Dear Mr. Shelton:

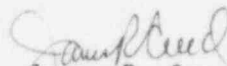

We have received the enclosed Federal Emergency Management Agency (FEMA) correspondence dated October 10, 1995, transmitting the findings for the offsite emergency preparedness aspects of the Perry Nuclear Power Plant exercise conducted on June 15, 1994.

No deficiencies were identified during this exercise. However, two Areas Requiring Corrective Action (ARCA's) were identified during the exercise.

We fully recognize that any remaining corrective actions to be implemented may involve parties and political institutions which are not under your direct control. Nonetheless, we expect that assistance, if appropriate, will be extended.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed FEMA report will be placed in the NRC Public Document Room.

Sincerely,

  
James R. Creed, Chief  
Plant Support Branch 1
