General Comment

Eliminating public health and waste disposal protections during a pandemic is beyond perverse. There is no reason for making this change at this time, except to circumvent public scrutiny. Any person involved at the NRC, particularly political appointees or those carrying out the directives of political appointees, with this and similar flouting of common sense environmental protections during this pandemic are criminals and traitors of our great country. Be a true U.S. citizen, and do everything in your means to stop this madness and protect public health.
