Gentlemen:

In accordance with Generic Letter 88-20, Supplement 5, the Perry Nuclear Power Plant (PNPP) submits the following response. PNPP, being a focused-scope plant, will modify the scope of the seismic portion of the Individual Plant Examination of External Events for Severe Accident Vulnerabilities (IPEEE). As noted in the Generic Letter, the seismic capacities for reactor internals and soil-related failures will not be evaluated. PNPP's schedule for submittal of the IPEEE report is unchanged.
