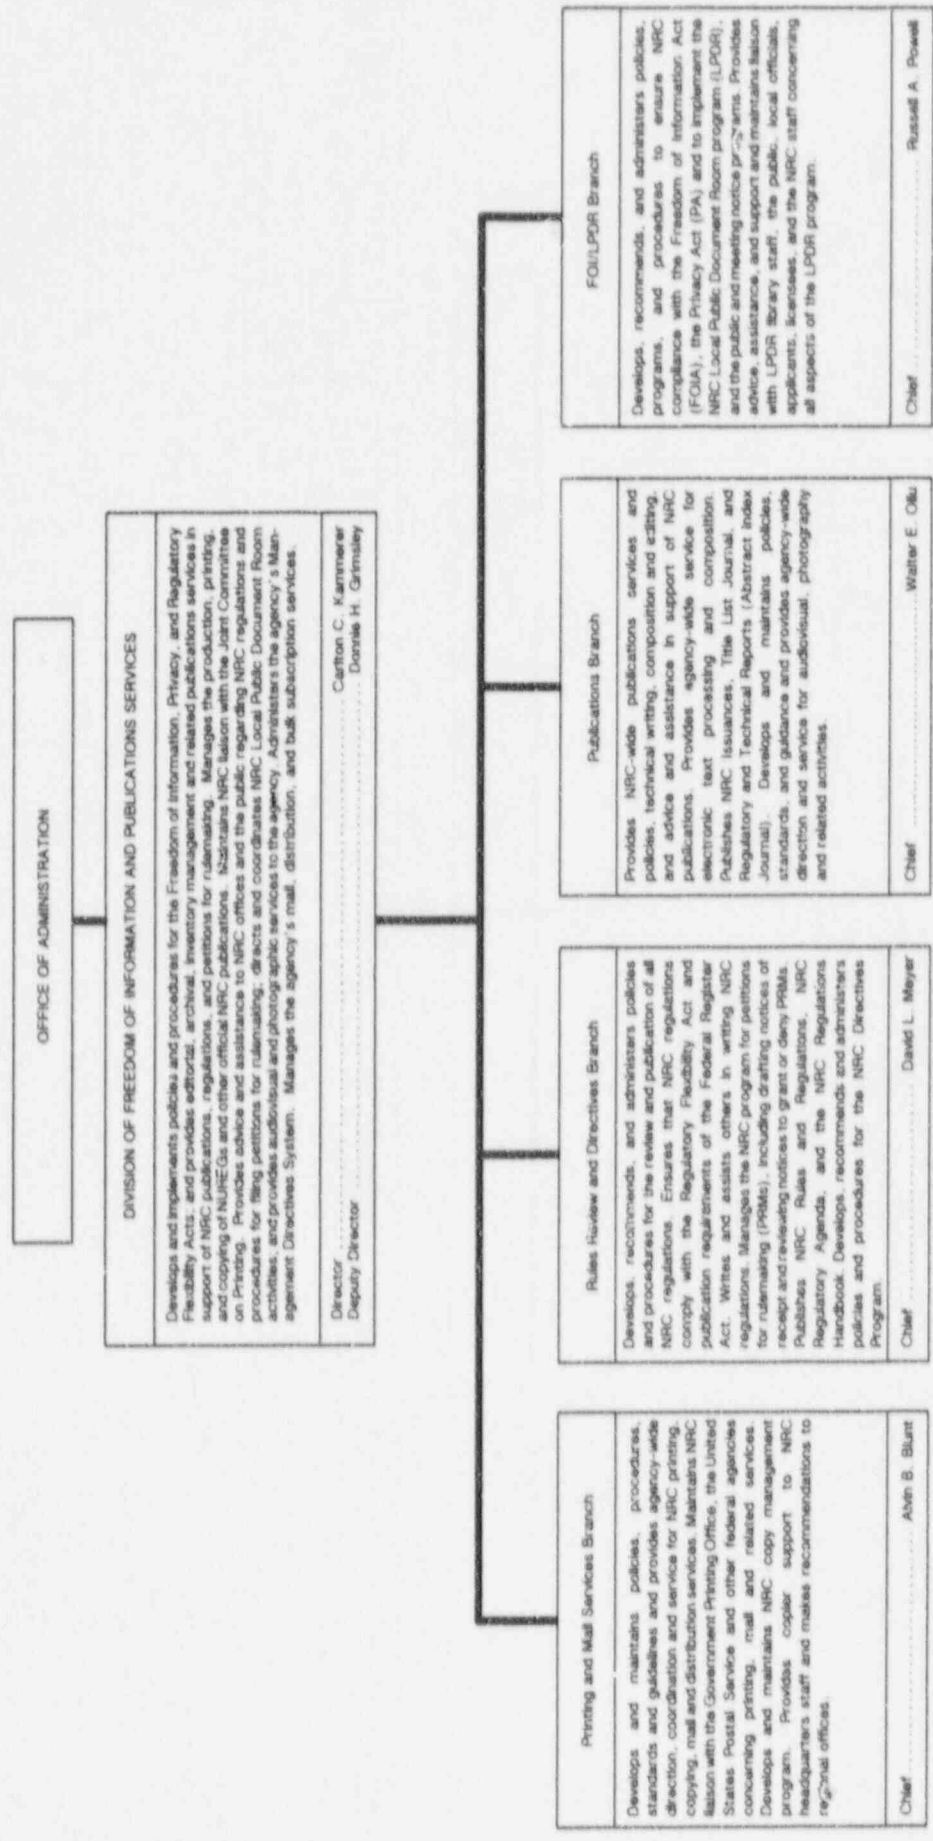

DEPUTY EXECUTIVE DIRECTOR FOR NUCLEAR REACTOR REGULATION, REGIONAL OPERATIONS AND RESEARCH
Executes the EDO's responsibilities for nuclear reactor regulation, oversight for enforcement of reactors, regional operations except nuclear material safety and safeguards activities, and research; carries out the day-to-day supervision, guidance, direction, and coordination of the Director, Office of Nuclear Reactor Regulation, Regional Administrators and the Director, Office of Nuclear Regulatory Research.
Deputy Executive Director James L. Mibrosan

DEPUTY EXECUTIVE DIRECTOR FOR NUCLEAR MATERIALS SAFETY, SAFEGUARDS AND OPERATIONS SUPPORT
Executes the EDO's responsibilities for nuclear material safety and safeguards programs including that portion of regional operations dealing with NBSS issues, oversight of enforcement and investigation functions, centralized administrative support services, and centralized information resources management support services; carries out the day-to-day supervision, guidance, direction, and coordination of the Directors of the Offices of Nuclear Material Safety and Safeguards, Enforcement, Investigations, State Programs, Administration, and Information Resources Management.
Deputy Executive Director Hugh L. Thompson, Jr.

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

U. S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

OFFICE OF ADMINISTRATION

DIVISION OF SECURITY

Plans, develops, establishes, and administers policies, standards, regulations, and procedures for the overall NRC security program. Included are responsibilities for (1) assuring the safeguarding of classified and sensitive unclassified information at NRC headquarters facilities, regional offices, and at NRC contractor licensees, certificate holder and other facilities; (2) providing advice, guidance, and other assistance on all aspects of the NRC security program; (3) the physical protection of NRC, headquarters, regional offices, and other facilities; (4) the Personnel Security Program; (5) the management of the Secure Communications Center; and (6) administration of NRC's Drug Testing Program.

Director Raymond J. Brady
 Deputy Director Richard A. Dopp

Personnel Security Branch

Administers the Personnel Security Program which includes making determinations on the initial and continuing eligibility of NRC applicants, consultants, and employees for access authorization/employment clearance and of contractors, licensees, and other persons for access to Restricted Data and National Security Information; administers the Classified Visitor Control Program, and maintains liaison with OPM, FBI, CIA, and other investigative or intelligence agencies on personnel security matters; administers the Material Access Authorization Program as it relates to special nuclear material history checks; administers the NRC Reinvestigation Program; serves as the SEC focal point for the Privacy Act Program; and administers the NRC Drug Testing Program.

Chief James J. Durtseury

Facilities Security Branch

Administers the Facilities Security Program to protect classified and sensitive unclassified information; establishes physical security safeguards for the protection of headquarters, regional office, and contractor facilities; conducts security surveys and inspections (including those for technical surveillance countermeasures) of NRC and other facilities; directs the Security Infraction-Violation Program; administers the NRC Security Awareness Program; and manages the NRC Identification Media Program.

Chief David A. Dittmeier

Information Security Branch

Administers the Information Security Program to protect classified and sensitive unclassified information; conducts classification/declassification/downgrading reviews, and conducts classification appraisals and inspections of NRC and other facilities that process, store, or otherwise handle classified or sensitive unclassified information. Manages the NRC Internal Security Program; provides intelligence support to the Commission and NRC offices; manages the NRC Foreign Disclosure of Information Program; and operates the NRC Secure Communications Center. Provides security defensive travel and personal protection against terrorism briefings to NRC-cleared personnel.

Chief A. Lynn Silvious

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

Technical Acquisitions Branch No. 1

Performs negotiation, administration, and small purchasing functions for awards in support of agency technical acquisitions. Has primary responsibility for acquisition of technical assistance and confirmatory research for the Offices of Nuclear Material Safety and Safeguards (NMSS) and Nuclear Regulatory Research (RES), including all contracting activity associated with the agency's Federally Funded Research and Development Center (FFRDC). Performs all administrative actions necessary to assure that goods and services contracted for are delivered on time in accordance with agreed upon costs. Responsible for the selection and negotiation process for assigned offices. Includes procurement of supplies, equipment, and services in support of these offices.

Chief Mary H. Macos

Technical Acquisitions Branch No. 2

Performs negotiation, administration, and small purchasing functions for awards in support of agency technical acquisitions. Has primary responsibility for acquisition of technical assistance and administrative support for the Offices of Nuclear Reactor Regulation (NRR) and Administration (ADM), including all contracting activity associated with NRC's Commercial Facilities Management contract for the White Flint complex. Performs all administrative actions necessary to assure that goods and services contracted for are delivered on time in accordance with contract specifications and within agreed upon costs. Responsible for the selection and negotiation process for assigned offices. Includes assistance requirements. Responsibilities also include procurement of supplies, equipment, and services in support of these offices.

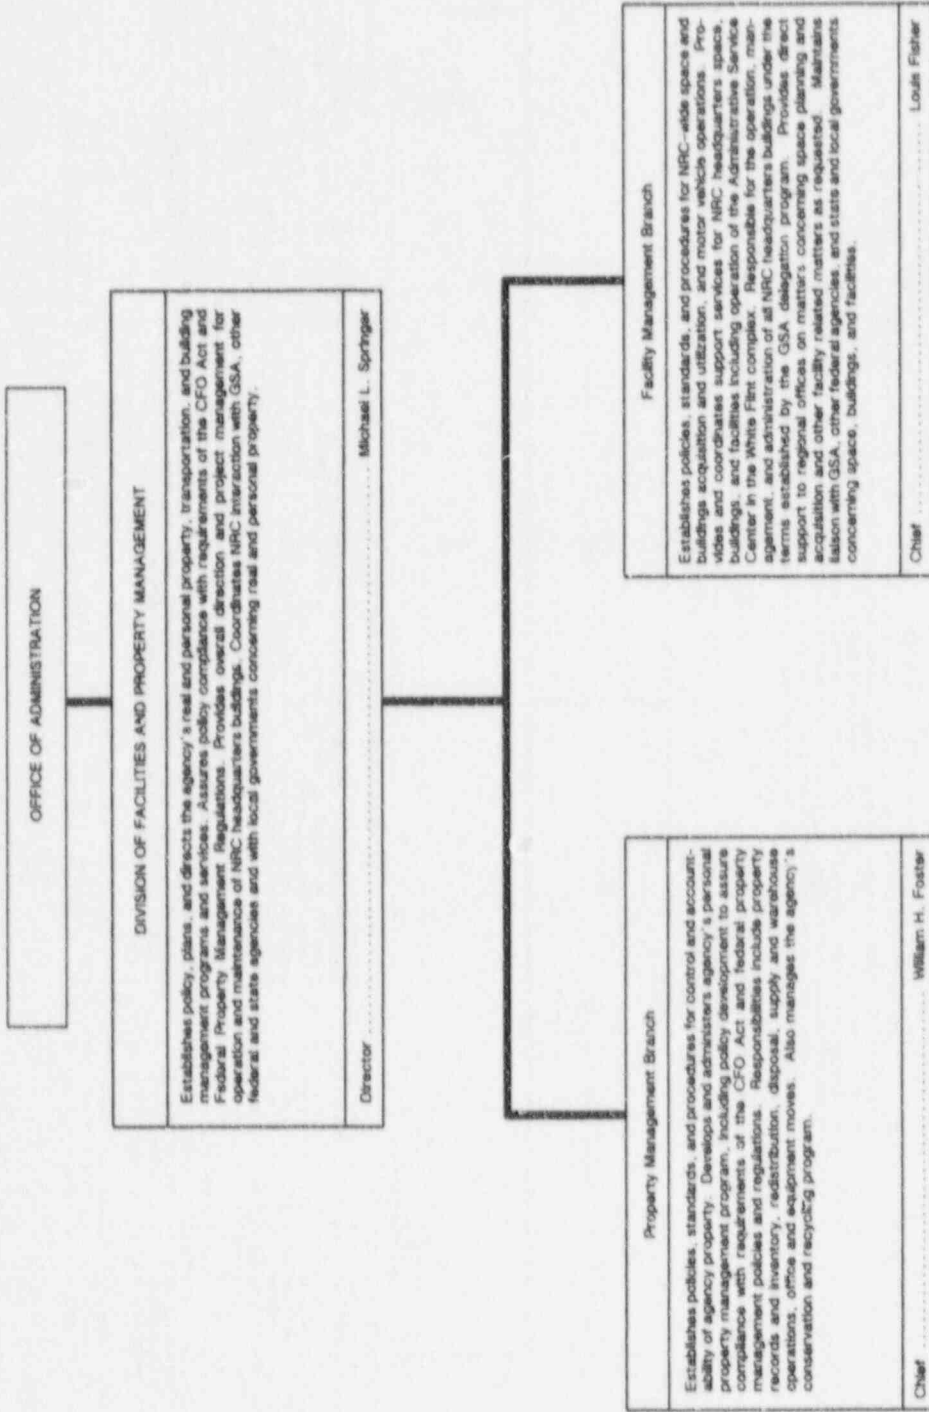

Chief Elois J. Wiggins

FIP Acquisitions Branch

Performs negotiation, administration, and small purchasing functions for awards in support of agency Federal Information Processing (FIP) needs. Responsible for major systems acquisitions, specialized procurements for computer hardware, software and telecommunications support as well as technical assistance for the Offices of Information Resources Management (IRM) and Analysis and Evaluation of Operational Data (AEOD). Performs all administrative actions necessary to assure that goods and services contracted for are delivered on time in accordance with contract specifications and within agreed upon costs. Responsibilities also include procurement of supplies, equipment, and services in support of NRC headquarters operation.

OFFICE OF THE CONTROLLER

The Controller is the agency's Deputy Chief Financial Officer (DCFO/C). In this capacity, the office is responsible for developing, maintaining, and overseeing the implementation of policies, procedures, and standards for carrying out all agency financial management activities; managing the agency's Management Control Program to assess the adequacy of agency management control; accordance with the Federal Manager's Financial Integrity Act; developing the agency's Five-Year Plan, Five-Year Financial Management Plan, budget submitted to the Office of Management and Budget, and budget submitted to the Congress; controlling the use of agency funds to ensure that they are expended in accordance with applicable laws and financial management principles; developing and maintaining an integrated agency accounting and financial management system that complies with the requirements of 31 USC 902(a)(3) and issuing financial status reports from that system; monitoring the financial execution of the budget of the agency and submitting timely performance reports to the Chief Financial Officer and the Chairman; preparing agency financial statements as required by 31 USC 3515 and ensuring that they are auditable as required by 31 USC 3521(e); preparing the annual financial management report required by 31 USC 902 (a)(6); administering the agency's license fee program, including reviewing, on a biennial basis the fees and other charges imposed by the agency, and making recommendations on revising those charges; monitoring, evaluating, and approving the design, budget, development, implementation, and enhancement of all agency accounting, financial management, and asset management systems; providing travel services for all headquarters employees; managing the agency's billing and debt collection activities; and providing oversight of and financial reporting guidance for agency property and inventory management and control activities.

Deputy Chief Financial Officer/Controller Ronald M. Scroggins
 Deputy Controller Jesse L. Funches

OFFICE OF THE COMPTROLLER

DIVISION OF BUDGET AND ANALYSIS

Provides agency senior management with analyses of policy, program, and resource issues. Provides central administration of the NRC Five-Year Plan, strategic planning, budget formulation, and resource management process; develops and maintains policies, procedures, and operations to formulate and implement the approved NRC budget; develops and administers NRC authorization and appropriation legislation; designs and develops systems and criteria for resource planning and control; oversees the agency's administrative control of funds; approves and issues allotments and financial plans; assists NRC offices in the use of sound statistical practices; and maintains liaison with OMB and Congressional Committees, as directed.

Director Peter J. Rabbreau
 Deputy Director John D. Evans

Program Analysis Branch

Identifies and analyzes significant NRC policy, program and resource issues related to the following programs: Reactor Program and Nuclear Materials and Nuclear Waste Program. Based on such analyses, provides recommendations on agency options to the DCF/O/C, appropriate office directors, the EDO, and the Commission. Conducts agency-level review and analysis of the NRC Five-Year Plan, strategic planning, budget formulation, and resource management process. Evaluates use of resources (funds and staff) against program plans. Reviews resource allocations and reprogramming actions. Performs special studies for the EDO and Commission. Prepares the NRC Information Digest. Prepares periodic performance reports on agency financial management and budget implementation.

Chief Debra J. Corley

Budget Planning, Analysis, and Operations Branch

Coordinates the preparation of the NRC Five-Year Plan, strategic planning, and budget documents for submission to OMB and Congress. Prepares and coordinates resource information required by OMB Circulars and Bulletins, and prepares budget reports to Congress. Develops authorization and appropriation legislation, and maintains history, requirements, and status of all NRC authorization and appropriation legislation. Defines requirements for, oversees implementation of, and manages NRC's budget systems. Directs the agency funding requirements for salaries and benefits. Identifies and analyzes significant NRC policy, program, and resource issues related to the following programs: Management and Support Program and Inspector General Program. Based on such analyses, provides recommendations on agency options to the DCF/O/C, appropriate office directors, the EDO, and the Commission. Evaluates use of resources (funds and staff) against program plans. Reviews resource allocations and reprogramming actions. Ensures compliance with OMB Circular A-76. Manages the allotment for the Office of the Comptroller. This allotment contains approximately 50 percent (approximately \$275 million) of the agency's funding, including all agency salaries and benefits funding (except for the Office of the Inspector General), plus program support, administrative support, and travel funds for 17 agency offices.

