Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-313/92-04; 50-368/92-04

This refers to the inspection conducted by Mr. R. E. Baer and Dr. J. B. Nicholas of this office during the period January 27-31, 1992. The inspection included a review of the activities authorized for your NRC Operating Licenses DPR-51 and NPF-6 for your Arkansas Nuclear One, Units 1 and 2. At the conclusion of the inspection, the findings were discussed with you and those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. These areas included your radiation protection and water chemistry programs. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified. We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original signed by

A. Bill Beach, Director
Division of Reactor Projects
