

NOTE TO: Thomas M. Novak, Assistant Director  
for Licensing  
Division of Licensing

FROM: Ronald Hernan, Project Manager  
Licensing Branch No. 4  
Division of Licensing

SUBJECT: DECEMBER 7, 1982, MEETING WITH REGION III - MIDLAND QA

Per our discussion on November 19, a management meeting has been scheduled with Region III (Keppler, Warnick, Shafer) on December 7, 1982, to discuss implementation of QA and Independent Design Verification programs at the Midland Plant. According to Wayne Shafer (RIII), the agenda will include:

1. Discussion of the commitments in the two Consumers Power Company letters dated September 17, 1982. These letters dealt with QA program implementation.
2. Discussion of the results of Region III's recent "hardware" inspection. These results may indicate a breakdown of QA at Midland.
3. Agree upon the manner of NRC's response to the Consumers Power letters of September 17 and October 5, 1982.

The meeting is scheduled to start at 1:00 pm and will probably be held in Mr. Eisenhut's office.