Chief (Vacant)

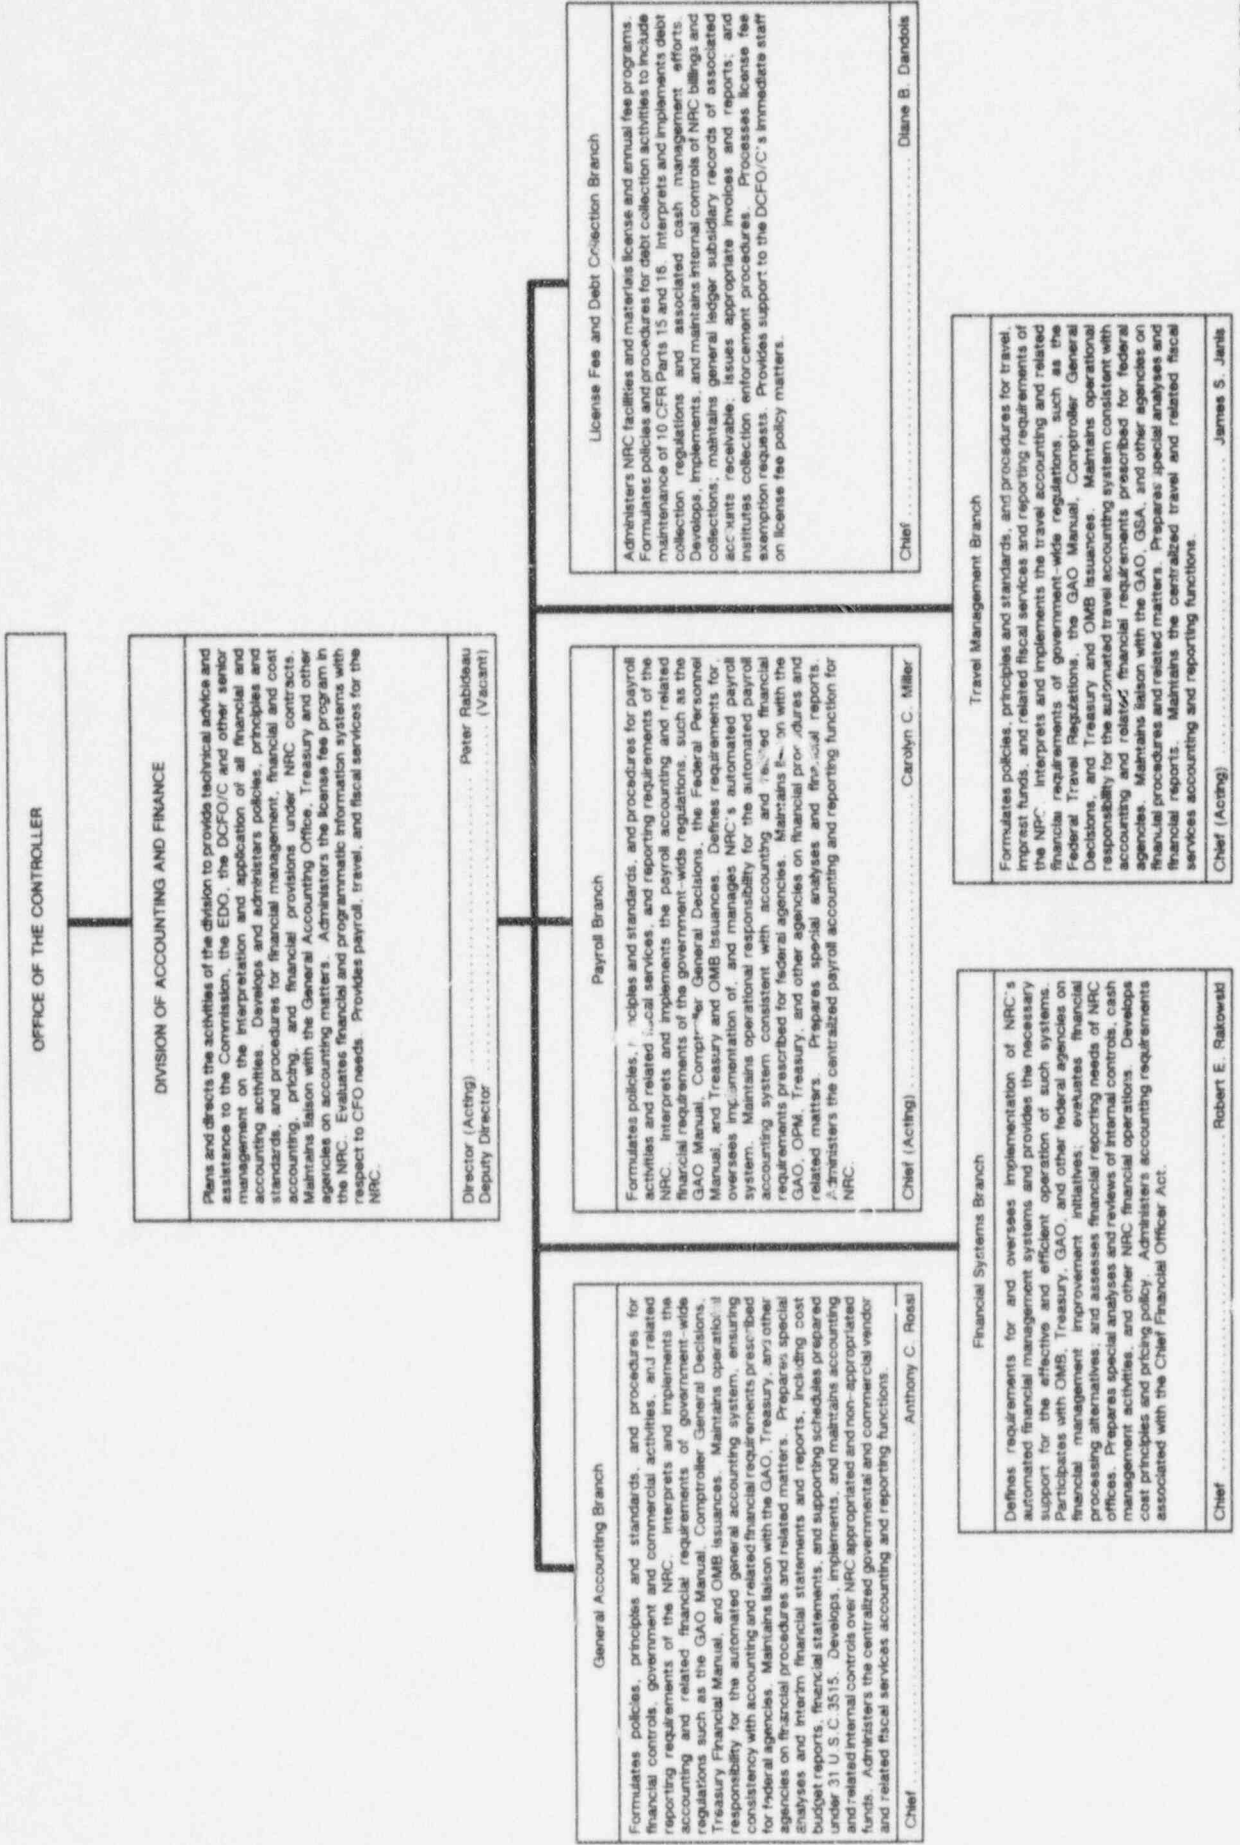

Funds Control Branch

Develops and maintains policy standards (including staff and training requirements) and procedures (including the budget implementation reporting structure) for administrative control of funds. Coordinates funds control systems for agency financial management personnel. Oversees operational reviews of the administrative control of funds by the various NRC offices. Manages the agency allotment and financial plan process and associated computer system. Provides guidance and advice on funds control to offices. Prepares appropriation or reappropriation requests for submission to OMB, and requests for warrants to the Department of Treasury. Prepares the quarterly Base Table Report for Congress on NRC's funding for the current fiscal year. Prepares budget reprogramming requests to be submitted for Congressional review and approval. Functions as the principal interface with the Division of Accounting and Finance. Inputs all budget data into the agency's financial system.

Chief Charlotte L. Turner

U.S. NUCLEAR REGULATORY COMMISSION

OFFICE OF ENFORCEMENT	
Oversees, manages, and directs the development of policies and programs for enforcement of NRC requirements.	
Director	James Lieberman
Deputy Director	Joseph R. Gray

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

Financial Management, Computer Security and Administrative Support Staff

Provides direction and coordination for financial and administrative office support, including budget execution, funds management, cost-accounting, travel, training, personnel/staffing, facilities management, Freedom of Information Act and Privacy Act and resources control. Maintains internal databases necessary for IRM internal control. Coordinates the compilation and dissemination of all financial and administrative information provided to and from the office. As requested, schedules and conducts office-wide meetings and conferences, monitors IRM-occupied space, and provides necessary management services to promote the accomplishment of office-wide goals and objectives. Manages interagency agreements and contracts for computer "timesharing" services used by the NRC. Manages NRC's computer security program, including providing technical assistance to IRM and program offices; reviewing and approving computer security plans; performing risk analyses; providing virus protection, eradication and data recovery services. Coordinates or conducts NRC periodic reviews of IRM activities. Serves as liaison for external IRM reviews and tracks and ensures closure of all commitments identified in response to review reports.

Director George H. Messinger

OFFICE OF INFORMATION RESOURCES MANAGEMENT

Responsible for the overall direction and management of centralized information resources of the agency in the areas of computer, telecommunications, and information services including automated systems development and integration, computer operations, database management, data administration, office automation, local and wide area networks, computer and systems security, the Customer Support Center, user training, document control and management, central files, records management, the library, automated graphics, and related technology and information support services to NRC offices. The Director provides guidance, oversight and coordination of policy, planning and execution of these functions, and manages program activities related to the agency's acquisition, management, and use of Federal Information Processing (FIP) resources. The Deputy Director also serves as the Licensing Support System Administrator in accordance with 10 CFR Part 2, Subpart J. As such, the Deputy is responsible for oversight and quality assurance for the design and operation of the Licensing Support System (LSS) services and for the completeness and integrity of the LSS database.

Director Gerald F. Cramford
Deputy Director/Licensing Support System Administrator Arnold E. Levin

Technology Assessment Staff

Provides management direction and coordination for the assessment of advanced information technology and the transfer of appropriate technologies to the NRC environment. Follows industry trends and provides a test environment to demonstrate and assess the use of new and emerging technology. Keeps management and staff informed of promising technologies and system engineering approaches. Assists agency/organizational components in identifying where the introduction of information technology (IT) tools and techniques can improve productivity and the accomplishment of mission objectives. Plans projects intended to provide technical managers with enhanced automation tools to meet new licensing and regulatory requirements. Provides support for NRC office-sponsored pilot projects as a way of introducing new technologies into the workplace. Provides technical support to IRM components by prototyping new products and evaluating the results of their use. Coordinates Technology Advancement Board activities and provides a forum for sharing high performance computing resources. Promotes greater collaboration between NRC and other government agencies, federal laboratories, industry and international organizations in the area of high-performance computing. Serves as the IRM representative for domestic and international programs involving the assessment, exchange and transfer of advanced computing and telecommunications.

Director Pamela G. Krudic

Licensing Support System Administrator's Staff

Ensures the Licensing Support System (LSS) meets the requirements in 10 CFR Part 2, Subpart J, related to the use of the LSS in the Commission's high-level waste repository license procedures. Provides technical oversight over DOE in the design, development and operation of the LSS. Reviews compliance of LSS participants with the applicable LSS rules, including DOE compliance with the document submission requirements in 10 CFR 2.1003.

U. S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

OFFICE OF INFORMATION RESOURCES MANAGEMENT

OFFICE OF INVESTIGATIONS	
Develops policy, procedures, and quality control standards for investigations of licensees, applicants, their contractors or vendors, including the investigations of all allegations of wrongdoing by other than NRC employees and contractors. Plans, coordinates, directs, and executes administrative affairs of the office, including the development and maintenance of a management information system. Maintains current awareness of inquiries and formal investigations. Keeps Commission principals currently informed of matters under investigation as they affect public health and safety matters. Coordinates liaison with other agencies and organizations to ensure the timely exchange of information of mutual interest.	
Director	Guy P. Caputo
Deputy Director	Roger A. Fortuna

OFFICE OF PERSONNEL	
Plans and implements NRC policies, programs, and services to provide for the effective organization, recruitment, utilization, and development of the agency's human resources. Provides for NRC health units. Administers the NRC-wide occupational health and safety and radiation protection programs, including workers' compensation; the employee assistance program, and the alcohol and drug abuse training program.	
Director	Paul E. Bird
Deputy Director	James F. McDermott
Financial and Administrative Resources Manager	R. J. Smith
Human Resources Information Systems Manager	Robert E. Loach
Agency Health and Safety Program Manager	Randall E. Brown
Employee Assistance Program Manager	Patricia S. Kaplan

Executive and Operational Support

Plans, develops, and implements policies and programs for the recruitment, assignment, and appraisal of NRC executives and senior level employees. Implements executive orientation and leadership development policies and programs. Provides support for the Executive Resources Board and its committees. Coordinates assignments to international agencies. Administers the agency's Disturbed Engineer and Scientist, and Visiting Fellows Programs. Provides centralized office-wide paraprofessional support for personnel management and training operations. Maintains personnel files, including Office Personnel Files, Employee Performance Files, and Medical/Radiation Records.

Chief Carolyn J. Swanson

Policy and Labor Relations

Provides policy and labor relations guidance and supporting services to NRC staff. Develops and implements agency labor-management relations policies and programs. Serves as agency contact with union representatives. Negotiates and administers all collective bargaining agreements. Administers the agency grievance and appeal systems and Differing Professional Opinions process. Provides advice and management assistance on performance, conduct, disciplinary and adverse action cases. Identifies, adopts and implements statutes, regulations, GAO decisions, and OPM directives bearing upon NRC personnel management and labor relations. Provides personnel policy development and oversight. Develops and updates the NRC Human Resources Strategic Plan. Conducts independent personnel management evaluations and program effectiveness reviews of agency personnel programs. Develops pay policies and distributes pay schedules. Develops and maintains office personnel management delegations of authority. Administers FOIA and Privacy Act operations within the Office of Personnel.

Chief Michael J. Fox

U. S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

OFFICE OF PERSONNEL

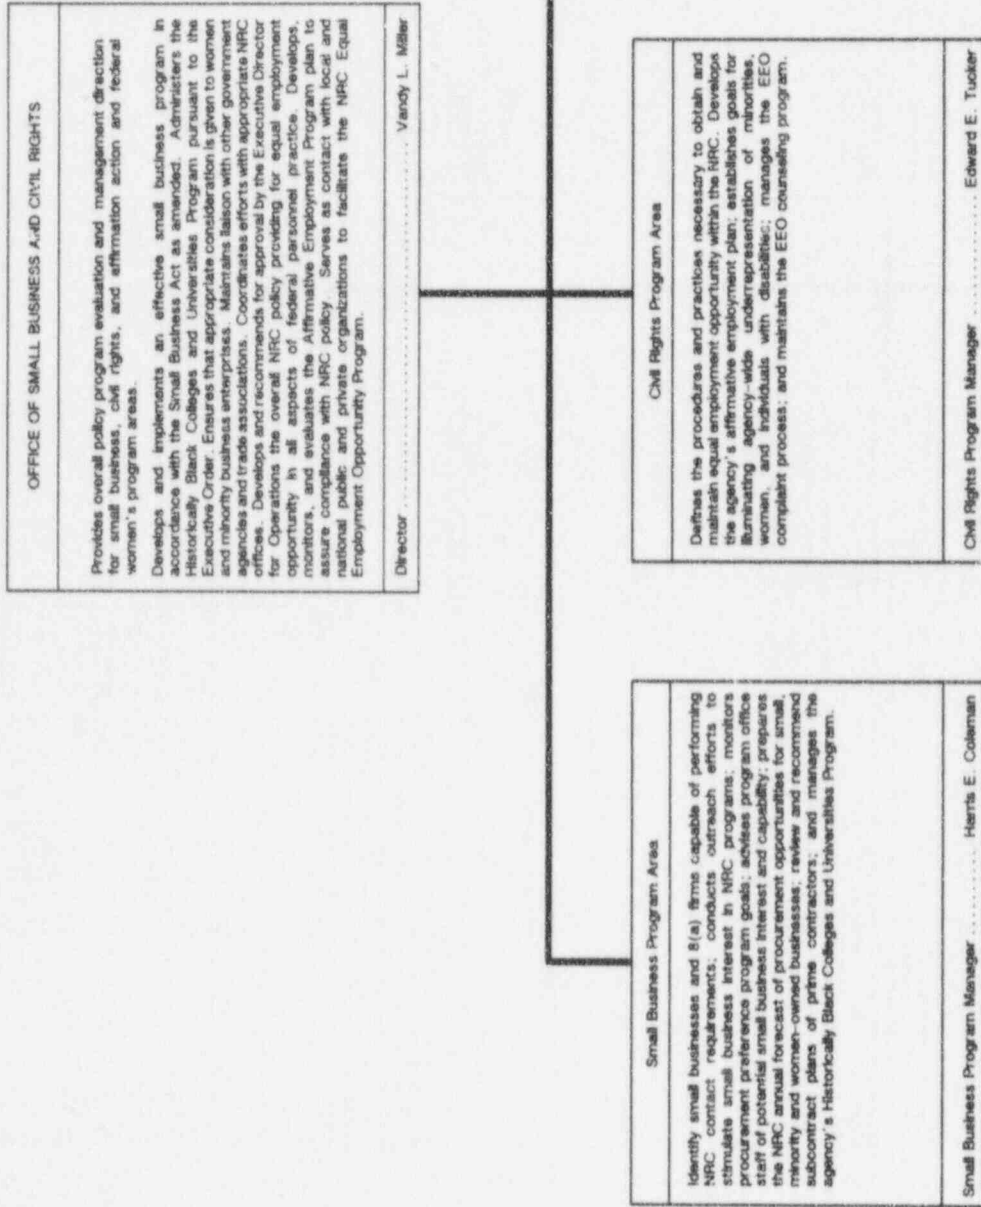

<p style="text-align: center;">Workforce and Organization Analysis</p> <p>Provides personnel management program analysis. Collects, analyzes, and provides data on the characteristics, allocation, utilization, training and retention of NRC's workforce. Develops and operates systems and procedure for processing, documenting, and recording personnel management, training and radiation exposure transactions. Develops, maintains, and provides appropriate access to agency-wide human resources databases. Provides reports on personnel transactions, workforce trends, hiring separations and FTE allocation and expenditures. Conducts a broad spectrum of personnel-related information searches and reviews as necessary to assure the accuracy, completeness, currency, and usefulness of the data. Projects and analyzes workforce trends. Provides human resources data and analytical support for agency-wide EEO activities. Conducts position evaluation and position management reviews. Develops and implements policies and standards for organization, and position management and evaluation. Reviews and analyzes organizational structures and functional realignment proposals. Obtains reviews and approves NRC office staffing plans. Maintains agency-wide delegations of authority. Conducts pay comparability surveys and administers contract(s) for salary and degree information. Performs ad hoc analyses of significant personnel initiatives and potential issues.</p>	Chief James E. Horn
--	---------------------------

<p style="text-align: center;">Employment and Staffing</p> <p>Provides employment, staffing and pay setting advice and services to NRC managers and employees. Plans, develops and implements placement and merit promotion programs. Implements equal employment opportunity and affirmative action programs and activities. Provides advice and services on performance appraisals and exceptions to normal pay setting practices. Conducts exit interviews. Administers special programs: Summer, Upward Mobility, Unemployment Compensation, and Drug Testing. Monitors FTE consumption levels and provides advice and recommendations concerning hiring strategies and FTE management at both the agency and office levels. Evaluates applicant qualifications, reviews security packages. Provides advisory, coordination and liaison services on a variety of personnel issues. Plans and implements intra- and inter-agency rotational and detail assignment activities.</p>	Chief Jacqueline F. Jackson
---	-----------------------------------

