SUBJECT: PLANT PERFORMANCE REVIEW (PPR) - COMANCHE PEAK STEAM ELECTRIC
STATION (CPSES)

On October 4, 1995, the Regional staff completed the semiannual Plant Performance Review (PPR) of CPSES. The staff conducts these reviews for all operating nuclear power plants to develop an integrated understanding of safety performance. The results are used by Regional management to facilitate planning and allocation of inspection resources. The PPR for CPSES involved the participation of all technical divisions in evaluating inspection results and safety performance information for the period from April to September 1995. PPRs provide Regional management with a current summary of licensee performance and serve as inputs to the NRC Systematic Assessment of Licensee Performance (SALP) and senior management meeting (SMM) reviews.

This letter advises you of our planned inspection effort resulting from the CPSES PPR review. It is provided to minimize the resource impact on your staff and to allow for scheduling conflicts and personnel availability to be resolved in advance of inspector arrival onsite. The enclosure details our inspection plan for the next 8 months. Many of the planned inspections are scheduled to be performed in the next SALP cycle. This list of planned inspections will be reviewed by the SALP Board and modified as necessary by their conclusions. The rationale or basis for each inspection outside the core inspection program is provided so that you are aware of the reason for emphasis in these program areas. Resident inspections are not listed due to their ongoing and continuous nature.

We will inform you of any changes to the inspection plan. If you have any questions, please contact W. D. Johnson at (817) 860-8148.

**COMANCHE PEAK STEAM ELECTRIC STATION
INSPECTION PLAN**

IP - Inspection Procedure

Core Inspection - Minimum NRC Inspection Program (mandatory all plants)

INSPECTION	TITLE/ PROGRAM AREA	NUMBER OF INSPECTORS	PLANNED INSPECTION DATES	TYPE OF INSPECTION - COMMENTS
IP 83750	Radiation Protection	1	10/30- 11/3/95	Core Program Inspection
IP 92903	Engineering Followup	1	12/4-8/95	Regional Initiative Inspection - to followup on concerns identified during S/G tube integrity inspection
IP 82301	EP Exercise for Power Reactors	4	12/4-8/95	Core Program Inspection
IP 81700	Physical Security Program	2	2/26-3/1/96	Core Program Inspection
IP 71001	Licensed Operator Requalification Program Evaluation	2	6/3-7/96	Core Program Inspection
