Gentlemen:

This refers to the special inspection conducted by W. F. Smith, Resident Inspector, of this office during the period May 3 through June 19, 1984, of activities authorized by NRC Construction Permit CPPR-126 for the Comanche Peak Facility, Unit 1, and to the discussion of our findings with Messrs. B. R. Clements, J. C. Kuykendall, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included the teardown, inspection, and reassembly of Unit 1, Train "B" emergency diesel generator in accordance with the Transamerica Delaval Owners' Group recertification program. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter, and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