<p style="text-align: center;">Organizational Development and Training</p> <p>Provides organizational development, training, and career counseling services for NRC employees. Plans, develops, and implements policies and programs for technically-related professional training, the Multidisciplinary Graduate Level Programs, and the Women's Executive Leadership Program. Provides consulting services to managers in developing programs to meet intra- and inter-office training needs. Administers the agency's Senior Fellowship Program. Develops training programs to support upward mobility and equal employment opportunity goals. Manages the Professional Development Center which includes a comprehensive end-user computer training curriculum. Provides alternative training media and methods and individualized learning center services. Provides agency executive, management, and supervisory development and training programs. Plans, develops, and implements orientation programs for new NRC employees and secretaries. Provides information, assistance and counsel to employees on career development. Evaluates the Child Development Center and its programs.</p>	Chief Eileen B. Mason
--	-----------------------------

<p style="text-align: center;">Recruitment, Incentives and Benefits</p> <p>Provides recruitment, incentive awards, and benefits services to the NRC. Develops and implements strategies to meet the long-term recruitment needs of the agency. Develops and implements recruitment plans to attract women, minorities, and persons with disabilities. Conducts and coordinates recruitment programs and maintains applicant files. Administers the agency's suggestion, incentive, and performance awards programs. Plans and manages the Intern, stay-in-school, cooperative education, and graduate fellowship programs and activities. Provides information, assistance and counseling to agency employees, former spouses, and applicants on health and life insurance benefits, Thrift Savings Plan, and retirement systems. Manages the agency's centralized secretarial recruitment and placement program. Administers the Disabled Employee Program.</p>	Chief Janice M. Clemens
---	-------------------------------

<p style="text-align: center;">Office Management Support</p> <p>Provides centralized office-wide administrative secretarial and clerical services. Manages and directs the office-wide clerical staff.</p>	Chief (Vacant)
---	----------------------

ORGANIZATIONAL CHART

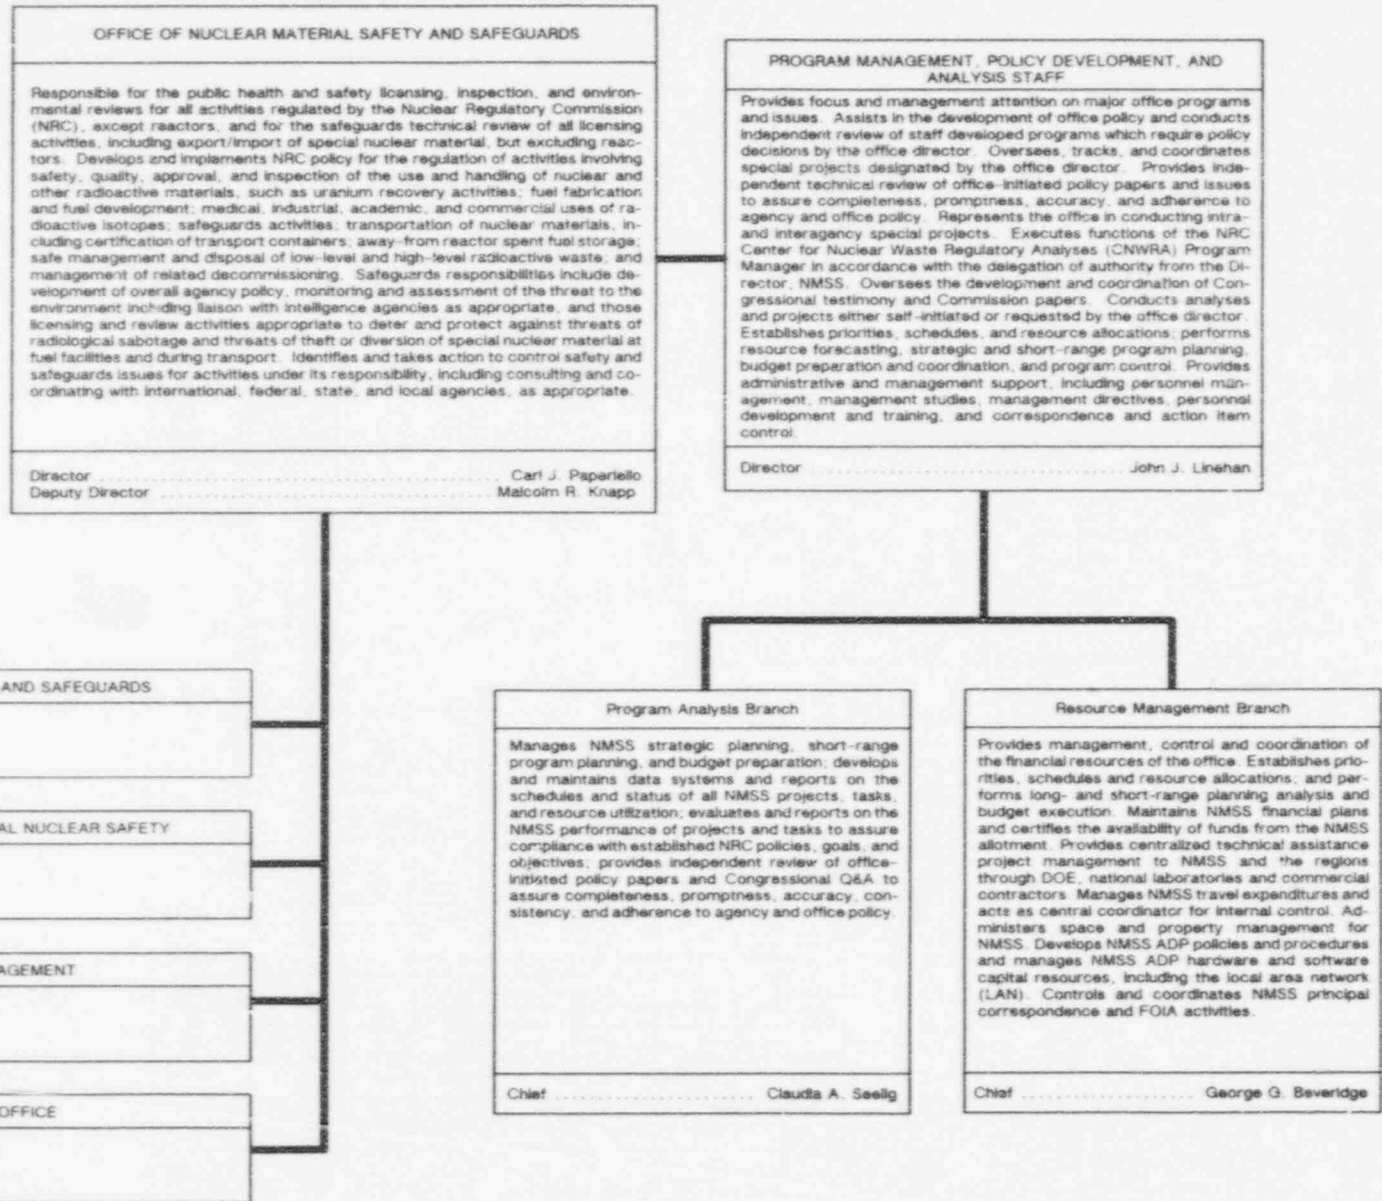

U.S. NUCLEAR REGULATORY COMMISSION

OFFICE OF STATE PROGRAMS

Responsible for establishing and maintaining effective communications and working relationships between the NRC, states, local governments, other federal agencies and Indian tribe organizations. Serves as primary contact for policy matters between NRC and these external groups. Keeps the agency apprised of these groups' activities as they may affect NRC and conveys to NRC management these groups' views toward NRC policies, plans, and activities. Administers the Agreement States Program; provides training and technical assistance to Agreement States; conducts Agreement State Program reviews. Coordinates liaison with other federal agencies through the Federal Liaison Program.

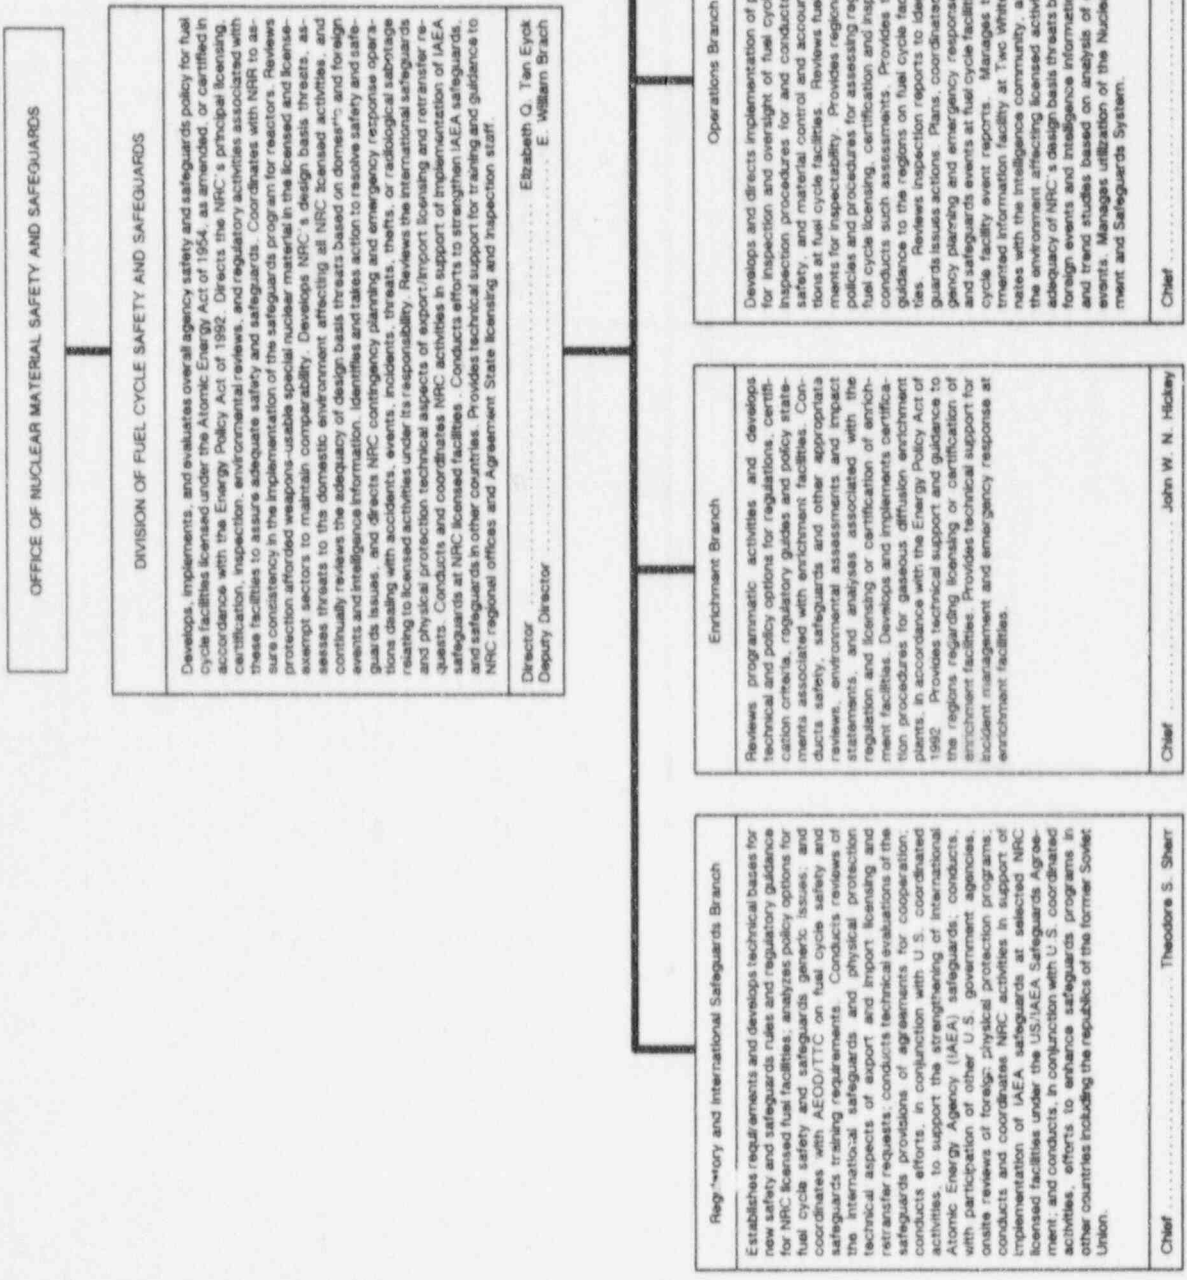

Director Richard L. Bengart
Deputy Director Paul H. Lohnaus
Federal Liaison Maria Lopez-Oth

U.S. NUCLEAR REGULATORY COMMISSION

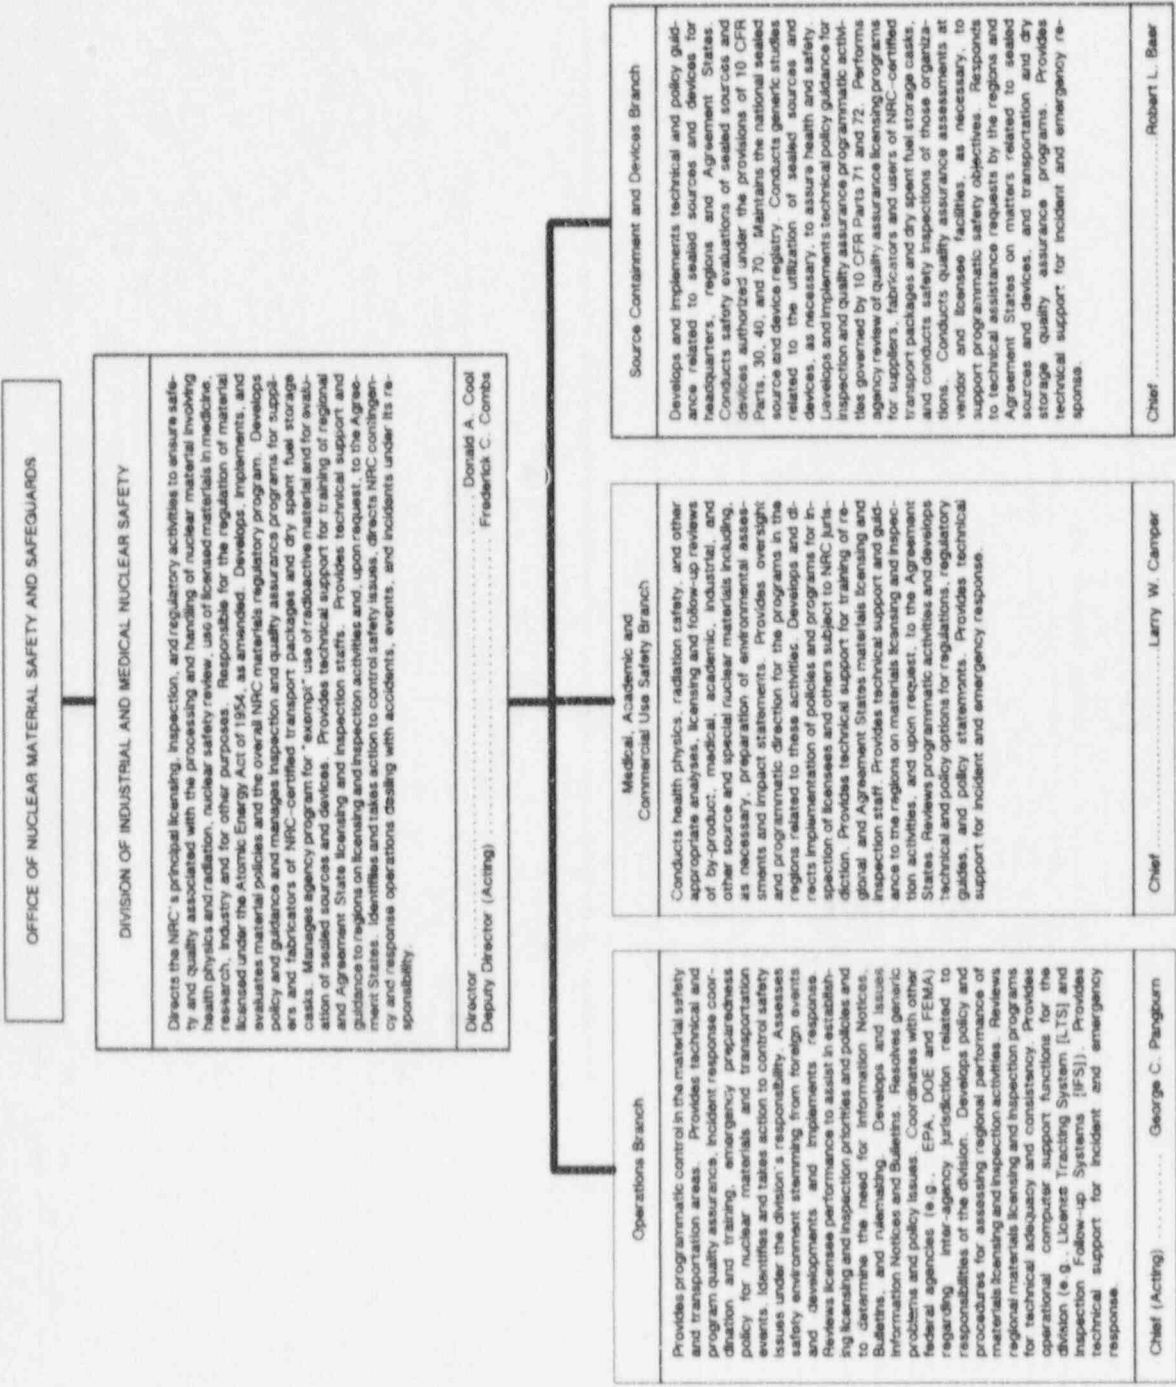

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

OFFICE OF NUCLEAR MATERIAL SAFETY AND SAFEGUARDS

DIVISION OF WASTE MANAGEMENT

Directs the NRC's program for the regulation of low-level waste (LLW) decontamination, uranium recovery (UR), and the DOE high-level waste (HLW) repository program. Identifies and takes action to control safety issues under its responsibility. Develops, implements, and evaluates safety and environmental policies and long-range goals for these activities. Provides guidance for regional activities relating to waste management and decontamination. Interacts with other NRC offices, federal and state organizations, Indian tribes and other jurisdictions on matters under its cognizance. Represents NRC in international waste management and decontamination activities. Coordinates research to ensure regulatory commitments are achieved. Serves as the NRC's lead for DOE's Remedial Action Plans. Authorities include the Atomic Energy Act of 1954, as amended; the National Environmental Policy Act of 1969; the Energy Reorganization Act of 1974; the Uranium Mill Tailings Radiation Control Act of 1975, as amended; the Low-Level Radioactive Waste Policy Act of 1980, as amended; the West Valley Demonstration Project Act of 1980; the Nuclear Waste Policy Act of 1982; the Low-Level Radioactive Waste Policy Amendments Act of 1985; the Nuclear Waste Policy Amendments Act of 1987; and the Energy Policy Act of 1992.

