Gentlemen:

This will acknowledge receipt of your letter dated February 14, 1992 and your check for \$125,000 in payment for the civil penalty proposed by NRC in a letter dated January 3, 1992.

Your response to the violation in Part I of the Notice of Violation (Notice) addresses the specific cause of the examples cited in that violation. However, that response is considered incomplete in that it failed to identify and fully discuss the reasons why the corrective actions for the violations discussed in the NRC enforcement action (EA 91-045) issued on May 31, 1991, did not effectively prevent the occurrences delineated in the subsequent violation.

Within 30 days of this letter, please submit a supplement to your February 14, 1992 response addressing the above concern. Your submittal should be sent to the Regional Administrator, Region II, with a copy to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, and a copy to the Resident Inspector at the Brunswick site. We also expect to discuss this issue with you at our March 3, 1992 enforcement conference.

Your corrective actions will be examined during future inspections.

Sincerely,

Original Signed By
