OFFICE OF SERVICE
DOCKETING & SERVICE
BRANCH

Dear Mr. Churchill:

On August 7, 1984 the Waterford Appeal Board sent the General Counsel a letter requesting a legal opinion regarding whether Gunnar Harstead had violated federal conflict-of-interest regulations. OGC requires additional information from Louisiana Power & Light (LP&L) before providing our views to the Appeal Board.

It would be helpful if LP&L could provide us with an affidavit which, in addition to providing any other information that you think is relevant, would address the following questions:

- (1) For what time periods did LP&L employ Harstead Engineering Associates (HEA) to work on matters affecting the Waterford facility?
- (2) Please describe the work HEA has performed for LP&L regarding the Waterford facility.
- (3) What is the relationship between that work and the Waterford licensing proceeding?
- (4) Please describe any work Mr. Harstead performed for LP&L.
- (5) What, if any, oral or written communications on behalf of LP&L or HEA has Mr. Harstead made to the NRC staff, the Licensing Board or Appeal board regarding the Waterford facility? Please describe any such communications in detail and provide pertinent documents. Describe any meetings that Mr. Harstead attended, where NRC representatives were present.