Director John T. Greaves
 Deputy Director Margaret V. Federline
 Assistant to the Director John J. Surrmeier

LLW and Decontamination Projects Branch

Serves as the focal point for implementing the Low-Level Waste (LLW) Program and the Decontamination Program. Manages the regulatory program for approvals, or denial of requests to dispose of radioactive waste at sites other than licensed low-level waste sites (i.e., 10 CFR 20.2002 requests). Serves as focal point for interactions with the U.S. Environmental Protection Agency. Manages implementation of the Site Decontamination Management Plan (SDMP). Conducts environmental and safety evaluations related to LLW and decontamination. This responsibility includes providing technical support for reactor decontamination, and terminating licenses when decontamination is complete. Responsible for the review of license financial assurance plans for decontamination issues licenses and license amendments related to LLW sites and sites undergoing decontamination. Responsible for management of power reactor decontamination after spent fuel has been removed from the spent fuel pool. Implements an active interface program, including ongoing consultation with Federal, State, Indian tribe and other entities, to promote understanding of the LLW and decontamination programs and to identify and resolve concerns in a timely manner. Provides technical assistance to Agreement States on LLW and decontamination issues.

Chief Michael F. Weber

HLW and Uranium Recovery Projects Branch

Serves as the focal point for implementation and overall coordination of the High-Level Waste (HLW) Repository and Uranium Recovery (UR) Licensing Programs including interface with DOE and licensees. Responsible for system engineering/integration and project management of the HLW and UR programs. Responsible for planning and implementing the regulatory programs under the Nuclear Waste Policy Act (NWPA) and Uranium Mill Tailings Radiation Control Act (UMTRCA). Manages and coordinates the safety and environmental reviews of pre-licensing and licensing activities, and the review of documents related to the occurrence and licensing of Title I sites under UMTRCA. Manages implementation of the NRC and DOE procedural agreement governing pre-licensing consultation for HLW. Provides necessary planning to enable meeting statutory schedules and milestones, such as the three-year construction permit decision for a repository and Subpart T radon barrier data. Plans and directs the program for UR Title II site activities including mill tailings management and decontamination that encompasses: 1) oversight and programmatic direction for the UR program; 2) implementation of policies and programs; 3) review of UR licensing and inspection programs for technical adequacy and consistency. Provides technical assistance to Agreement States on UR issues.

Chief Joseph J. Holystich

Performance Assessment and Hydrology Branch

As the center for technical expertise in hydrology, geochemistry, health physics, and performance assessment disciplines, conducts technical reviews and provides support to the high-level and low-level waste, decontamination and uranium recovery programs. Develops the technical evaluation and assessment methodologies and codes to determine compliance with 10 CFR Parts 40, 61, 40 CFR Part 191, and other regulatory requirements. Develops guidance with respect to specific technical information required to strategies and methodologies that would be acceptable to demonstrate compliance. Ensures technical completeness, accuracy, and consistency within assigned technical responsibilities. Reviews regulatory requirements, relevant pre-licensing, licensing and decontamination documents. Provides technical assistance to States and compacts as appropriate interfaces with the U.S. Environmental Protection Agency and others in the development and implementation of environmental radiation protection standards for high-level waste management and disposal. Responsible for international coordination of performance assessment, hydrology, geochemistry, and health physics activities.

Chief John H. Austin

Engineering and Geosciences Branch

As the center for technical expertise in earth sciences, geotechnical, mechanical and structural engineering, and material sciences, relating to stabilization and disposal of radioactive wastes, conducts technical reviews and provides support to high-level and low-level waste, decontamination and uranium recovery program. Develops the technical evaluation and assessment methodologies, including subsystem performance assessment models, to assess compliance with NRC regulations and criteria. Develops guidance for licensees regarding specific technical information required to demonstrate compliance with regulatory criteria. Ensures technical completeness, accuracy, and consistency within assigned technical responsibilities. Reviews and evaluates submissions for technical adequacy and compliance with regulatory requirements, including license applications, environmental reports, site characterization plans, and other related pre-licensing, licensing, and decontamination documents. Responsible for international coordination of engineering and geoscience activities.

Chief Michael J. Bell

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

OFFICE OF NUCLEAR MATERIAL SAFETY AND SAFEGUARDS

SPENT FUEL PROJECT OFFICE

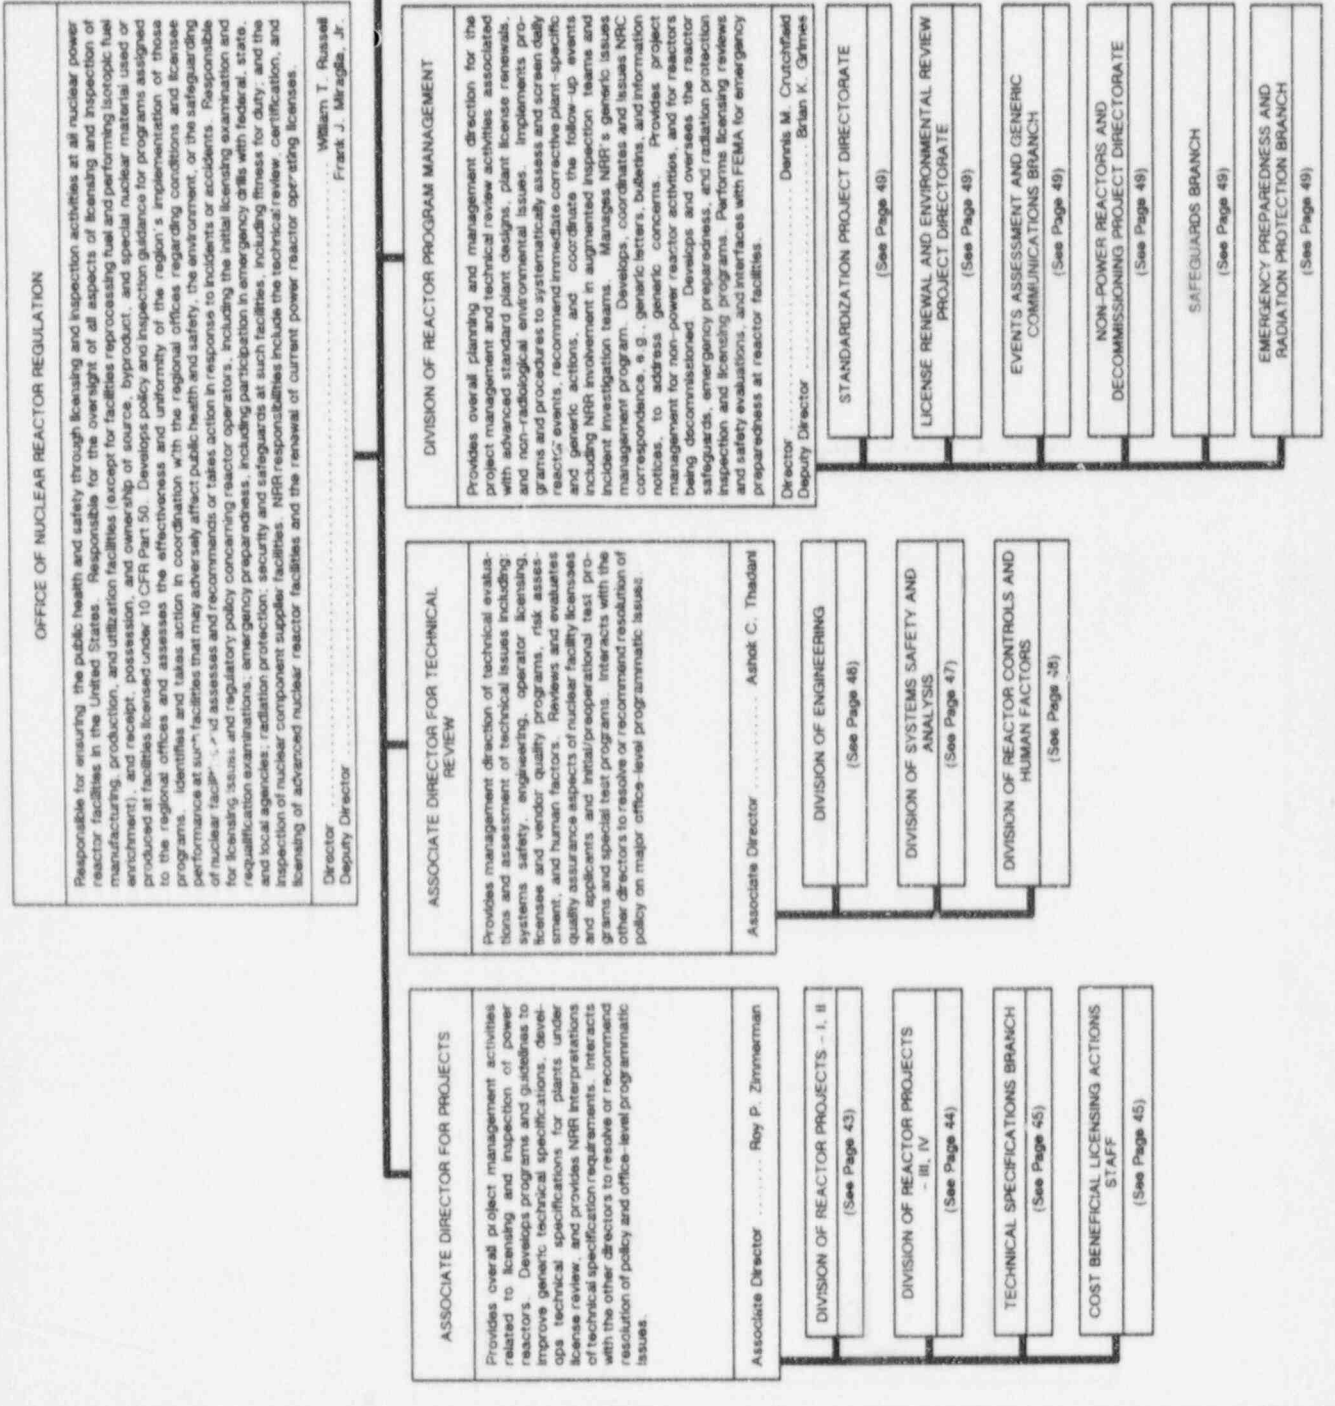

Develops and implements the agency's regulatory and licensing program for the storage of nuclear reactor spent fuel and transportation of radioactive materials. Serves as the agency lead in transportation and spent fuel storage activities. Permits and manages the safety analysis, review, and licensing and certification of storage and transport containers under agency jurisdiction. Develops licensing, certification, and quality assurance review criteria and positions. Coordinates and performs the review of Department of Energy (DOE) applications for storage and transport systems for the civilian high-level radioactive waste program. Conducts and manages the safety and environmental evaluations for interim spent fuel and high-level waste storage facilities under 10 CFR 72, including certification of generally-licensed storage systems, and licensing of nuclear utility specific facilities, private facilities, and a DOE centralized facility. Develops the policy and guidance for suppliers and fabricators of NRC-certified transportation packages and dry spent fuel storage casks. Develops technical and policy guidance related to transportation and spent fuel storage for the NRC regions. Coordinates with and provides guidance to other government agencies, industry, and the public on transportation policy and safety issues. Reviews and provides guidance on transportation physical protection issues. Provides technical support for incident and emergency response.

Director William D. Travers
 Deputy Director Charles J. Haughey

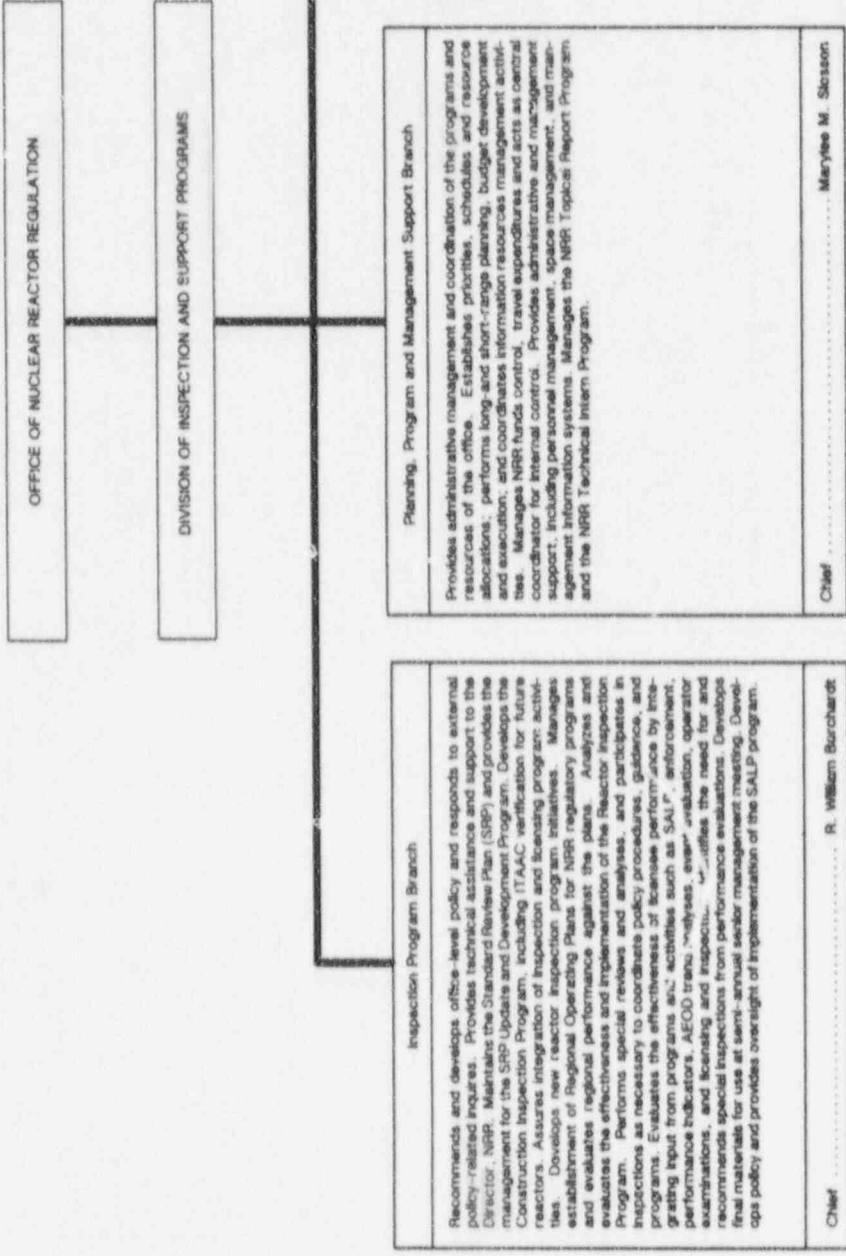

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

U. S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

Inspection Program Branch

Recommends and develops office-level policy and responds to external policy-related inquiries. Provides technical assistance and support to the Director, NRC. Maintains the Standard Review Plan (SRP) and provides the management for the SRP Update and Development Program. Develops the Construction Inspection Program, including ITAAC verification for future reactors. Assures integration of inspection and licensing program activities. Develops new reactor inspection program initiatives. Manages establishment of Regional Operating Plans for NRC regulatory programs and evaluates regional performance against the plans. Analyzes and evaluates the effectiveness and implementation of the Reactor Inspection Program. Performs special reviews and analyses, and participates in inspections as necessary to coordinate policy procedures, guidance, and programs. Evaluates the effectiveness of licensee performance by integrating input from programs and activities such as SAI, enforcement, performance indicators, AEOU team analyses, and evaluation, operator examinations, and licensing and inspection. Offers the need for and recommends special inspections from performance evaluations. Develops final materials for use at semi-annual sector management meeting. Develops policy and provides oversight of implementation of the SAI program.

Chief R. William Burchardt

Planning, Program and Management Support Branch

Provides administrative management and coordination of the programs and resources of the office. Establishes priorities, schedules, and resource allocations; performs long- and short-range planning, budget development and execution; and coordinates information resources management activities. Manages NRC funds control, travel expenditures and acts as central coordinator for internal control. Provides administrative and management support, including personnel management, space management, and management information systems. Manages the NRC Topical Report Program and the NRC Technical Intern Program.

Chief Marylee M. Skisson

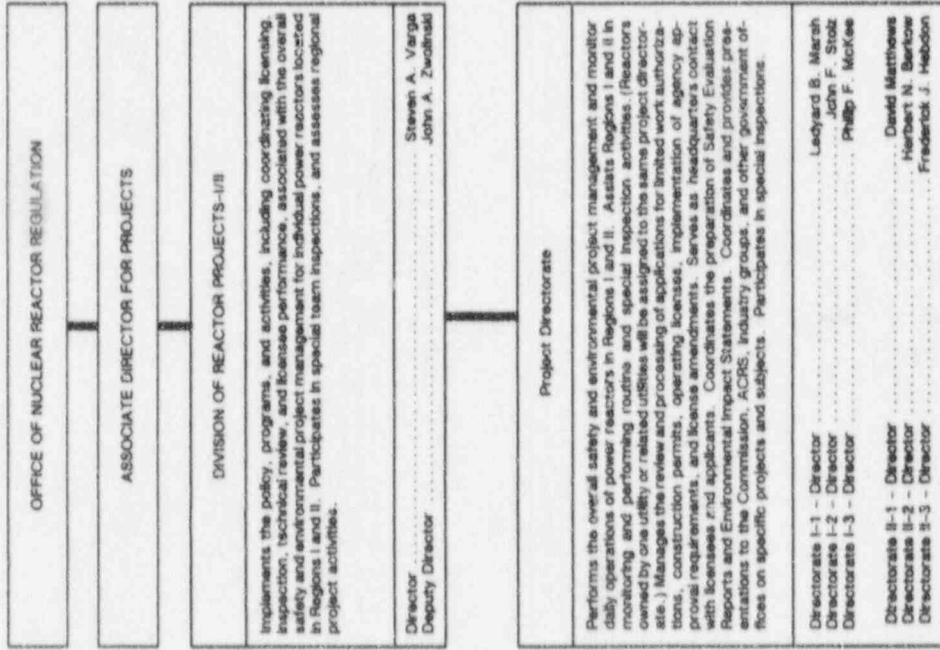

Special Inspection Branch

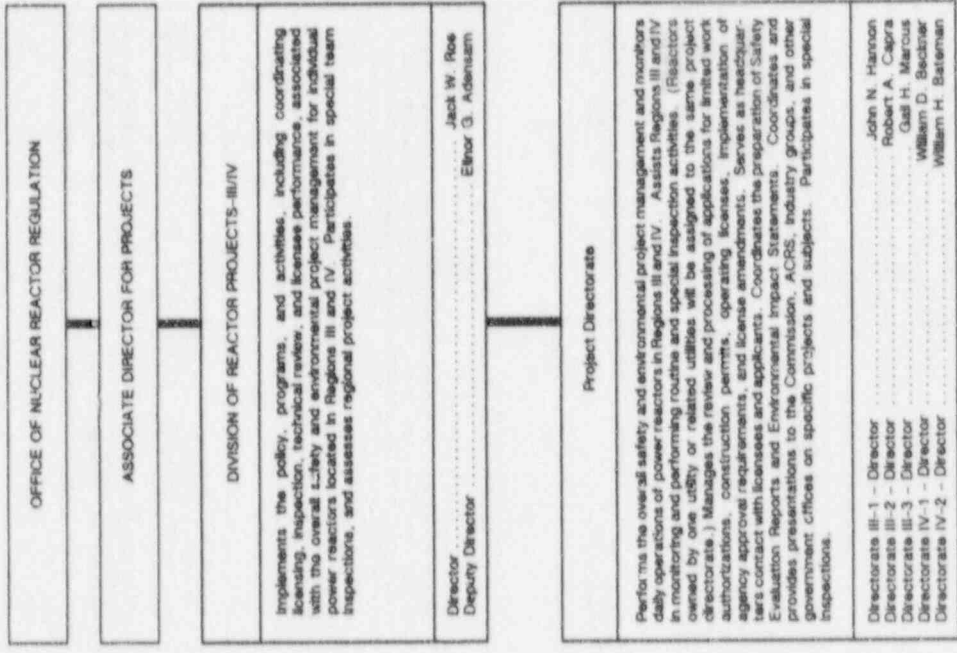

Develops and conducts programs for major team inspections at licensee facilities which involve use of a number of engineering and operational specialties. Develops and conducts inspections of vendors and licensee contractors who supply safety-related products and services to the nuclear industry. Performs inspections in response to allegations and reports of defective substandard components and equipment in nuclear service or being offered for nuclear service. Determines the safety significance and generic implications of these problems. Coordinates with other federal agencies on misrepresented and substandard vendor products and assists with NRC investigations.

