

October 31, 1995

North Carolina State University  
ATTN: Mr. Pedro B. Perez, Associate Director  
Department of Nuclear Engineering  
P. O. Box 7909  
Raleigh, NC 27695-7909

SUBJECT: NEW REGION II ORGANIZATIONAL CHARTS

Dear Mr. Perez:

As part of the NRC initiatives to increase efficiency, increase span of control, and more effectively regulate the nuclear industry, Region II reorganized effective October 15, 1995. The management of the inspection program associated with non-power reactors is within the Fuel Facility Branch. Enclosed are revised Region II organization charts reflecting this change.

Should you have any questions, please contact me at (404) 331-5547.

Sincerely,

151

Edward J. McAlpine, Chief  
Fuel Facilities Branch  
Division of Nuclear Materials Safety

Docket No. 50-297

\*Watts Bar under special project organization until after licensing and power ascension, see attached chart

**DIVISION OF REACTOR SAFETY**  
**A. GIBSON, DIRECTOR**  
**J. JAUDON, DEPUTY DIRECTOR**

The Division of Reactor Safety supports the Office of Nuclear Reactor Regulation, the Regional Administrator and the Division of Reactor Projects by implementing the NRC power reactor inspection and enforcement program in the areas of engineering, maintenance, operator qualification, radiological controls, emergency preparedness and security; by implementing the NRC operator examination program; by providing specialized technical support; by review of licensee changes to quality assurance, emergency preparedness and security plans; and by participating in the NRC SALP process.

**D. Verrelli, Technical Assistant**

The Technical Assistant directly supports Division management through completion or coordination of special projects; conduct of self-assessment functions; reviewing allegation close-out packages for completeness; and tracking of response to assigned action items.

**MAINTENANCE BRANCH**  
**C. Christensen, Chief**

The Maintenance Branch supports the Office of Nuclear Reactor Regulation and the Division of Reactor Projects by inspecting reactor licensee activities in the area of maintenance. The Branch provides support by providing technical expertise in areas required by the inspection program and by participating in the NRC SALP process. The Branch conducts region-based core, reactive and regional initiative maintenance inspections.

**ENGINEERING BRANCH**  
**C. Casto, Chief**

The Engineering Branch supports the Office of Nuclear Reactor Regulation and the Division of Reactor Projects by inspecting reactor licensee activities in the area of engineering. The Branch provides support by providing technical expertise in areas required by the inspection program and by participating in the NRC SALP process. The Branch conducts region-based core, reactive and regional initiative engineering inspections.

**OPERATOR LICENSING AND HUMAN PERFORMANCE BRANCH**  
**T. Peebles, Chief**

The Operator Licensing and Human Factors Branch supports the Office of Nuclear Reactor Regulation and the Division of Reactor Projects by administering the operator licensing program, by conducting operator qualification training inspections, by providing expertise for the evaluation of reactor operations, and by participating in the NRC SALP process. The Branch conducts region-based core, reactive and regional initiative operator licensing and training inspections.

**PLANT SUPPORT BRANCH**  
**K. Barr, Chief**

The Plant Support Branch supports the Office of Nuclear Reactor Regulation and the Division of Reactor Projects by inspecting reactor licensee activities in the areas of health physics, emergency preparedness; environmental and effluent monitoring and controls; and participating in the NRC SALP process. The Branch conducts region-based core, reactive and regional initiative plant support inspections.

**SPECIAL INSPECTION BRANCH**  
**P. Fredrickson, Chief**

The Special Inspection Branch supports the Office of Nuclear Reactor Regulation and the Division of Reactor Projects by inspecting reactor licensee activities in specialist areas. The Branch provides support by providing technical expertise in areas required by the inspection program and by participating in the NRC SALP process. The Branch assists in conducting region-based core, reactive and regional initiative engineering and maintenance inspections.

**DIVISION OF NUCLEAR MATERIALS SAFETY**

**B. MALLET, DIRECTOR**  
**D. COLLINS, DEPUTY DIRECTOR**

**Technical Assistant**  
**T. Decker**

The Technical Assistant directly support Division management through completion or coordination of special projects; conduct of self-assessment functions; review of allegation close-out packages for completeness, and tracking of response to assigned action items.

