Dear Mr. Denton:

The Referenced letter transmitted responses to NRC questions regarding the Wolf Creek Procedures Generation Package. Through subsequent discussions with the NRC Project Manager for the Wolf Creek Project, it has been determined that more information, with respect to technical deviations from the Westinghouse Emergency Response Guidelines, was required for the NRC to complete their review. This information is as follows:

The technical content of the Wolf Creek Emergency Operating Procedures is in accordance with Revision 1 (9/1/84) to the Westinghouse High Pressure Emergency Response Guidelines.

This information is hereby incorporated into the Wolf Creek Generating Station, Unit No. 1, Operating License Application.

Yours very truly,