Chief Robert M. Guilo

U.S. NUCLEAR REGULATORY COMMISSION

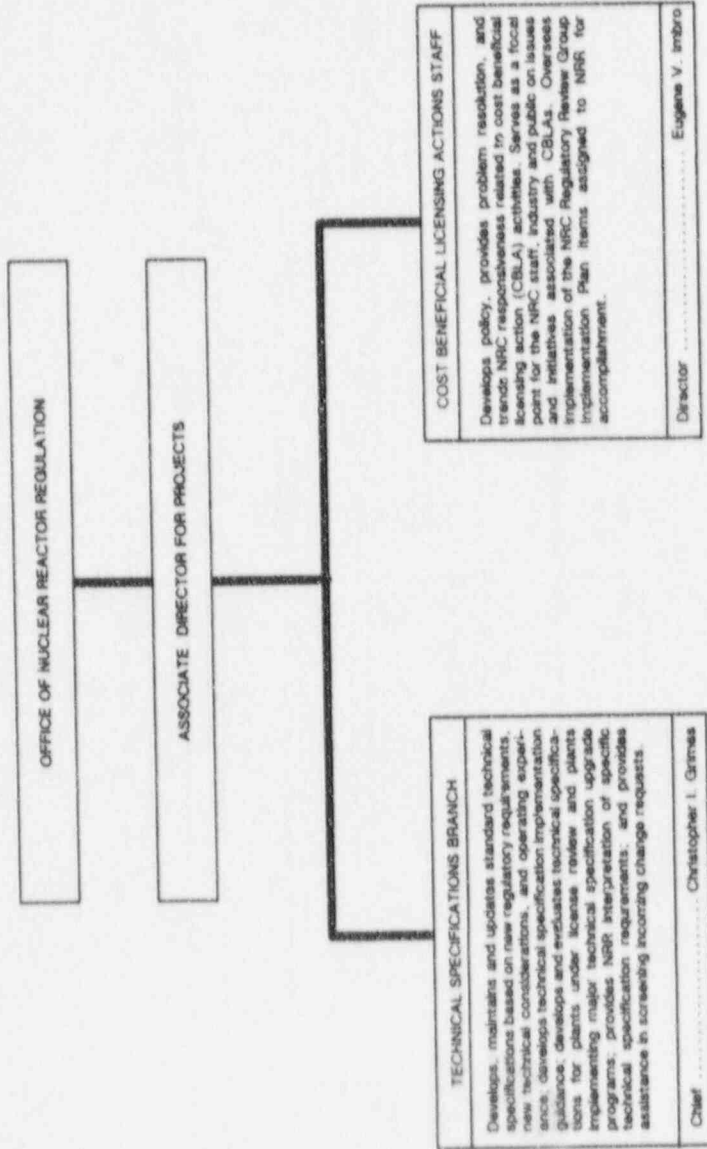

ORGANIZATIONAL CHART

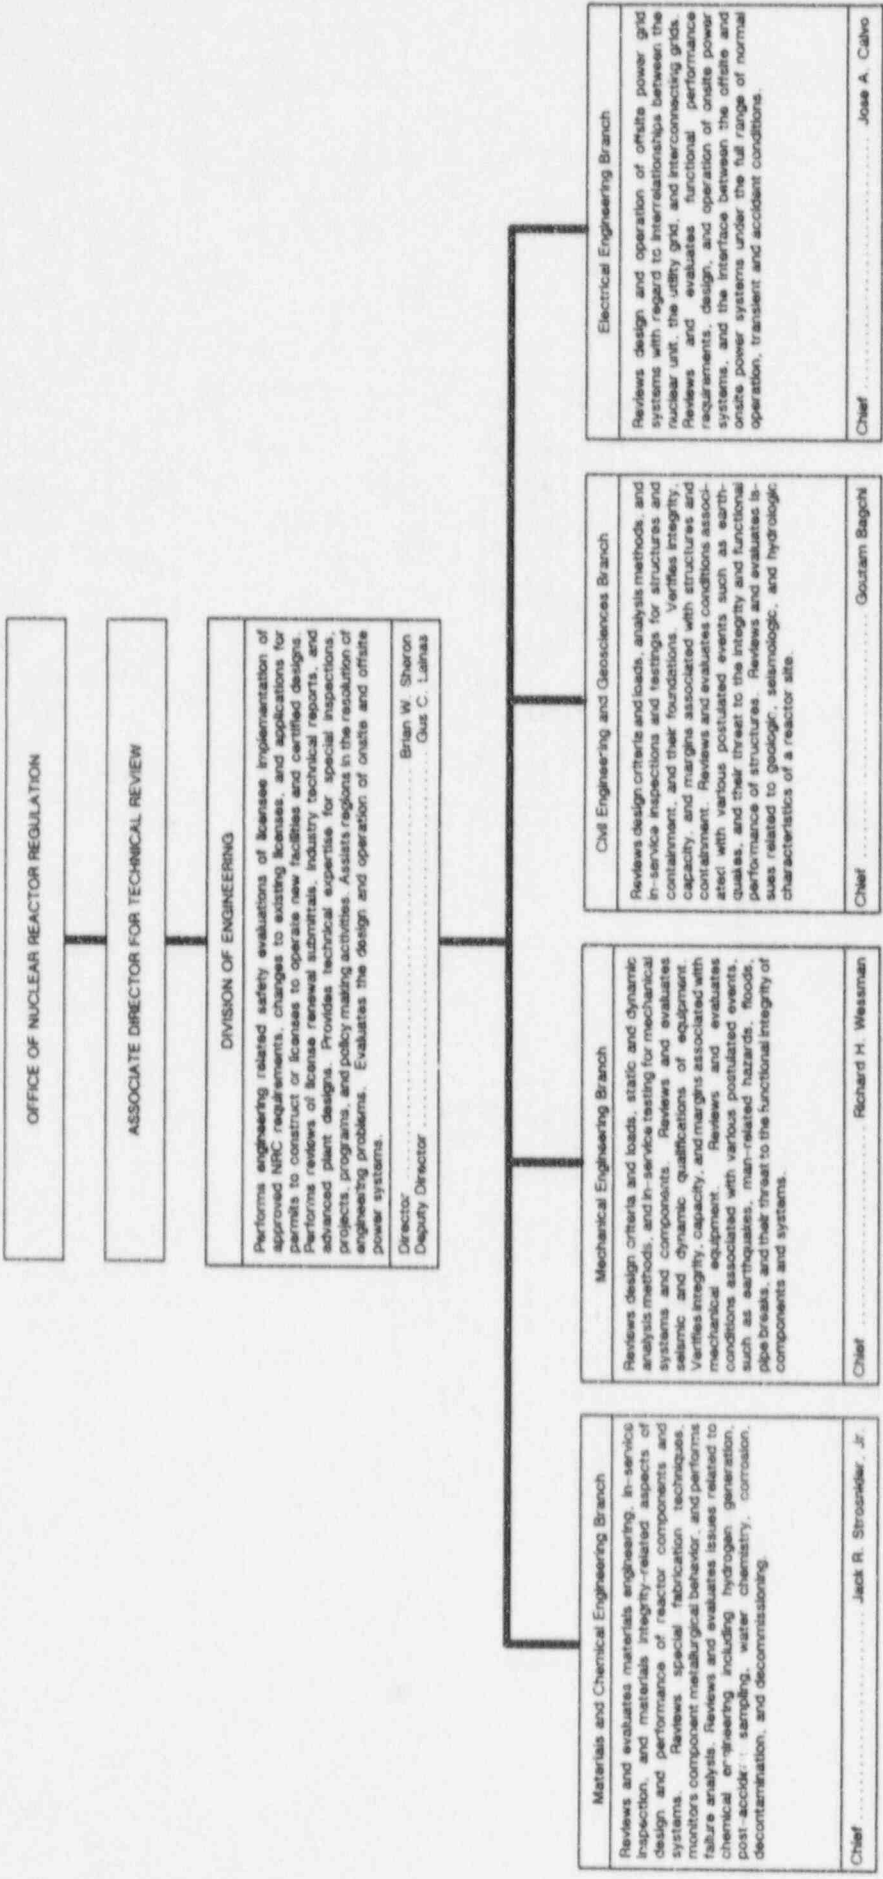

U.S. NUCLEAR REGULATORY COMMISSION

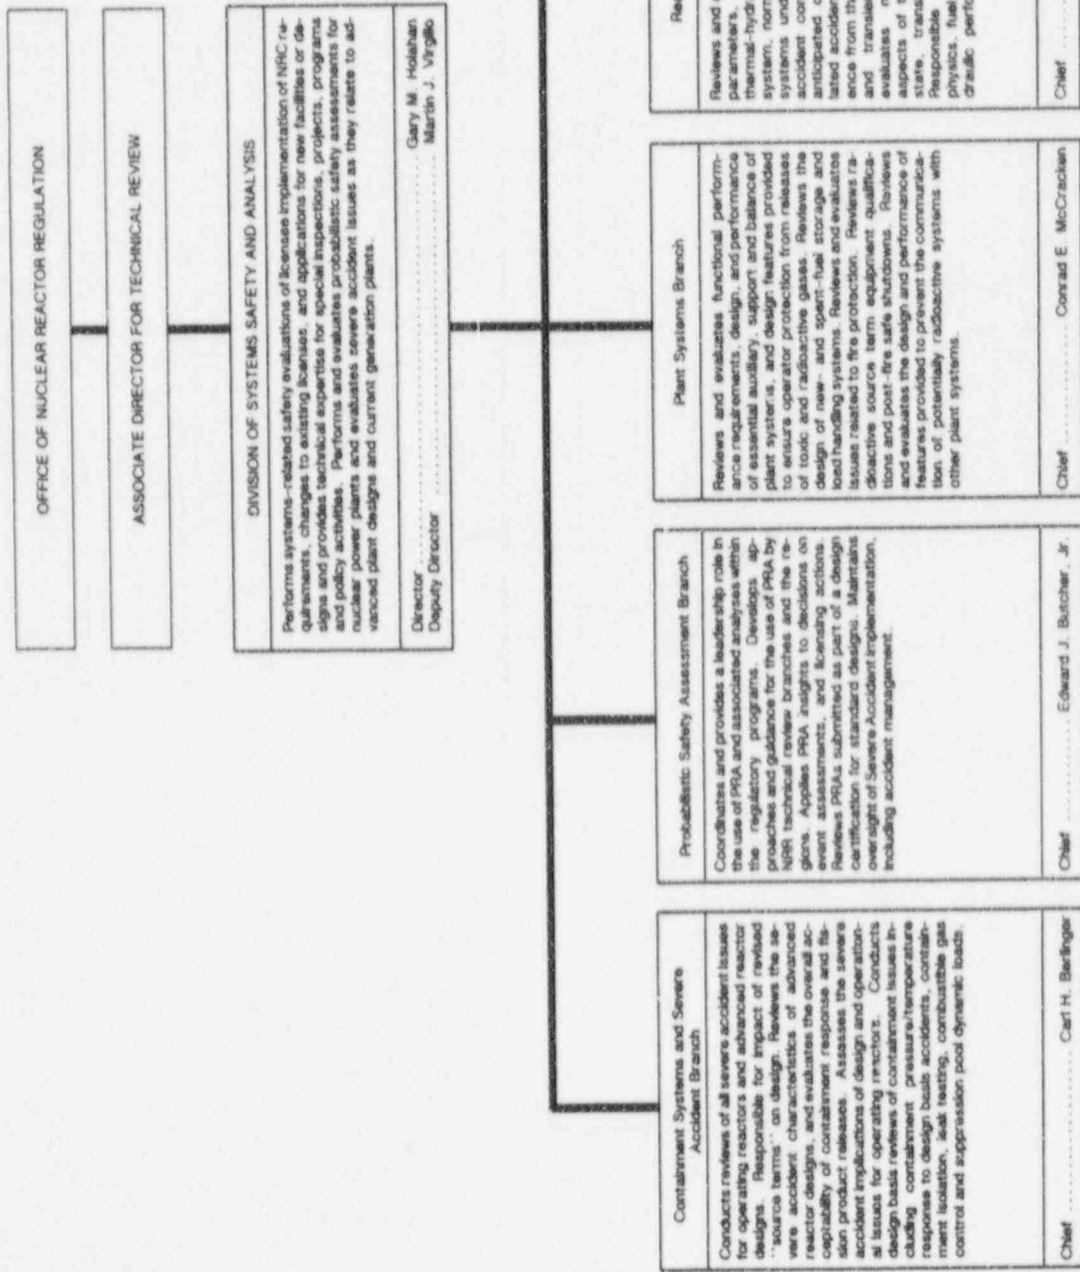

ORGANIZATIONAL CHART

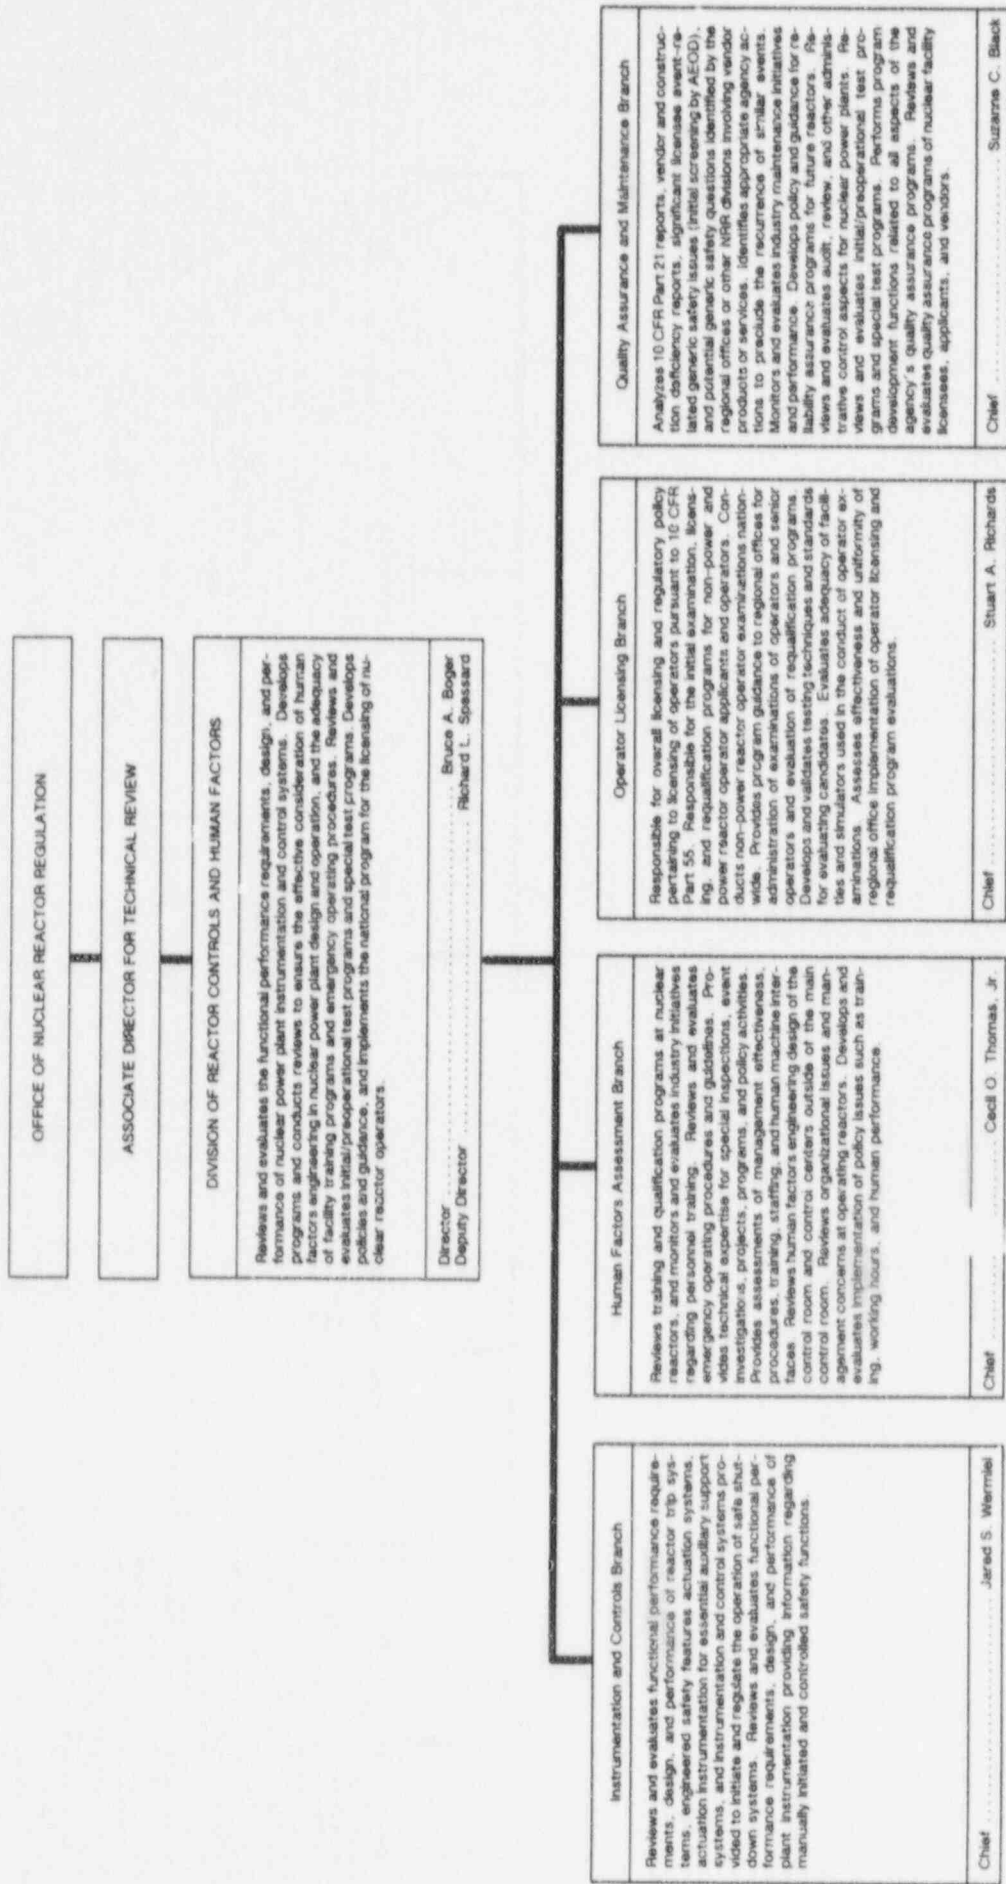

U. S. NUCLEAR REGULATORY COMMISSION

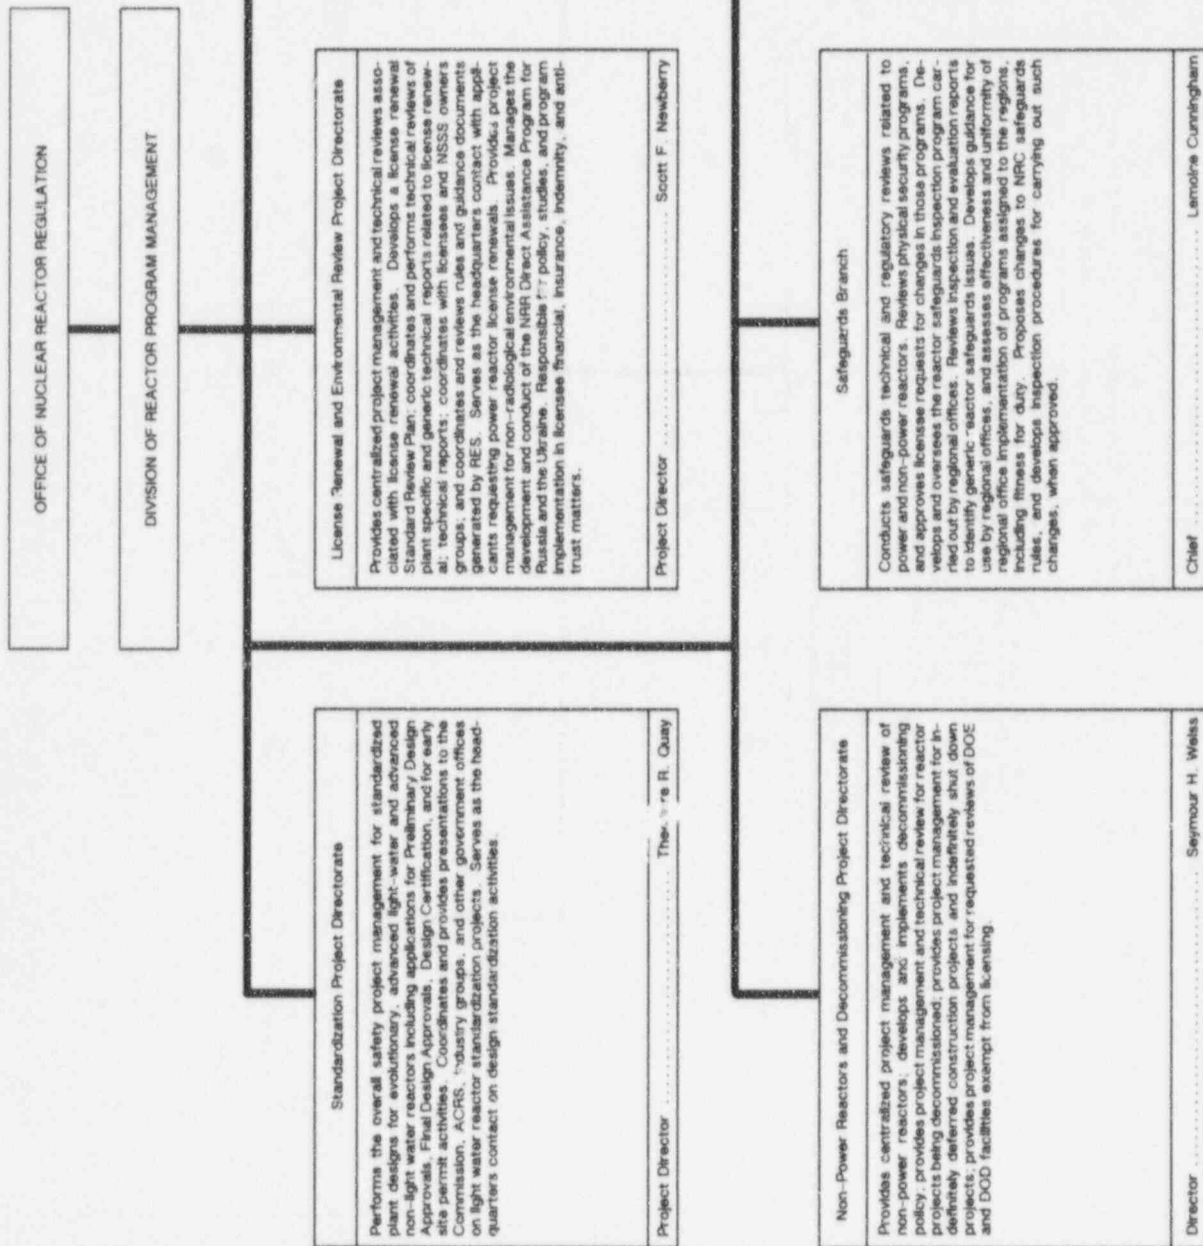

ORGANIZATIONAL CHART

U.S. NUCLEAR REGULATORY COMMISSION

ORGANIZATIONAL CHART

OFFICE OF NUCLEAR REACTOR REGULATION

DIVISION OF REACTOR PROGRAM MANAGEMENT

Standardization Project Directorate

Performs the overall safety project management for standardized plant designs for evolutionary, advanced light-water and advanced non-light water reactors including applications for Preliminary Design Approvals, Final Design Approvals, Design Certification, and for early site permit activities. Coordinates and provides presentations to the Commission, ACRS, industry groups, and other government offices on light water reactor standardization projects. Serves as the headquarters contact on design standardization activities.

Project Director Theodore R. Quay

License Renewal and Environmental Review Project Directorate

Provides centralized project management and technical reviews associated with license renewal activities. Develops a license renewal Standard Review Plan; coordinates and performs technical reviews of plant specific and generic technical reports related to license renewal; technical reports; coordinates with licensees and NRCSS owners groups, and coordinates and reviews rules and guidance documents generated by RES. Serves as the headquarters contact with applicants requesting power reactor license renewals. Provides project management for non-radiological environmental issues. Manages the development and conduct of the NRC Direct Assistance Program for Russia and the Ukraine. Responsible for policy, studies, and program implementation in licensee financial, insurance, indemnity, and anti-trust matters.

Project Director Scott F. Newberry

Events Assessment and Generic Communications Branch

Systematically assesses and screens all nuclear power reactor related reports and data to determine their significance, need for additional evaluation, generic communications, tracking as emergent generic issues (generic communications and compliance activities [GCCAs]), or plant-specific action. Responsible for oversight and tracking of all GCCAs within NRC. Has the lead for determining significance and prioritization of emergent GCCAs. Identifies the need for an Augmented Inspection Team or Incident Investigation Team response and coordinates NRC involvement in establishing the scope and composition of the teams. Coordinates operating event briefings, serves as the NRC focal point for interface with AEOD, the region, other offices, and industry for event and other incoming reports and data. Maintains and administers "on-call emergency officer" roster and staffs the daytime emergency officer function. Develops and coordinates generic communications, such as generic letters, bulletins and information notices to alert industry to safety concerns identified from power reactor events and conditions.

