U. S. Nuclear Regulatory Commission
Material Licensing Branch
Division of Fuel Cycle and Material Safety
Washington, D. C.

Gentlemen:

Would you please renew my present materials license number 18-18369-01. I have enclosed a copy of this license. I wish to continue to operate under this license and will continue to operate in accordance with the documents I originally submitted when applying for this license as well as applicable NRC regulations and license conditions.

I have enclosed a check for \$110.00, which I understand from the manufacturer of my gauge, Troxler Electronics is the current fee for my gauge. I plan to continue using this same gauge for which the original license was issued.

If you have any questions concerning the renewal of this license please contact me at the above address or phone number
