Radiation Safety Officer
1100 West Michigan Street
Indianapolis, Indiana 46223

Gentlemen:

This is in reference to your letter, dated May 26, 1983 to amend
Byproduct Material License No. 13-02752-08 to add Shailaja Reddy, M.D.,
as an authorized user.

As Dr. Reddy is not certified by the American Board of Radiology in
Radiology or Therapeutic Radiology we need certain information concern-
ing her training and experience as was stated in our letter dated
February 2, 1981 (copy enclosed). All of the information requested was
not included in your recent amendment request. Specifically, we need
the following:

- a. In addition to a description of the scope and extent of Dr. Reddy's
training and experience (as known by the preceptor-physician) the
preceptor's letters of reference should provide the
preceptor-physician's evaluation of Dr. Reddy's competency to use,
independently, brachytherapy and/or teletherapy sources for
treatment of patients.
- b. Although Dr. Reddy states that she will "appear for the certifica-
tion examination in Therapeutic Radiology in the month of October,
1983" she did not state whether this will be the written or oral
examination. As was requested in our February 2, 1981 letter,
please describe Dr. Reddy's status with ABR, including such
information as whether the examination process has been started,
whether the written and/or oral examinations have been taken, the
results of these examinations and the date by which the examination
process is expected to have been completed.
