Attention: B. Joe Youngblood, Chief
Licensing Branch #1
Division of Licensing

Dear Chief Youngblood:

Your inquiry of July 13, 1984, regarding the archeological site 11Ka179 for the National Register has been received.

Upon the review of the Illinois State Historic Preservation Office, Staff Archeologist, Thomas Emerson, it has been concluded that the site retains integrity and will likely yield evidence sufficient for its inclusion in the National Register. However, the current form does not state the significance sufficiently for the National Register standard of documentation. It is my understanding that Michael Wiant will shortly submit adequate documentation. In this light, this office recommends waiting for Wiant's revised form.

Thank you for your cooperation.

Sincerely,

Keith A. Sculle
National Register Coordinator
