Re: License Application for By-product Material  
License, Industrial - Pyrotector, Inc.

Dear Mr. Hickey:

By application dated December 2, 1982, (see Attachment #1) Pyrotector, Inc., subsidiary of Grinnell Fire Protection Systems Company, Inc., submitted NRC Form 313 for the above-captioned Material License. Pyrotector, Inc.'s application stipulated that it would comply with the requirements of License No. 20-1836-01 and License No. 20-18386-02E and all amendments issued to the date of application.

Chloride Pyrotector, the party to whom the aforementioned licenses were issued, has by letter dated December 10, 1982 (see Attachment #2) made application for an amendment.

Please be advised that Pyrotector, Inc. incorporates said amendment request into its license application as if the same had been included in its initial application.

If you have any questions, please contact me at (401) 456-5740.

Very truly yours,

Bernard J. O'herty  
Secretary & General Counsel
