Attention: Mr. Kenneth B. Baskin, Vice President
Nuclear Engineering, Safety and Licensing Department

Gentlemen:

Subject: NRC Inspection of San Onofre Units 2 and 3
Precritical, low power, and power ascension test results review

This refers to the routine inspection conducted by Mr. D. B. Pereira of this office on June 5-8, 1984 of activities authorized by NRC License Numbers NPF-10 and NPF-15 and to the discussion of findings held by Mr. Pereira with Mr. Moody and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

No violations of NRC requirements were identified during this inspection.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).

Should there arise any questions concerning this inspection, we would be pleased to discuss them with you.

Sincerely,

orig signed

T. W. Bishop, Director
Division of Reactor Safety & Projects
