Gentlemen:

SUBJECT: NRC INSPECTION REPORT NO. 50-395/91-23

Thank you for your response of February 5, 1992, to our Notice of Violation issued on January 6, 1992, concerning activities conducted at your V. C. Summer Nuclear Facility. We have examined your response and found that it meets the requirements of 10 CFR 2.201.

We are in agreement with your comment concerning violation A not having been presented as a violation in the exit interview on December 17, 1991. After additional facts were obtained, the decision was made to proceed with a violation for this issue. Your staff was informed of this decision on December 19, 1991, and subsequent discussions were held in which dissenting comments were made by your staff. We regret that this information was omitted from the "Exit Interview" paragraph of Inspection Report 50-395/91-23.

We are examining your response to Violation A and we will advise you of the results of our evaluation.

We will examine the implementation of your action to correct violation B during future inspections.

We appreciate your cooperation in this matter.

Sincerely,

Luis A. Reyes, Director
Division of Reactor Projects