The Division of Nuclear Materials Safety is responsible for inspection and technical evaluation of all NRC regulated areas associated with nuclear materials licensees and fuel facilities in Region II. The Division issues specified categories of materials licenses for Region II. The Division is responsible for project management activities for fuel facilities, Independent Spent Fuel Storage Installations at power reactor facilities in Region II and oversight of all decommissioning activities in the Region. The Division has responsibility for the Region II Agreement State Program and acts as the focal point for coordination with NMSS Headquarters. The Division fully supports and participates in the Region II Incident Response Program. The Division Director reports to the Regional Administrator.

**Agreement State Program Officer**  
**R. Woodruff**

The Agreement State Program Officer administers the Agreement State Program oversight in Region II. This includes the review of materials safety programs in the Agreement States in Region II, coordinating safety issues and review of operational events occurring in Agreement States in Region II. The Officer also serves as the principal contact for the Program with Agreement States and coordinates and participates in technical assistance and training for Agreement State personnel. The Agreement State Program Officer reports to the Division Director.

**FUEL FACILITIES BRANCH**  
**E. McAlpine, Chief**

The Fuel Facilities Branch performs inspections and evaluations of all Region II fuel facilities. The Branch conducts inspections at fuel facilities including the resident inspector program at one Category I fuel facility and routine inspections at all facilities in the areas of operational safety, radiation safety, emergency preparedness, physical security and nuclear criticality safety. The Branch implements the Enforcement Policy in connection with findings for fuel facilities. The Branch provides the regional project management oversight for fuel facilities and independent Spent Fuel Storage Installations at power reactor facilities in Region II. The Branch acts as a focal point for coordination with NMSS Headquarters in the fuel facility area and supports the Region II Incident Response program in this area. The Branch provides Regional support for NMSS guidance/development in the fuel facility area. The Branch Chief reports to the Division Director.

**MATERIAL LICENSING/INSPECTION**  
**BRANCH 1**  
**C. Hosey, Chief**

The Materials Inspection/Licensing Branch 1 performs technical and safety reviews of issues and operational events of licensed materials (medical, academic, R&D and industrial) in selected States or territories in Region II, the U.S. Navy Master Materials License and non-Federal facilities in Region II. The Branch conducts routine and reactive inspections for all types of licensed materials users in the jurisdictions indicated. The Branch implements the Enforcement Policy in connection with inspection findings. The Branch performs the technical review and issuance of materials licensing actions, including by-product, source and some nuclear material used in medical, industrial, and academic activities in the jurisdictions indicated. The Branch has the project management activities associated with the U.S. Navy Master Materials License. The Branch oversees the licensing assistant for Materials Inspection/Licensing Branches 1 and 2. The Branch backs up the licensing assistant in maintaining the NRC official docket files. The Branch supports the Region II Incident response in the materials area. The Branch coordinates Regional input into NMSS program guidance/development in the materials area. The Branch Chief reports to the Division Director.

**MATERIALS LICENSING/INSPECTION**  
**BRANCH 2**  
**J. Potter, Chief**

The Materials Inspection/Licensing Branch 2 performs technical and safety reviews of issues and operational events related to all uses of licensed materials (medical, academic, R&D, and industrial) in NRC jurisdiction in Region II Agreement States, Federal licensees, selected States and territories in Region II, and the Barnwell Low Level Waste Site. The Branch conducts routine and reactive inspections for all types of licensed materials users in the jurisdictions indicated. The Branch implements the Enforcement Policy in connection with inspection findings. The Branch exercises oversight of the Regional reciprocity filing and tracking system. The Branch performs the technical review and issuance of materials licensing actions, including by-product, source and some special nuclear material used in medical, industrial, and academic activities in the jurisdictions indicated. The Branch oversees the coordination of the materials license terminated files program for Region II. The Branch backs up the licensing assistant in maintaining the NRC official docket files for the materials files. The Branch coordinates Regional input into NMSS program guidance/development in the materials area. The Branch Chief reports to the Division Director.
