Southern California Edison Co.
San Onofre Nuclear Generating Station
ATTN: Harold B. Ray
Executive Vice President
P.O. Box 128
San Clemente, California 92674-0128

SUBJECT: CLOSURE OF INVESTIGATION CASE NO. 5-93-030

This is in reference to an investigation conducted by the NRC's Office of Investigations (OI). The investigation involved a review of whether false or misleading information had been provided to the NRC regarding the failure of Valve S1-AFW-CV-113 and if a maintenance engineering and services individual had been discriminated against for engaging in protected activities.

The investigation did not develop evidence to support a conclusion that false or misleading information had been provided to the NRC or that discrimination had occurred. The individual filed an Energy Reorganization Act (ERA) Section 211 complaint with the Department of Labor (DOL) in January 1994 regarding the alleged discrimination. The complaint was settled with the Southern California Edison Co. before a decision by DOL was reached.

This investigation is closed and no further action is planned with respect to the investigative conclusions.

Please contact us should you have any questions about this matter.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be placed in the NRC's Public Document Room.

Sincerely,

A handwritten signature in cursive script, appearing to read "J. E. Dyer".

J. E. Dyer, Director
Division of Reactor Projects
