Office of Nuclear Material Safety and Safeguards
Washington, DC 20555

Gentlemen:

Request is made to renew Byproduct Material License 45-01052-21 held by NASA-Langley Research Center. The expiration date for this license is April 30, 1984. NRC Form 313I has been completed and is enclosed. Two copies of LHB 1710.5, Ionizing Radiation are also enclosed.

Your prompt action on this renewal request will be greatly appreciated. If additional information relative to this renewal request is required, please contact the Langley Research Center Radiation Safety Officer, Carter B. Ficklen, at FTS 928-2246 or Area Code 804-865-2246.

Sincerely,

V. William Wessel
