and Technology
Oklahoma State University
Stillwater, Oklahoma 74074

DOCKETED
USNRC
AUG 11 11:11
OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Gentlemen:

SUBJECT: In the Matter of
Application of Texas Utilities
Generating Company, et al. for
An Operating License for
Comanche Peak Steam Electric Station
Units #1 and #2 (CPSES)
Docket Nos. 50-445 and 50-446

CASE's Answers to Some Motions
for Summary Disposition

We are attaching the following Answers to Applicants' Motions for Summary Disposition Regarding:

- Alleged Errors Made in Determining Damping Factors for OBE and SSE Loading Conditions
- Certain CASE Allegations Regarding AWS and ASME Code Provisions Related to Design Issues
- Consideration of Friction Forces in the Design of Pipe Supports with Small Thermal Movements

We have now been informed by the NRC Staff that they plan to have five or six additional Answers (in addition to those listed above) ready to mail the week of the 13th, probably around 8/15/84. Since most of our work on these Answers must be done on week-ends, we plan to mail whatever Answers we have completed on Monday, 8/13/84. We will do the best we can to comply with the Board's direction to beat the Staff in our filings; however, because of the amount of time necessary to prepare these answers, my best guess at this time is that we will not be able to file that many Answers before the Staff files, and some of those answers may not be for the same ones the Staff files first.

We will do the best we can; we can do no more. We will advise the Board if it looks as though we will not be able to meet the deadline, but this will not be known for sure until the week-end.

Sincerely,
Juanita Ellis
(Mrs.) Juanita Ellis, CASE President
