SUBJECT: NRC INSPECTION REPORT NOS. 50-321/95-17 AND 50-366/95-17

Gentlemen:

Thank you for your response of October 19, 1995, to our Notice of Violation, issued on September 22, 1995, concerning activities at your Hatch facility. We have evaluated your response and found that it meets requirements of 10 CFR 2.201. We will examine the implementation corrective actions during future inspections.

Your response did not state when the corrective steps to alleviate pressure locking concerns for the Low Pressure Coolant Injection and Core Spray Injection inboard Injection Valves would be completed. In a telephone call on November 1, 1995, Mr. J. Heidt of your organization confirmed that the corrective steps (modifications) were to be completed in the current Unit 2 and next Unit 1 outages, respective to the valves.

We appreciate your cooperation in this matter.

Sincerely,