Chief Alfred E. Chaffee

Non-Power Reactors and Decommissioning Project Directorate

Provides centralized project management and technical review of non-power reactors; develops and implements decommissioning policy; provides project management and technical review for reactor projects being decommissioned; provides project management for indefinitely deferred construction projects and indefinitely shut down projects; provides project management for requested reviews of DOE and DOD facilities exempt from licensing.

Director Seymour H. Wells

Safeguards Branch

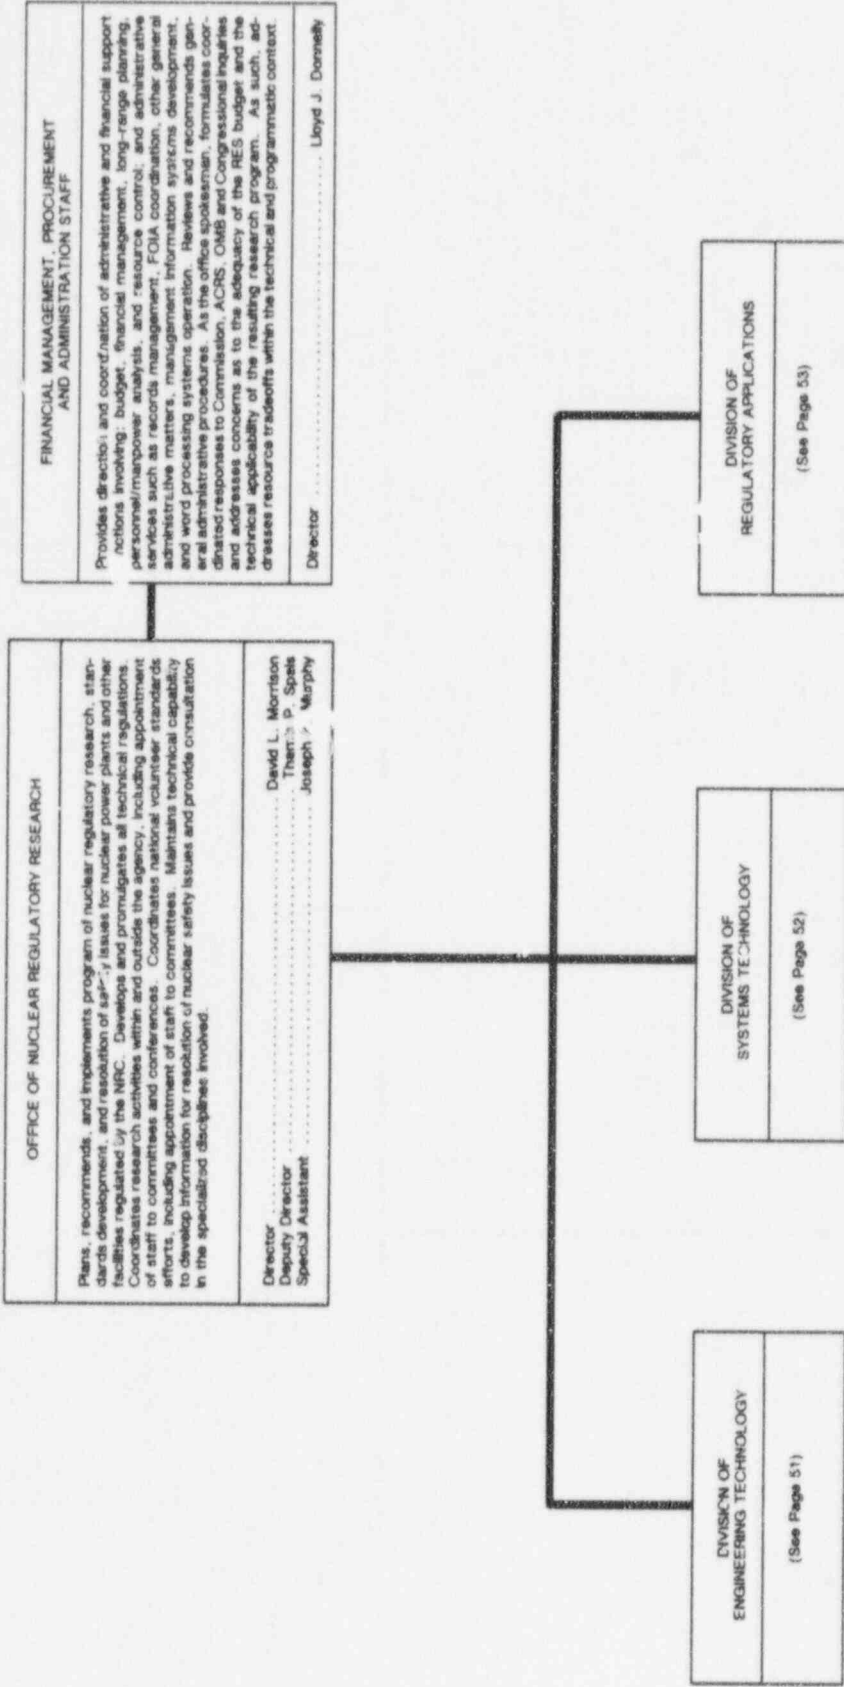

Conducts safeguards technical and regulatory reviews related to power and non-power reactors. Reviews physical security programs, and approves licensee requests for changes in those programs. Develops and oversees the reactor safeguards inspection program carried out by regional offices. Reviews inspection and evaluation reports to identify generic reactor safeguards issues. Develops guidance for use by regional offices, and assesses effectiveness and uniformity of regional office implementation of programs assigned to the regions including fitness for duty. Proposes changes to NRC safeguards rules, and develops inspection procedures for carrying out such changes, when approved.

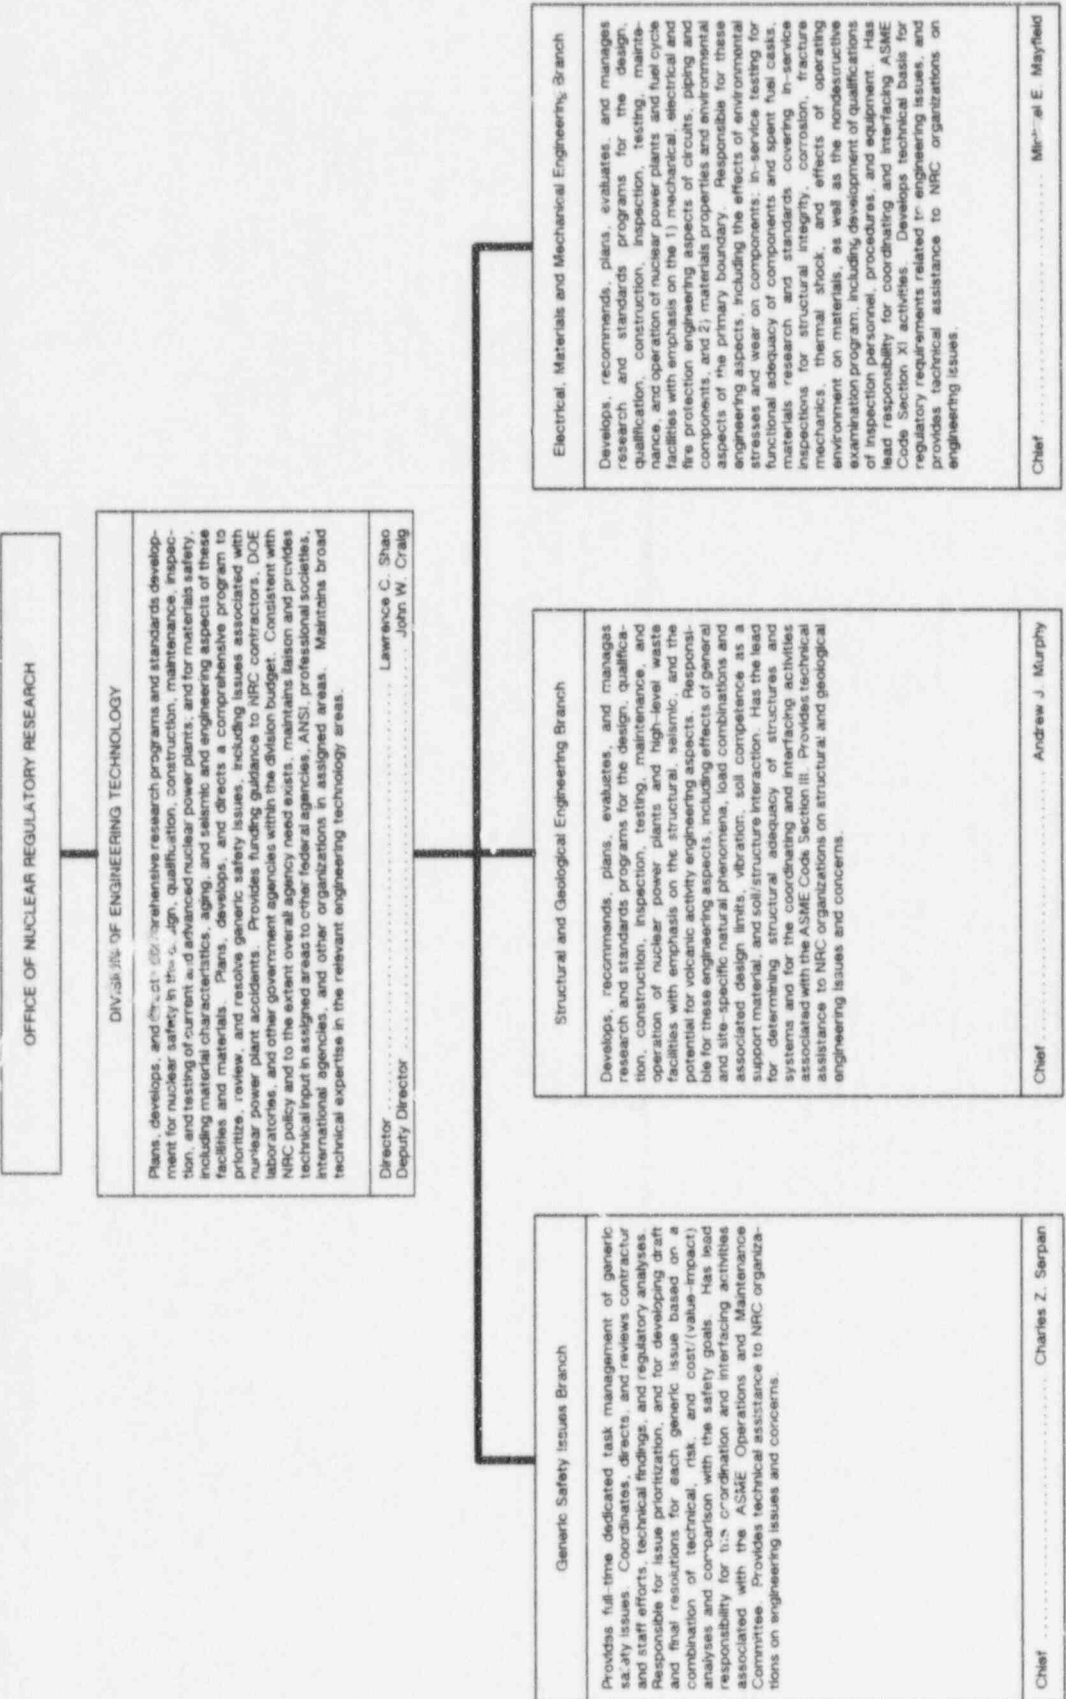

Chief Lamorne Cunningham

Emergency Preparedness and Radiation Protection Branch

Develops programs and guidelines for radiation protection areas; provides technical expertise for radiological issues, interpellations, and regional assistance; conducts technical and regulatory reviews of applications and amendments for radiation protection areas and meteorological considerations. Reviews and evaluates radiation health effects on the public and plant personnel resulting from postulated accidents and normal operations. Maintains technical contacts with other federal agencies, national and scientific advisory groups and industry on radiological protection developments. Defines inspection requirements and assesses effectiveness and uniformity of regional implementation of radiation protection programs. Reviews and evaluates emergency plans associated with construction permits and operating licenses for power reactors. Reviews and evaluates emergency plans for research and test reactors. Coordinates with FEMA on emergency preparedness matters, and reviews and evaluates FEMA findings and observations relating to off-site preparedness of state and local governments.

