Gentlemen:

This refers to the routine safety inspection conducted by Messrs. C. L. Vanderniet and J. Gadzala of this office, from August 1 through September 4, 1990, of activities at the Point Beach Nuclear Plant Units 1 and 2. Our findings were discussed with Mr. G. J. The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

The violation is not being cited because the criteria specified in Section V.A of the Enforcement Policy were satisfied. We note that this violation is being corrected and those actions were reviewed during this inspection. Therefore, no response with respect to this matter is required.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.
