Dear Colonel Adcock:

The Nuclear Regulatory Commission (NRC) has issued Amendment No. 18 to Facility Operating License No. R-84 for the TRIGA Mark F research reactor at the Armed Forces Radiobiology Research Institute (AFRRI) in response to your application dated October 3, 1980, as supplemented. The amended license renews the Operating License until November 8, 2000. A Notice of Consideration of Application for License Renewal was published in the Federal Register on November 25, 1980 at 45 FR 78314. The Final Finding of No Significant Environmental Impact was published in the Federal Register on August 1, 1984 at 49 FR 30812.

In accordance with our practice, we have restated the license in its entirety, incorporating all the changes and amendments made since the issuance of the original license.

Enclosed with the amended license is a copy of the Notice of Renewal that is being sent to the Federal Register for publication. The Safety Evaluation Report (NUREG-0882) and our Environmental Impact associated with the renewal were sent to you on February 18, 1982 and Supplement 1 to the Safety Evaluation Report was sent to you on June 14, 1983.

Sincerely,

Original signed by
 Darrell G. Eisenhut, Director
 Division of Licensing
