Dear Mr. Leddick:

SUBJECT: WATERFORD-3 TASK FORCE INSPECTION REPORT 50-382/84-34

This letter is a follow up to the exit meeting we conducted with you and members of your staff on Friday, July 20, 1984. at the Waterford site at which time we discussed with you the results of the inspection conducted by the Inquiry Team of the NRC Waterford-3 Task Force on April 2-13, April 23-May 4, and May 14-25, 1984. The results of this inspection are documented in NRC Inspection Report 50-382/84-34. Appendix C to this report contains eight Unresolved Items. Unresolved items are matters about which more information is required in order to ascertain whether they are acceptable items, violations, or deviations. As discussed at the exit meeting, you are requested to carefully review these items and advise me when you and your staff will be in a position to provide the necessary information to enable the staff to continue its evaluation. It should be noted that all unresolved items will need to be resolved prior to fuel load.

Should you or your staff have any questions concerning these items please feel free to contact me or Mark Peranich, Inquiry Team Leader (301)492-9661 directly. I look forward to your timely response to this request.

Sincerely,
