Docket No. 50-282
Docket No. 50-306

Northern States Power Company
ATTN: Mr. L. R. Eliason
Vice President, Nuclear
Generation
414 Nicollet Mall
Minneapolis, MN 55401

Dear Mr. Eliason:

This refers to the routine safety inspection conducted by Mr. T. J. Kozak of this office on February 25-28, 1992, of activities at the Prairie Island Nuclear Generating Plant, authorized by NRC Operating Licenses No. DPR-42 and DPR-60 and to the discussion of our findings with Mr. M. Sellman and others of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter, and the enclosures to this letter will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

"Original signed by W. Snell"
