DEC 19 1983

MEMORANDUM FOR: Those on the Attached List

FROM: C. E. Norelius, Director, Division of Project and Resident Programs

SUBJECT: REGION III SALP 4 SCHEDULE, REVISION 2

This memorandum revises the previously issued SALP 4 Schedule dated October 4, 1983, by extending the assessment period for Byron and Braidwood to 18 months. This extension necessitates delays in the other Byron and Braidwood SALP milestone dates as shown on the revised schedule.

This revision also incorporates additional milestone dates for the completed SALP 4 assessments for Big Rock Point, LaCrosse, Monticello, Palisades, and Prairie Island.

The actual dates for SALP Board and licensee meetings may vary one to two days from the target dates. Actual dates for these meetings will be established at the end of the assessment period for each site.

Because Zimmer is still considered a special case, no decision on a schedule has been made at this time. When a decision is made, appropriate notification will be made.

Any questions or changes in the schedule should be directed to T. Tambling (FTS 388-5548) or J. Berggren (FTS 388-5716) of my staff.
