

UNITED STATES NUCLEAR REGULATORY COMMISSION
CAROLINA POWER & LIGHT COMPANY
DOCKET NOS. 50-325 AND 50-324
NOTICE OF WITHDRAWAL OF APPLICATION FOR AMENDMENT
TO FACILITY OPERATING LICENSE

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Carolina Power & Light Company (the licensee) to withdraw its June 17, 1994, application for proposed amendment to Facility Operating License Nos. 50-325 and 50-324 for the Brunswick Steam Electric Plant, Units 1 and 2, located in Brunswick County, North Carolina.

The proposed amendment would have removed the pressure-temperature curves and vessel surveillance capsule withdrawal schedule from the Technical Specifications.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the FEDERAL REGISTER on July 20, 1994 (59 FR 37065). However, by letter dated October 10, 1995, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated June 17, 1994, and the licensee's letter dated October 10, 1995, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, 2120 L Street, NW., Washington, DC 20555, and at the University
