Subject: License Amendment Application to Revise the Facility Operating License to Reflect the Pending Merger of Operating Companies - Supplemental Information

Ladies and Gentlemen:

The purpose of this letter is to provide supplemental information for a pending license amendment application regarding the Davis-Besse Nuclear Power Station (DBNPS) Unit Number 1 Operating License NPF-3. The Toledo Edison (TE) Company submitted an application dated June 6, 1994 (TE Serial Number 2219), to the NRC for an amendment to the DBNPS Operating License Number NPF-3. The proposed changes reflected the pending merger of the Toledo Edison Company into the Cleveland Electric Illuminating Company. Toledo Edison submitted supplemental information to the initial submittal on July 20, 1994 (Serial No. 2239), November 11, 1994 (Serial No. 2259), April 12, 1995 (Serial No. 2290), September 19, 1995 (Serial No. 2324), and on September 27, 1995 (Serial No. 2331).

The September 19, 1995 supplemental letter noted that although the merger requires approval of other regulatory agencies in addition to the NRC, receipt of such approvals was believed to be imminent. Accordingly, the NRC was requested to grant consent to the license transfer pursuant to 10 CFR 50.80 on or before October 30, 1995. The letter also requested NRC consent to the associated license amendment on or before October 30, 1995, conditioning its effectiveness upon receipt of the other necessary regulatory agencies' approval and upon consummation of the merger.

As discussed in recent conversations with the NRC Staff, acceptance of the merger by the Federal Energy Regulatory Commission is now not expected to occur within the previously anticipated timeframe. Hence, the above-mentioned NRC actions are no longer needed on or before October 30, 1995. A revised schedule is not available at this time. Toledo Edison will keep the NRC Project Manager for the DBNPS informed of further developments.

Toledo Edison is aware that the NRC Staff was prepared to complete the above-mentioned actions within the timeframe originally requested. Please accept Toledo Edison's apologies for any inconvenience this subsequent delay may have caused.

Should you have any questions or require additional information, please contact Mr. William T. O'Connor, Manager - Regulatory Affairs, at (419) 249-2366.

Very truly yours,

MKL/laj
