In the Matter of
Texas Utilities Generating Electric Company, et. al.
(Comanche Peak Steam Electric Station, Units 1 and 2)
Docket Nos. 50-445 and 50-446

Dear Administrative Judges:

By letter dated June 11, 1984, I transmitted to you copies of the Comanche Peak Plan for the Completion of Outstanding Regulatory Actions. This letter is to advise you of a recent slip in the schedule for submitting to the Board the Supplement Safety Evaluation Report (SSER), which will address the resolution of outstanding allegations on construction quality at Comanche Peak, from late August to the end of September 1984 (see new Plan - Figures 1 and 5, enclosed).

Since the Plan was approved by NRC management on June 5, 1984, we have been tasked with finding the resources required to meet the schedules laid out in the Plan. Due to a delay in getting resource commitments for the Technical Review Team (TRT), we were not able to begin our first review period at the Comanche Peak plant site until July 9, 1984, a month later than previously scheduled. It is still my intention to make every effort to follow the Plan schedules as closely as possible.

Sincerely,

TSI
Thomas A. Ippolito, Project Director
Comanche Peak
Division of Licensing