Chief Charles L. Miller

OFFICE OF NUCLEAR REGULATORY RESEARCH

DIVISION OF SYSTEMS TECHNOLOGY

Plans, develops, and directs comprehensive safety research programs for predicting nuclear reactor and plant systems behavior under normal, accident and severe accident conditions for current and advanced reactors. Responsibilities include evaluating challenges to containment, development of accident source terms, accident sequence analysis, and development, coordination, and implementation of advanced reactor safety research. Provides systems research program planning, implementation, and results in response to needs defined for severe accidents and human factors. Provides research to improve NRC's understanding of human performance and to evaluate the safe application of digital instrumentation and control systems. Performs and reviews for probabilistic risk assessments, individual plant examinations (IPEs) and reliability assessments. Provides funding guidance to NRC contractors, DOE laboratories, and other government agencies within the division budget. Consistent with NRC policy and to the extent overall agency need exists, maintains liaison and provides technical input in assigned areas to other federal agencies, ANSI, professional societies, international agencies, and other organizations. Maintains broad technical expertise and provides consultation in the relevant systems technology areas.

Director M. Wayne Hodges
Deputy Director Thomas L. King

Control, Instrumentation and Human Factors Branch

Responsible for planning, developing, and directing comprehensive research programs on human factors and advanced instrumentation and controls related to all elements of NRC-regulated nuclear activities. Activities include conducting studies on human factors such as man-machine interfaces, procedures, human performance, qualifications, training, organization, management, and operational performance, advanced instrumentation and controls driven by digital computers, software validation and verification; managing and evaluating generic issues related to operation and human factors; evaluating reactor operations issues; and translating these efforts into effective tools to aid in making licensing and other regulatory decisions and coordinating these research and standards programs with other NRC offices. Provides technical support for those aspects of accident management involving the plant's operative and support teams. Develops policies, regulations, guidelines, technical bases, and regulatory analyses to support recommendations and requirements related to such issues. Maintains broad technical expertise and provides consultation to NRC organizations in areas related to human factors and advanced instrumentation, and controls.

Chief Franklin D. Coffman, Jr.

Probabilistic Risk Analysis Branch

Formulates PRA analyses and reviews full-scope PRA submissions. Uses PRA-based methodologies, models, and analysis techniques to determine overall risk. Responsible for the reviews of the individual plant examinations (IPEs), and the dissemination of IPE results, development guidance for implementation of the safety goal, and development and improvement of operational and human reliability methodology. Provides safety perspectives on plant design and operation by using probabilistic techniques to identify dominant accident sequences leading to core melt and major contributors to these sequences. Responsible for severe accident risk reassessing, identifies, reviews, and evaluates internally and externally initiated events to determine the existence of high-risk sequences. Responsible for accident consequence modeling and development of integrated risk analysis methods as well as risk methods improvements. Develops techniques for risk-based regulatory decision making. Provides staff support for risk analysis related to severe accident implementation. Maintains broad technical expertise and provides consultation to NRC organizations in PRA-related areas.

Chief Mark A. Cunningham

Accident Evaluation Branch

Plans, recommends, evaluates, and manages analytical and experimental research programs on accident phenomena of nuclear plants, including advanced reactors. Provides a basis for a regulatory decisions process on severe accidents. Emphasis is on modeling the release and transport of fission products, aerosols and hydrogen, and accident sequences which could cause reactor coolant pressure boundary or containment failure. Programs include development and verification of validated codes and models of in-vessel and ex-vessel phenomena under accident conditions, including the release of non-condensable gases during fuel melt progression, ejection of molten fuel from the primary coolant system, core-concrete interactions, and the burning of hydrogen. Conducts experimental programs on in-vessel and ex-vessel behavior of fuel and fission product aerosols, including fission product chemistry, ex-vessel interactions of molten fuel with coolant, and structural actions of high pressure molten fuel ejection, to provide data for development and validation of codes and models as they apply to current operating power reactors and advanced reactor designs. Responsible for work on severe accident, siting policy, and related issues for nuclear power plants. Maintains broad technical expertise and provides consultation to NRC organizations in these specialized areas.

Chief Charles E. Ader

Reactor and Plant Systems Branch

Plans, recommends, evaluates, and manages analytical and experimental research programs on the performance of the primary coolant systems of nuclear power plants, including thermal-hydraulic transient behavior and interaction with the balance of plant under normal, abnormal, and accident conditions to support assessment of continued safety of operating reactors and evaluation of operational experience, as well as anticipation of safety issues in advanced reactors. Responsible for a program of code and model development and verification; conduct of appropriate test programs to provide the necessary empirical data and detailed analyses of selected operational precursor events and other aids to reactor plant and containment analysis, especially as they relate to both operating and advanced power reactors. Maintains broad technical expertise and provides consultation to NRC organizations in these specialized areas.

Chief Farouk Elmaghrabi

OFFICE OF NUCLEAR REGULATORY RESEARCH

DIVISION OF REGULATORY APPLICATIONS

Plans, develops, monitors, and directs technical rulemakings and related standards development, including those related to reactor safety, radiation protection, health effects, fuel cycle waste, and materials, safeguards, transportation, decommissioning, the management of nuclear waste, and closure of uranium recovery facilities. Develops, documents, and implements policies and procedures for developing regulations, regulatory activities, and handling of petitions for rulemaking. Plans NRC rulemaking and regulatory guide development activities. Manages research programs to support licensing decisions and rulemaking and standards development on high- and low-level nuclear waste management, closure of uranium recovery facilities, and radiation protection. Provides funding guidance to NRC contractors, DOE laboratories, and other government agencies within the division budget. Consistent with NRC policy and to the extent overall agency need exists, maintains liaison and provides technical input in assigned areas to other federal agencies, ANS, professional societies, international agencies, and other organizations. Maintains broad technical expertise and provides consultation in radiation protection.

Director Bill M. Morris
Deputy Director Frank A. Costanzo

Waste Management Branch

Develops, recommends, plans, evaluates, and manages research programs and develops rules and standards for the design, qualification, construction, inspection, testing, operation, and closure of waste disposal and uranium recovery facilities. Addresses overall performance of such facilities with emphasis on characterization of the phenomena, methodologies, and performance demonstrations necessary for the management of radioactive waste. Evaluates factors and phenomena affecting the public health as a result of routine and accidental releases from waste facility system performance. Factors and phenomena include external factors such as metallurgical, geological, hydrological, and meteorological considerations that affect facility safety; institutional and physical factors that affect the consequences of routine operations and accidents; and operating, engineering, and system performance factors that affect waste isolation and containment. Also, supports through research programs and development of computer codes licensing and rulemaking activities related to decommissioning.

Chief Sher Beharal

Regulation Development Branch

Develops needed regulatory products (regulations, guides, etc.) based on results of the NRC research program (and other information), proposes or initiates rulemaking, as appropriate, and manages complex rulemakings that span the technical or organizational responsibilities of several RES branches or that involve novel or complex questions of regulatory policy. Manages research and standards development for power reactor, fuel cycle and materials safety, and safeguards. Has led on rulemaking dealing with state program development, document, and implement policies and procedures needed for developing effective, coherent, consistent, and understandable regulations. Prepares regulatory analyses including cost analysis on the impact of proposed regulatory activities, handles petitions for rulemaking, and has a key role in RES interactions with the CHGR. Considers risk significance of regulations. Coordinates the RES review and planning of all NRC rulemaking activities and assists in monitoring and scheduling of rulemaking to ensure that rules are developed in the time frame specified in the Commission's guidance.

Chief Thomas O. Martin

Radiation Protection and Health Effects Branch

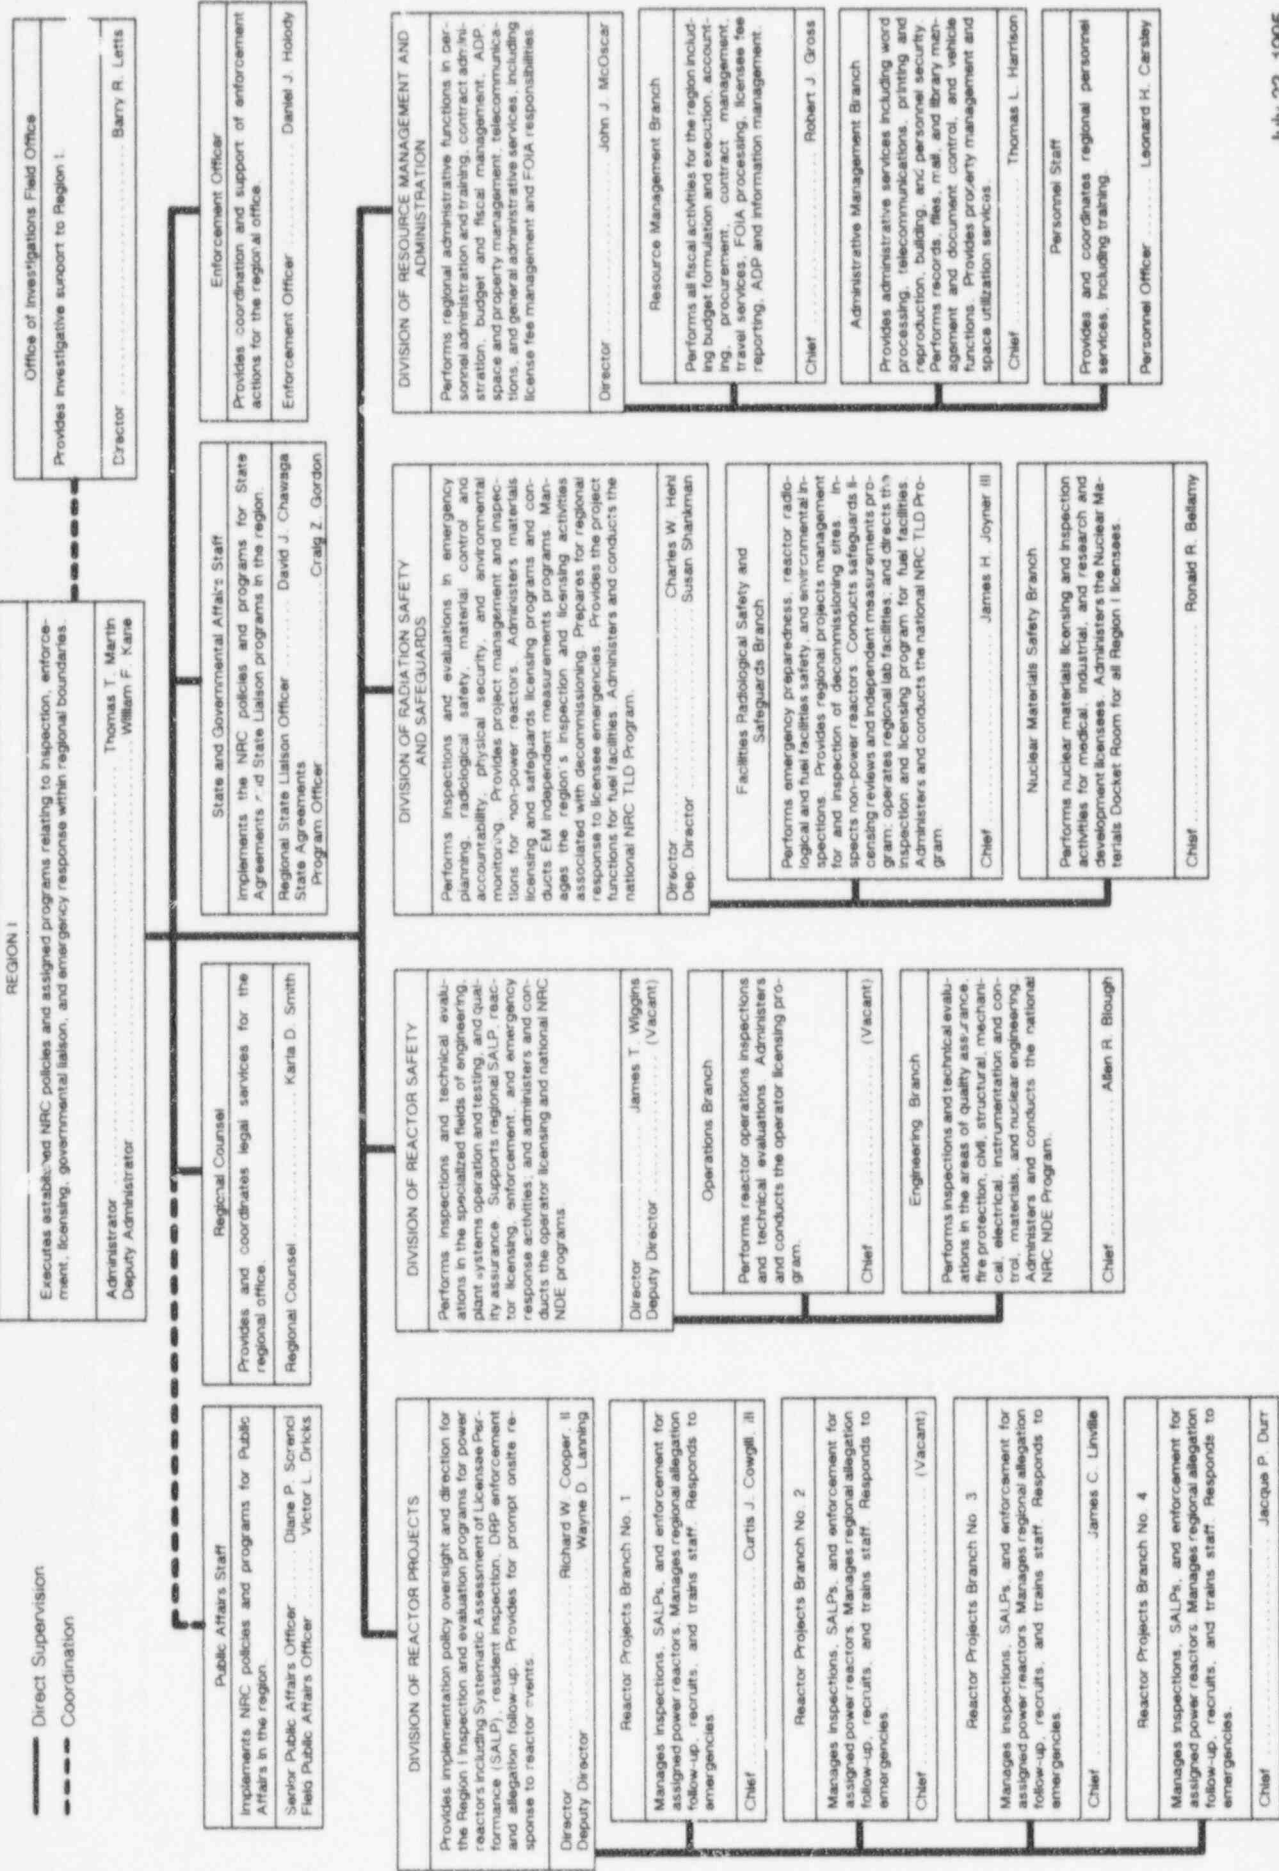

Responsible for development of regulations and regulatory guidance related to protection of workers and the public from exposure to radiation resulting from activities of NRC licensees, including reactor and fuel cycle facility operations, materials licensees and medical applications, decommissioning and the radiation aspects of waste disposal. Formulates regulations and guidance based on technical and scientific information on the relationship between human exposure to ionizing radiation and radioactive materials and the potential occurrence of health effects, and on the mechanisms governing the transport of radioactive materials through the environment; develops such information as necessary. Takes into consideration recommendations of the ICRP, NCRP, other government organizations and Presidential guidance as well as technical feasibility and financial considerations in formulating regulations and guidance. Manages contracts necessary to develop the technical basis in support of these programs and coordinates with other NRC offices, government agencies, and national and international scientific organizations having related responsibilities.

Chief John E. Glenn

ORGANIZATIONAL CHART

U.S. NUCLEAR REGULATORY COMMISSION

REGION I

REGION II

Direct Supervision
Coordination

Office of Investigations Field Office
Provides Investigative support to Region II.
Director William J. McNulty

Administrator Stewart D. Ebneter
Deputy Administrator Luis A. Reyes

Public Affairs Officer
Implements NRC policies and programs for Public Affairs in the region.
Sr. Pub. Aff. Off. Kenneth M. Clark
Field Pub. Aff. Off. Roger D. Hannah

Regional Counsel
Advise the Regional Administrator on legal issues.
Reg. Counsel Carolyn F. Evans

Enforcement and Investigation Coordination Staff
Implements enforcement policy in the region and coordinates allegation investigation activities.
Director Bruno Uryc

State Agreements Officer
Conducts Agreement States Program.
State Agreements Off. Richard L. Woodruff

DIVISION OF REACTOR PROJECTS
Implements and coordinates all project management activities related to the regulation of all nuclear power reactor facilities, except TVA, under construction and/or operation.
Director Ellis W. Merchoff
Deputy Director Jan R. Johnson

Reactor Projects Branch No. 1
Plans, directs, coordinates, and supervises the project management functions and the programs and activities of Reactor Project Sections.
Chief (Vacant)

Reactor Projects Branch No. 2
Plans, directs, coordinates, and supervises the project management functions and the programs and activities of Reactor Project Sections.
Chief (Vacant)

Reactor Projects Branch No. 3
Plans, directs, coordinates, and supervises the project management functions and the programs and activities of Reactor Project Sections.
Chief (Vacant)

Reactor Projects Branch No. 4
Plans, directs, coordinates, and supervises the project management functions and the programs and activities of Reactor Project Sections.
Chief (Vacant)

Technical Support Staff
Develops and maintains data and records on priorities, schedules, assignments, and the status of all reactor projects and tasks. Also develops, coordinates and issues abnormal occurrence reports, and oversees regional SALP program.
Chief Steven J. Vilas

DIVISION OF RADIATION SAFETY AND SAFEGUARDS
Performs inspections at reactors in emergency planning, radiological safety, physical security, and environmental monitoring. Performs licensing and inspection for nuclear fuel reprocessing reactors and materials program. Prepares for regional response to emergencies.
Director Bruce Mullen
Deputy Director (Vacant)

Radiological Protection and Emergency Preparedness Branch
Plans, directs, coordinates, and supervises the program and activities of the Radiological Protection, Radiological Effluents and Chemistry, and the Emergency Preparedness Sections.
Chief (Vacant)

Nuclear Materials Safety and Safeguards Branch
Plans, directs, coordinates and supervises the programs and activities of the Radiation Safety Projects, Nuclear Materials Inspection, Nuclear Materials Licensing, and Safeguards Sections.
Chief Douglas M. Cullins

DIVISION OF REACTOR SAFETY
Executes an inspection program in the functional areas of electrical, civil, chemical, mechanical, nuclear, and human engineering, nuclear physics, management and QA/QC systems, and safety operations for all reactor projects within the region. Manages the Regional Operator Licensing Program.
Director Albert F. Gibson
Deputy Director Johns P. Jaudon

