Operating Reactors Branch #5  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

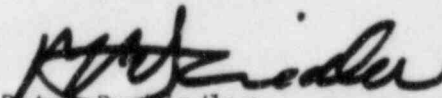

Dear Mr. Crutchfield:

Subject: Oyster Creek Nuclear Generating Station  
Docket No. 50-219  
NUREG 0737 Status  
Re: Full Term Operating License

The purpose of this letter is to inform you of an error contained in our correspondence dated June 27, 1984. In item I.C.1, table 2, we stated, "As stated in our most recent correspondence dated April 15, 1983, our EOPs will be implemented in two phases. The phase 1 EOPs were in place by November 1983." In fact, the EOPs were not in place in November 1983. The phase 1 EOPs will be implemented prior to restart from the cycle 10 refueling outage.

Should you require further information, please contact Brenda Hohman, Oyster Creek Licensing Engineer at (609)971-4642.

Very truly yours,

  
Peter B. Fiedler  
Vice President and Director  
Oyster Creek
