Reference: Event 29257

Subject: Final Report

On July 10, 1995, B&G Manufacturing Co., Inc. purchased the name and certain assets from Cardinal Industrial Products, L.P., a limited partnership formed and operated in Nevada servicing the nuclear power industry. B&G adopted the "Cardinal Industrial Products" name and began its own nuclear fastener business from that same location.

Shortly after July 10, 1995, B&G's new Cardinal Industrial Products was notified of a substandard fastener which had been processed and sold by Cardinal Industrial Products, L.P.

As a courtesy and service to customers, B&G is submitting a final report of its investigation and analysis of the event so that customers can evaluate the situation in light of 10 CFR Part 21 paragraph 21.21 (a) (1) (ii) and (b) (1).

Should you have any questions concerning this report, please contact the quality assurance manager at the division, David Z. Hathcock, at (702) 739-1966, or myself at (215) 822-1925, extension 338.

Sincerely yours,

William A. Edmonds
 President
