Mr. Dave Wagner, Project Manager  
Licensing Branch No. 2  
Division of Licensing  
United States Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Wagner:

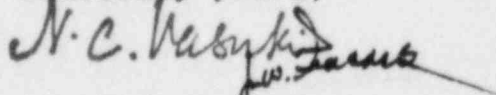

We have recently started to receive information regarding the Hope Creek Generating Station of the Public Service Electric & Gas Company. Several years ago I requested my name be removed from the mailing list because I am no longer with the Division of Environmental Control. This information should be forwarded to Mr. Robert J. Touhey, Acting Director, Division of Environmental Control.

In addition, I would like to advise that F. Michael Parkowski Esquire is also no longer with the Division of Environmental Control. I would, therefore, request that Mr. Parkowski's name also be removed from your mailing list.

We have forwarded the last three pieces of correspondence received from your office to Mr. Robert J. Touhey.

Thank you for your cooperation in this matter.

Sincerely yours,

N. C. Vasuki  
General Manager

cc: Mr. Robert J. Touhey
