Subject: FW: Request for Review/Approval: Acknowledgement of Receipt of Framatome's Updated FNMCP
Date: Thursday, April 02, 2020 6:47:00 PM
Importance: High

Dear Mr. Tate:

This is to acknowledge receipt of your submittal dated January 20, 2020 (Agencywide Document Access and Management System [ADAMS] Accession Number ML20028D937), transmitting Framatome's Revised Fundamental Nuclear Material Control Plan (FNMCP, E07-01-001 Version 11 .0). The NRC staff completed a preliminary review of the information provided and identified no major deficiencies.

As discussed in Staff Requirements Memorandum for SECY-16-0009, "Recommendations Resulting from the Integrated Prioritization and Re-Baselining of Agency Activities" (ADAMS Accession Number ML16104A158), the U.S. Nuclear Regulatory Commission (NRC) licensing staff will no longer perform detailed reviews of FNMCPs. Therefore, we are referring your submittal to the NRC inspection staff for further evaluation of the changes during a future inspection of your facility's licensed activities. Please note that no cost activity code is being assigned to this action.

In accordance with Title 10 of the *Code of Federal Regulations*, Section 2.390, "Public inspections, exemptions, requests for withholding," of the NRC's "Agency Rules of Practice and Procedure," a copy of this communication will be available electronically for public inspection in the NRC Public Document Room or from ADAMS. ADAMS is accessible from the NRC Web Site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions regarding this matter, please contact me.

Thanks.

Osiris Siurano-Perez
Project Manager
