

## UNITED STATES NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20585-0001

November 16, 1995

Mr. Nicholas J. Liparulo Nuclear Safety and Regulatory Activities Westinghouse Electric Company P.O. Box 355 Pittsburgh, Pennsylvania 15230

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE FOR

WESTINGHOUSE AP600 DESIGN LETTER OF JUNE 20, 1995

Dear Mr. Liparulo:

By Westinghouse letter (NTD-NRC-95-4489) dated June 20, 1995, you submitted WCAP-14382, "WGOTHIC Code Description and Validation" dated May 1995. In the letter, you stated that WCAP-14382 contains proprietary information consisting of trade secrets, commercial information, or financial information which was privileged or confidential. You requested that it be withheld from public disclosure in accordance with 10 CFR 2.790. You also submitted a non-proprietary version of the report (WCAP-14383) for placement in the Public Document Room.

In an attached letter also dated June 20, 1995 (AW-95-849), you provided an affidavit dated June 21, 1995, executed by Brian McIntyre of Westinghouse. The affidavit stated and WCAP-14382 identified, designated information owned and held in confidence by Westinghouse which should be considered exempt from mandatory public disclosure for several reasons including the following:

- a. The information reveals the distinguishing aspects of a process (or component, structure, tool, method, etc.) where prevention of its use by any of Westinghouse's competitors without license from Westinghouse constitutes a competitive economic advantage over other companies.
- b. It consists of supporting data, including test data, relative to a process (or component, structure, tool, method, etc.), the application of which data secures a competitive economic advantage, e.g., by optimization or improved marketability.
- c. Its use by a competitor would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, of licensing a similar product.

We have carefully reviewed your request and the information contained in the WGOTHIC Code Description and Validation Report. We have concluded that the material contained in your submittal may be withheld in accordance with 10 CFR 2.790 with the exception of Figure 8-19, "Large-Scale PCS Instrumentation Elevations" located on page 8-36. This figure is available to the public through other Westinghouse reports and in this report on page 3-13 and therefore, in accordance with 10 CFR 2.790(4)(iv) should not be withheld from public disclosure.

9511270221 951116 PDR ADOCK 05200003 A PDR NRC FILE CENTER COPY 63'

In accordance with 10 CFR 2.790(c). Figure 8-19 which you have sought to be withheld will be placed in the Commissions's Public Document Room 30 days after receipt of this letter unless you either withdraw the above information. or submit additional justification not to disclose the information.

If you request that the information be withdrawn, your request will be considered in light of applicable statutes and regulations, and a determination made whether the documents will be withheld from public disclosure and returned to you.

We have determined that the remaining information in the enclosure designated as proprietary does contain trade secrets or proprietary commercial information. We have determined that this information, which is marked as proprietary, will be withheld from public disclosure pursuant to 10 CFR 2,790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our concultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public disclosure should change in the future such that the information could then be made available for public inspection, you should promptly notify the Nuclear Regulatory Commission. You should understand that the Nuclear Regulatory Commission (NRC) may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your withheld information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

> Sincerely. original signed by: Diane T. Jackson, Project Manager Standardization Project Directorate
