Mr. Richard Ladun  
U. S. Nuclear Regulatory Commission  
Region 1  
631 Park Avenue  
King of Prussia, Pa. 19406  
Dear Mr. Ladun:

I have been requested by Dr. Glenn to furnish you with the following additional information relative to my application for renewal of my material license. The mail control number assigned my application is 16780.

The Troxler 3411B gauge is owned and used only by myself. The gauge is at various construction sites in eastern Maine. When not in use it is stored in my office - home which is:

R. F. D. No. 5  
Old Bangor Road  
Ellsworth, Maine 04605

The gauge is kept in a storage area of the basement that is covered with a 4 inch thick concrete ceiling.

In regards to providing written instructions to users informing them not to remove or dismantle the source, I am the only employee and user of the gauge. I fully understand that the gauge must be returned to Troxler for any maintenance.

Hopefully this will provide you with the information needed to process my application.

Sincerely yours.

*Kenneth Shea*
