Long Island Lighting Company
(Shoreham Nuclear Power Station)
NRC Docket 50-322: - OCH - 3
Request for Transfer of Facility License

Dear Chairman Selin and Members of the Commission:

and the Long Island Power Authority (LIPA), we are in receipt of yet another filing by petitioners Shoreham-Wading River Central School Distric': (SWRCSD) and Scientists and Engineers for Secure Energy, Inc. Replying on the merits to petitioners is impossible, as the next day simply brings more arguments never raised before. However, two important points should be maie.

First, petitioners' argument about the tax phase-down simply misses (or tries desperately to confuse) the key point: that whatever the size of the property tax liability for Shoreham at the beginning of the ten-year ramp-down, the ramp is still ten years long and, if petitioners are ultimately found to be correct in their position that a new tax year begins on March 1, delay of transfer and closing beyond that date will have de ayed the onset of reduced payments on that ramp by another year. Such a delay is their obvious, and publicly admitted, reason for their desperate, meritless thirteenth-hour paper barrages. Further, under state law and contrary to petitioners' new assertion, the phase-down will substantially eliminate tax liability associated with Shoreham, as the SWRCSD has conceded until yesterday.

Second, the request for delay predicated on threatened initiation of suit in New York challenging LIPA's continued existence (a wholly frivolous argument for reasons previously shown) is simply a replay of petitioners' earlier effort to stall NRC action by reference to other New York litigation, rejected in

Page 2 - Chairman Selin and Members of the Commission - February 26, 1992

CLI-91-08. If petitioners wanted the Commission to defer to a ruling of state law, they should have initiated litigation in time to secure relief under New York law, not merely threatened this action in a last-minute bid for delay.

We again urge the Commission to approve license transfer, without a stay, so that the transfer may occur this month.

Sincerely yours,

Donald P. Irwin CRS