Engineering Branch
Plans, directs, coordinates and supervises the program and activities of the Materials and Processes, Test Programs and Pilot Systems Sections.
Chief Casilda A. Julian

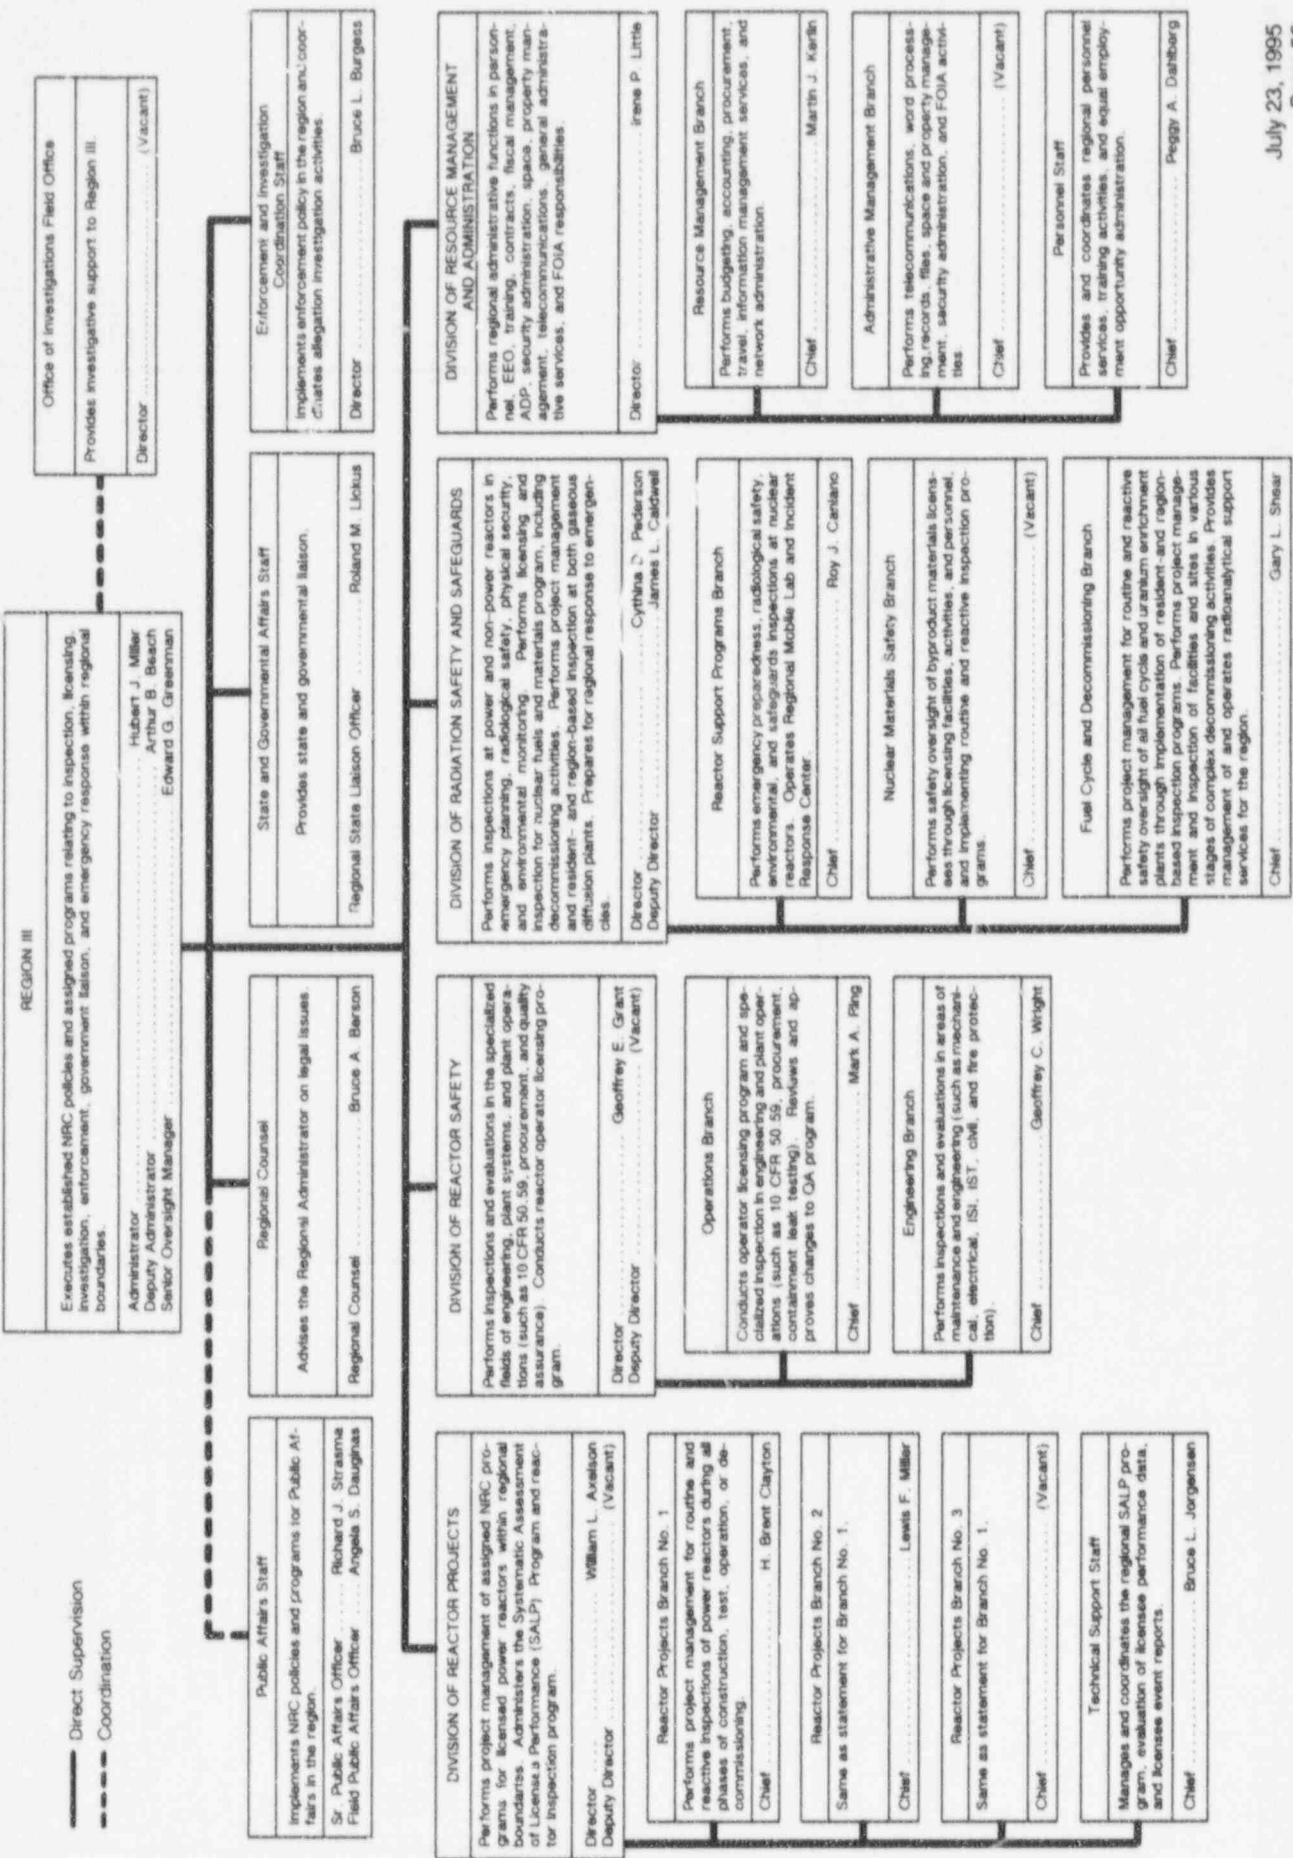

Operations Branch
Plans, directs, coordinates and supervises the programs and activities of the Operator Licensing, and Operational Programs Sections.
Chief Thomas A. Peebles

DIVISION OF RESOURCE MANAGEMENT AND ADMINISTRATION
Manages all administrative functions in the region, including planning, coordinating, directing, and administering the financial, human, and property resources of the region.
Director Greg Benoit

Resource Management Branch
Performs budgeting, accounting, travel, purchasing, regional impact fund administration, and computerized information management services.
Chief Jeffrey B. Luffford

Personnel Staff
Provides and coordinates regional personnel services, training activities and equal employment opportunity administration.
Personnel Officer Alma C. Harper

Administrative Management Branch
Performs records and files management, FOIA function, facility security program activities, property management, space planning and word processing services.
Chief Peggy R. Shaw

ORGANIZATIONAL CHART

U.S. NUCLEAR REGULATORY COMMISSION

REGION IV

Public Affairs Officer
Implements NRC policies and programs for Public Affairs in the region.
Sr. Public Affairs Officer Breck W. Henderson
*WCFO Public Affairs Officer Mark Hammond

Administrator
Deputy Administrator
Leonard J. Cullen
Samuel J. Collins

Office of Investigations Field Office
Provides investigative support to Region IV.
Director
*WCFO Officer Ewert L. Williams
*WCFO Officer Philip V. Loukoff
*WCFO Officer Eugene J. Power

Regional Counsel
Performs the legal functions necessary to carry out the assigned responsibilities of the regional office.
Regional Counsel William L. Brown

Regional State Liaison Officer
Coordinates and carries out communications between NRC and the states and appropriate local governments within the region regarding the regulation of nuclear materials and facilities.
Regional State Liaison Officer Charles A. Hisciney
*WCFO Officer Dean M. Kutirfo

State Agreement Program Officer
Implements the Agreement States Program and monitors the program to evaluate its compatibility with the NRC regulatory program and its adequacy to protect the public health and safety.
State Agreement Officer Robert J. Doda
*WCFO Officer Jack W. Horner

Enforcement Officer
Implements policies and programs of enforcement and training, and provides liaison between the region and OI. Manages regional allegations.
Enforcement Officer Gary F. Sarborn

DIVISION OF RADIATION SAFETY AND SAFEGUARDS
(See Page 58)
Director Ross A. Sciarano
Deputy Director (Vacant)

DIVISION OF REACTOR SAFETY
Performs inspections and technical evaluations in the specialized fields of engineering, plant systems operation and testing, maintenance, licensee safety assessment and corrective action programs, and quality assurance. Supports regional systematic assessment of licensee performance, enforcement, and emergency response activities, and administers and conducts the operator licensing program within the region.
Director Thomas P. Gwynn
Deputy Director Kenneth E. Brookman

DIVISION OF REACTOR PROJECTS
(See Page 58)
Director James E. Dyer
Deputy Director (Vacant)

DIVISION OF RESOURCE MANAGEMENT AND ADMINISTRATION
Performs Regional administrative functions in personnel administration and training, contract administration, budget and fiscal management, ADP, space and property management, telecommunications, and general administrative services, including license fee management and FOIA responsibilities.
Director Kathleen J. Hamill

Nuclear Materials Inspection Branch
(See Page 58)
Chief Linda L. Howell

Engineering Branch
Performs inspections and technical evaluations in the areas of civil, structural, mechanical, electrical, and nuclear engineering. Responsibilities include modifications and testing, design changes, plant systems, configuration control, motor operated valve programs, design basis re-constitution, probabilistic risk assessment, and environmental qualification.
Chief (Vacant)

Reactor Projects Branch A
(See Page 58)
Chief William D. Johnson

Administrative Management Branch
Provides administrative services including printing and reproduction, FOIA, telecommunications, and personnel security. Performs records, files, mail, library management and document control. Provides property management and space utilization.
Chief Linda S. Ousley

Facilities Inspection Program Branch
(See Page 58)
Chief Blaine Murray

* Plant Support Branch
Performs inspections and technical evaluations in the areas of fire protection, steam generators, licensee safety assessment, and corrective action programs. Performs reviews of licensee QA program change submissions.
Chief William P. Ang

Reactor Projects Branch B
(See Page 58)
Chief (Vacant)

Resource Management Branch
Performs all fiscal activities for the region including budget formulation and execution, accounting, procurement, contract management, travel services, licensee fee reporting, ADP and information management.
Chief Peter H. Krayer

Fuel Cycle and Decommissioning Branch
(See Page 58)
Chief Charles L. Cain

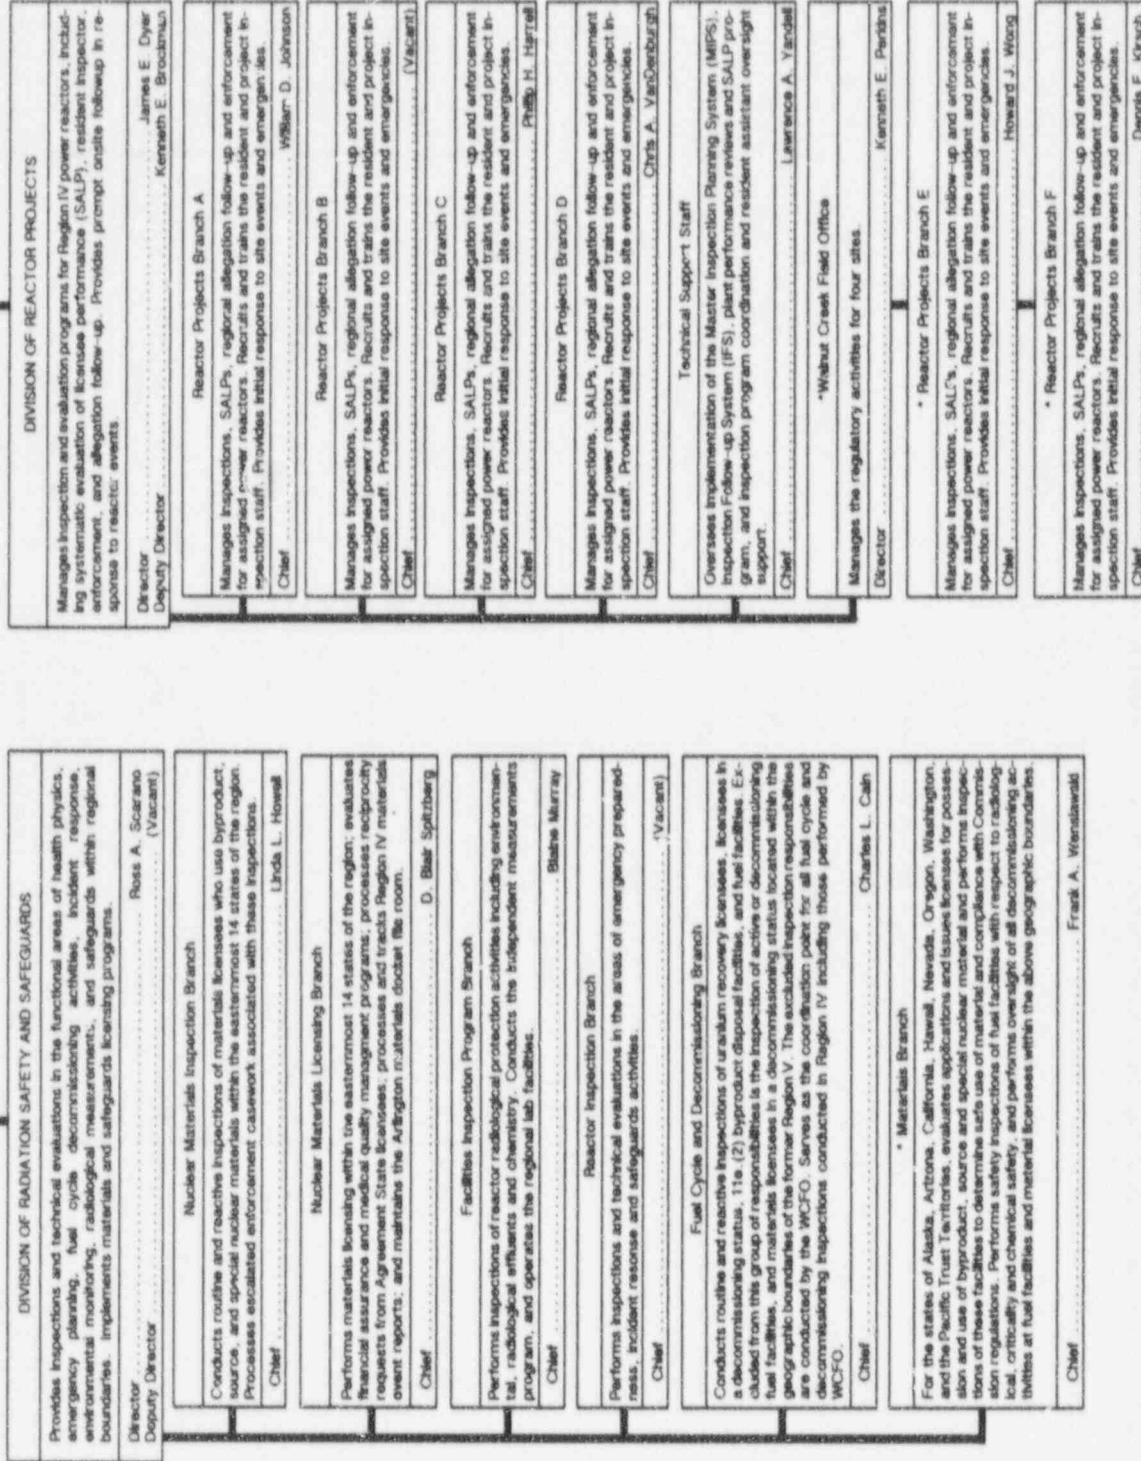

Maintenance Branch
Performs safety inspections and technical evaluations of reactor physics and core performance, component material and structural integrity, plant chemistry and erosion/corrosion, and activities associated with refueling outages. Includes inspection and testing, and mechanical and electrical maintenance/surveillance.
Chief Dale A. Powers

Technical Support Staff
(See Page 58)
Chief Lawrence A. Yandell

Personnel Staff
Provides and coordinates regional personnel services, including training.
Chief Karen E. League

1. REPORT NUMBER
(Assigned by NRC, Add Vol.,
Supp., Rev., and Addendum Num-
bers, if any.)

NUREG-0325
Revision 18

2. TITLE AND SUBTITLE

U.S. Nuclear Regulatory Commission Organization Charts and Functional
Statements

July 23, 1995

3. DATE REPORT PUBLISHED

MONTH	YEAR
July	1995

4. FIN OR GRANT NUMBER

5. AUTHOR(S)

6. TYPE OF REPORT

7. PERIOD COVERED (Inclusive Dates)

8. PERFORMING ORGANIZATION - NAME AND ADDRESS (If NRC, provide Division, Office or Region, U. S. Nuclear Regulatory Commission, and mailing address; if contractor, provide name and mailing address.)

Office of Personnel
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

9. SPONSORING ORGANIZATION - NAME AND ADDRESS (If NRC, type "Same as above"; if contractor, provide NRC Division, Office or Region, U. S. Nuclear Regulatory Commission, and mailing address.)

Same as 8, above.

10. SUPPLEMENTARY NOTES

11. ABSTRACT (200 words or less)

Functional statements and organization charts for the U.S. Nuclear Regulatory Commission offices, divisions, and branches are presented.

12. KEY WORDS/DESCRIPTORS (List words or phrases that will assist researchers in locating the report.)
