Dear Mr. Stewart:

SUBJECT: CORRECTION - CONFIRMATORY ORDER FOR SUPPLEMENT 1 TO NUREG-0737
NORTH ANNA POWER STATION, UNITS NO. 1 AND NO. 2 (NA-1&2)

The Commission issued an Order on June 14, 1984 confirming your commitments to implement those post-TMI related items set forth in Supplement 1 to NUREG-0737, "Requirements for Emergency Response Capability." This Order was based on commitments contained in your letters responding to the NRC's Generic Letter 82-33 dated December 17, 1982 and in negotiation with the NRC staff.

One of the post-TMI actions included in the Order dealt with completion of your Technical Support Center. The attachment to the June 14, 1984 NA-1&2 Order listed July 1, 1985 as the scheduled completion date for having the Technical Support Center fully functional. However, the date mutually agreed upon between VEPCO and the NRC staff was "July 31, 1985 except for data communications which follows SPDS schedule." Due to an administrative error, our July 14, 1984 Order did not specify this mutually agreed upon completion date for the Technical Support Center. Attached is a corrected page which supersedes page 2 of the Attachment to our June 14, 1984 Order for NA-1&2. Please substitute the corrected page for the original page, as appropriate.

We regret any inconvenience caused by this administrative error.

Sincerely,

Original Signed by J. R. Miller

James R. Miller, Chief
Operating Reactors Branch #3
Division of Licensing
