Re: Docket No. 030-10041  
License No. ~~37-15982-01~~ 37-15928-01  
Inspection No. 91-001

Dear Mr. Shanbaky,

This refers to your letter received January 24, 1992 regarding our response to your letter of September 24, 1991. With respect to your request for further information we submit the following:

- Item B.1 The policy regarding daily surveys for each day the Nuclear Medicine Department is in operation was reviewed with the technologists. These records will be reviewed on a quarterly basis to ensure compliance.
- Item B.2 The responsible technologist has been reminded of the importance of wearing film badges. In addition, at the suggestion of Mr. Courtemanche, we have revised our film badge policy to require that film badges be left in the locker area of the department when not in use. Compliance with this revised policy will be reviewed on a weekly basis.

I hope that this response answers your questions. If there is any further information that you require, please contact me at the number above.

Sincerely,

Dawn M. Gideon  
Executive Director
